

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Stopping a child that was climbing a rail as he was at risk of falling. He tried to push me out of the way	Trauma to joints/ligaments unspecified	Shoulder	2019/20	s.47(3)(b) - Contrary to P
§ 47(3)(b) - Contrary to Public Interest before starting work, there was water on the floor, so as i walked my § 47 leg went forward and i began to fall, I used my left arm to grab the bench top to stop myself from falling and did stop my elf, but I twisted as i did this causing injury	Soft tissue diseases due to non-traumati	Neck and shoulder	2019/20	
Working with § 47(3)(b) - Contran who reacted violently and bit on wrist, puncturing skin	Laceration not involving amputation	Wrist	2019/20	
lifting tables at work	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Tripped and fall, hitting metal pole on § side of body while walking towards 2 kids to break up a fight	Soft tissue due to trauma/unknown mech.	Other specified multiple locations	2019/20	
§ 47(3)(b) - Con School - Trying to insert needle tip into sharps container at school	Medical sharp/needle-stick puncture	Fingers	2019/20	
Student hit § 47 forearm repetitively with book over use	Soft tissue due to trauma/unknown mech.	Forearm	2019/20	
§ 47(3)(b) Assaulted by a § 47 school student yesterday. Student wanted to play by herself, other kids wanted to play with her. She wanted to leave and started attacking	Epicondylitis	Elbow	2019/20	
§ 47(3)(b) Student ran at § 47(3)(b) grabbed hold of § 47(3)(b) upper arms and knee § 47(3)(b) in the § 47 roin.	Anxiety/stress disorder	Psychological system in general	2019/20	
workplace bullying	Other diseases not elsewhere classified	Brain	2019/20	
gone back to school and I was given a timetable and I cant do it	Anxiety/stress disorder	Psychological system in general	2019/20	
§ 47(3)(b) - C School - Assisting a child and twisted § 47 knee	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Repetitive writing above shoulder	Bursitis	Shoulder	2019/20	
witness to violence caused by a student	Post-traumatic stress disorder	Psychological system in general	2019/20	
Tripped over a metal grate near the oval - fell forward onto hands	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
§ 47(3)(b) School - Slipped on wet ground	Trauma to muscles/tendon unspecified	Ankle	2019/20	
Student threw Ipad with force to § 47 dorsum hand	Unspecified injuries	Wrist	2019/20	
I fell over a box when entering a classroom, landing heavily on my hands and knees.	Contusion, bruising, superficial crush	Knee	2019/20	
Bending down completing work on a low display board - a child bumped into her causing fall	Disc displacement, prolapse, hernia	Lower back	2019/20	
The claimant was performing her normal work duties, which include repetitively typing and using the computer mouse and using the iPhone	Muscle/tendon strain (non-traumatic)	Wrist	2019/20	
Sat on bench outside classroom with a Student - lent back on the wall and struck back on metal hooks	Contusion, bruising, superficial crush	Back - unspecified	2019/20	
Kicked in the mouth by a Student	Musculoskeletal/connect tissue unspecif.	Head - multiple locations	2019/20	
Accidentally crushed between 2 big rolls of newsprint, moving them and they rolled together and pinched her little finger.	Other fractures not elsewhere classified	Fingers	2019/20	
Tripped over on uneven ground. Landed on wrist and hip. With other staff who saw her fall.	Other fractures not elsewhere classified	Wrist	2019/20	
Following an Altercation with a fellow staff member	Anxiety/stress disorder	Psychological system in general	2019/20	
Went to sit down on chair - Student pulled chair from beneath her and landed on bottom on ground	Back pain, lumbago, sciatica	Back - other and multiple	2019/20	
Tripped on concrete blocks holding up fences around construction work at school	Trauma to joints/ligaments unspecified	Knee	2019/20	
Coming out of the book room, twisted her ankle on uneven ground and fell on her knees.	Other fractures not elsewhere classified	Foot	2019/20	
contracted from a student at school	Infectious diseases not elsewhere class.	Chest - unspecified	2019/20	
Student bit hand while on playground duty.	Superficial injury	Hand	2019/20	
Carrying resource boxes between classrooms	Back pain, lumbago, sciatica	Lower back	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Whilst presenting I was trying to move away from powerpoint presentation. Tripped over bar and injured [§ 47] lower leg	Soft tissue due to trauma/unknown mech.	Lower leg	2019/20	s.47(3)(b) - Contrary to
I was supporting a [§ 47(3)] student in the courtyard. [§ 47(3)(b) - Contrary to Public In] [§ 47(3)(b) - Contrary to Public]. The student became unstable and fell downwards to the ground, while I was holding her [§ 47(3)(b) - Contrary to Public Interest] behind her back. I was able to pull her hand up so that she didn't hit her head on the ground which pulled my arm downwards and I felt sharp pain immediately in my [§] shoulder.	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
Fell down while walking down stairs at school.	Unspecified injuries	Hand	2019/20	
Fell walking in classroom	Traumatic tearing from muscle, avulsion	Shoulder	2019/20	
was allegedly thrown with metal car to [§] temple area	Contusion, bruising, superficial crush	Head - unspecified locations	2019/20	
Student had thrown a pair of scissors at the teacher aide and punctured her [§ 47] forearm	Laceration not involving amputation	Forearm	2019/20	
she was supporting a co-worker with a puncture wound injury. A student through a pair of scissors at her co-worker and [§ 47(3)] was supporting her until the ambulance came.	Post-traumatic stress disorder	Psychological system in general	2019/20	
She witnessed a student throwing scissors at a co-worker and scissors punctured the co-workers [§ 47] forearm	Anxiety/stress disorder	Psychological system in general	2019/20	
Psychological disturbance after involved with extremely violent student pushing furniture at work - pain lumbar spine	Mental diseases, unspecified	Psychological system in general	2019/20	
Playing soccer and tripped over and fell and Broke [§ 47] foot and lacerated toe	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Lifting a box of paper up onto a table - felt discomfort in [§ 47] shoulder	Other fractures not elsewhere classified	Toes	2019/20	
Holding a [§] /o child while trying to lock the top of the sliding door - child pulled [§ 47] arm to the floor	Trauma to joints/ligaments unspecified	Neck and shoulder	2019/20	
Fall	Injuries to nerves and spinal cord	Upper arm	2019/20	
Walking between students, uneven ground and slipped falling onto [§] side	Superficial injury	Elbow	2019/20	
[§] knee pain awaiting orthopaedic review	Unspecified injuries	Ankle	2019/20	
Landed on toes and twisted ankle	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Allegedly Punched by a student.	Anxiety/stress disorder	Psychological system in general	2019/20	
While working at [§ 47(3)(b) - Contrary to] School in [§] a student jammed her [§ 47] wrist in door repeatedly. Soon after a colleague ran into her classroom with [§ 47(3)(b) - C]	Superficial injury	Face	2019/20	
[§ 47] Ongoing bullying by students.	Trauma to muscles/tendon unspecified	Knee	2019/20	
Scratched by Student to face area	Contusion, bruising, superficial crush	Hand	2019/20	
Walking on a path at school on a slope and i slipped.	Other fractures not elsewhere classified	Fingers	2019/20	
Fell at work while walking and landed to her [§ 47] knee	Medical sharp/needle-stick puncture	Fingers	2019/20	
I was pushing a [§ 47(3)(b) -] and pushed it through the doorframe and kind of lost control and my little finger caught in between the door and the [§ 47(3)]	Meniscus degenerate/detached/tear	Knee	2019/20	
Blood testing student	Unspecified injuries	Knee	2019/20	
Walking up external wooden stairs, stepped up on [§ 47] foot and heard noise/felt pain in [§ 47] knee	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Walked to turn TV off - tripped over Student's legs and fell forward onto carpet	Other fractures not elsewhere classified	Ankle	2019/20	
Caught the outside of ankle on grass - rolled [§ 47] ankle	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Whilst on playground duty - stepped into pothole and fell	Trauma to joints/ligaments unspecified	Ankle	2019/20	
A student was going off and kicked my [§ 47] knee (as well as leg and punched back, stomach, side and lower back) two or three times hard in the front and a minute later in the back of the knee.	Soft tissue diseases due to non-traumati	Fingers	2019/20	
Stepped on edge of path - rolled [§ 47] ankle and fell to [§ 47]	Trauma to joints/ligaments unspecified	Ankle	2019/20	
[§ 47(3)(b) -] Physically assaulted by heightened Student - several punches to jaw, stomach, left hand	Soft tissue diseases due to non-traumati	Fingers	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Sitting in adjustable chair - Student dropped the lever suddenly causing drop, felt immediate pain in back	Trauma to joints/ligaments unspecified	Upper back	2019/20	s.47(3)(b) - Contrary to
The worker tripped over a rock at a professional development day and jarred s.47 knee	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Punching / assault	Soft tissue due to trauma/unknown mech.	Face	2019/20	
Student punched her s.47 breast and s.47 side mandibular angle area of her face when trying to stop a fight between 2 boys.	Trauma to muscles/tendon unspecified	Wrist	2019/20	
Knocked over by student	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
an aggitated student grabbed the patient by the s.47 hand puled her twinsting and falling forward landing on the knees	Musculoskeletal/connect tissue unspecif.	Neck and shoulder	2019/20	
Tripped while walking.	Dislocation	Knee	2019/20	
pushed in fence by student. knee vs post, knee cap dislocated - knee feels unstable	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Tripped over carpet landed on s.47 knee	Anxiety/stress disorder	Psychological system in general	2019/20	
on s.47 was threatened by a student who threatened physical violence, this was reported but no follow up. the next morning the same student came up behind me and yanked my hair back. the student only received a warning for the behaviour.	Trauma to joints/ligaments unspecified	Shoulder	2019/20	
Student pulled arm backwards when trying to run past to get into classroom	Occupational overuse syndrome	Back - unspecified	2019/20	
Lifting and Moving Multiple sets of books	Soft tissue due to trauma/unknown mech.	Lower leg	2019/20	
kicked by student	Meniscus degenerate/detached/tear	Knee	2019/20	
Tripped on uneven cement at school - fell forward onto knee	Laceration not involving amputation	Eye - unspecified	2019/20	
Pocked in eye by an umbrella at work	Contusion, bruising, superficial crush	Knee	2019/20	
Going back to the office to lock up the alarm after s.47(3)(b) - Contrary fell up 1 step onto the bitumen	Back pain, lumbago, sciatica	Lower back	2019/20	
slipped down wet stairs	Contusion, bruising, superficial crush	Knee	2019/20	
Slipped on water and heavy fall onto s.47 knee	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
Tripped over concrete at school/work.	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
s.47 years of cumulative stress from multiple assaults exacerbated by recent high workload	Trauma to muscles/tendon unspecified	Lower leg	2019/20	
Demonstrating s.47(3)(b) - C- jumped and landed awkwardly, felt pain in s.47 calf	Trauma to joints/ligaments unspecified	Ankle	2019/20	
" I fell off the stairs and sprained my s.47 ankle"	Contusion, bruising, superficial crush	Unspecified locations	2019/20	
Tripped on cement stairs	Back pain, lumbago, sciatica	Back - unspecified	2019/20	
Was stepping backwards and shoe got caught in the carpet causing a fall adn landing on his s.47 side. s.47 crush lesion s.47 ears ago ? excerbation ? other	Hot burn	Fingers	2019/20	
Grabbed hot mug from microwave	Trauma to joints/ligaments unspecified	Thumb	2019/20	
as above two students s.47(3)(b) - C became aggressive and needed calming with restraint.	Back pain, lumbago, sciatica	Lower back	2019/20	
I was moving some s.47(3)(b) - Contra that had just been delivered, within the s.47(3) s.47 lassroom, from the bench to the racks. In the process of picking up the s.47 then turning / twisting slightly, I felt a sharp muscle pain in my lower back, on both s.47 and s.47 sides	Back pain, lumbago, sciatica	Lower back	2019/20	
While leaning across a table to pull a box	Trauma to muscles/tendon not classified	Hip	2019/20	
she had to suddenly grab a child who was falling down hurt herself noted above	Superficial injury	Knee	2019/20	
Patient slipped in the office on wet surface and fell on	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
Restraining students in altercation

Worker had a child from a different class <u>s.47(3)(b) - Contrary to</u> . The Worker was walking across the room to close one of the doors and child had jumped <u>s.47(3)(b) - Con</u> onto the floor and were stumbling and Worker tripped over child near the bag rack. Worker fell but cannot remember whether they hit their head.	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2019/20	s.47(3)(b) - Contrary to P
As a primary school teacher, repeating 30 minute lessons, requiring lots of talking, 8 times a day for 2 days consecutively, then providing lessons in various classrooms for durations from 30 mins to 2 hours for 3 consecutive days. This occurred for 2 weeks before the vocal cords became strained.	Other diseases of respiratory system	Unspecified locations	2019/20	
Keyboard work, writing, blackboard work	Tendinitis	Upper limb - unspecified locations	2019/20	
bent over to pick up laptop bag. Sudden onset pain	Unspecified injuries	Lower back	2019/20	
carrying boxes	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
<u>s.47(2)</u> was hit in the headneck with a <u>s.47(3)</u> whilst on playground duty.	Other intracranial injury, not specified	Brain	2019/20	
splash to mucous membranes - blood to <u>s.47</u> eye	Exposure to substances, no injury/diseas	Unspecified locations	2019/20	
Contact from a child, 2 boys having a altercation, teacher put arm out to stop the boys and one of the boys made contact with her arm which bent it back in an awkward position	Trauma to joints/ligaments unspecified	Shoulder	2019/20	
Year <u>s.47</u> was breaking up for Lunch and children were getting their lunch out of their bag and exiting the room. <u>s.47(3)(b) - Contrary to Public Interest</u>	Trauma to joints/ligaments unspecified	Shoulder	2019/20	
<u>s.47(3)(b) - Contra</u> and child fell and hit the floor. As I was close, whilst he was falling, I instinctively reached using my <u>s.47</u> arm to prevent him from falling hard. I felt an immediate sharp pain in my shoulder and neck				
student has bitten her	Laceration not involving amputation	Fingers	2019/20	
Dropped drawer onto the <u>s.47</u> foot, sustained soft tissue injury	Soft tissue due to trauma/unknown mech.	Toes	2019/20	
Needed to restrain a male student who was attacking another female student and attempting to continue attacking her. The child bit me on the forearm.	Laceration not involving amputation	Forearm	2019/20	
intimidation and assault by a student at school	Anxiety/stress disorder	Psychological system in general	2019/20	
hoisting a child, the wheels got caught on a cord. The pain came on gradually	Trauma to muscles/tendon unspecified	Chest - unspecified	2019/20	
spider bite	Poisoning/toxic effects of substances	Ankle	2019/20	
It was raining and as I was going into the library for my playground duty, I've slipped down on wet concrete and went down on my <u>s.47</u> knee.	Contusion, bruising, superficial crush	Knee	2019/20	
Demonstrating some <u>s.47(2)(b) - Contrary to Public In</u> class and as <u>s.47</u> was doing a <u>s.47(2)(b) - C</u> with a student he has slipped and fallen on the wet ground with his hand slipping under him and the student falling on top of him.	Dislocation	Shoulder	2019/20	
Fell off chair, was leaning forward and a kid moved her chair accidentally	Soft tissue diseases due to non-traumati	Head - unspecified locations	2019/20	
Student threw block	Soft tissue due to trauma/unknown mech.	Head - unspecified locations	2019/20	
Walking with a student through the school holding hands, the student has thrown themselves onto the ground - pulling <u>s.47(2)</u> shoulder down.	Bursitis	Shoulder	2019/20	
Overwhelmed with responsibilities/workload as <u>s.47(2)(b) - Contrary to</u> have not had adequate allocation	Depression	Psychological system in general	2019/20	
At the end of the schools first break I went outside my building where my class students line up. I was walking to go get them to bring back into the classroom. On the way back with the class I walked over the new concrete slab where some mud had washed across from the recent rain and my <u>s.47</u> foot has slipped out under me. I didnt fall to the ground but I was able to right myself before falling. I felt immediate pain with a burning sensation in my <u>s.47(2)</u> leg.	Trauma to muscles/tendon unspecified	Upper leg	2019/20	
Excessive workload and lack of support from School	Anxiety/stress disorder	Psychological system in general	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
s.47(4) was walking back into the classroom for the student lunch a student fell over in front of her. The place where the student fell is on a slight descending hill causing s.47(3) body weight to fall forward. s.47(4) put her hands out to brace the fall and try to avoid falling on the child.	Muscle/tendon strain (non-traumatic)	Shoulder	2019/20	s.47(3)(b) - Contrary to F
Bullying/Harrasment	Anxiety/stress disorder	Psychological system in general	2019/20	
A child knelt all body on her	Unspecified injuries	Abdomen - unspecified	2019/20	
As above	Soft tissue due to trauma/unknown mech.	Other specified multiple locations	2019/20	
Stress in the context of dealing with violent and intimidating students. Specifically event on s.47(4)	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Walking on Oval with colleague - stepped into a hidden hole and stumbled, twisting s.47 ankle	Dislocation	Ankle	2019/20	
Hyperextension injury to s.47 knee	Trauma to joints/ligaments unspecified	Knee	2019/20	
Student hit with a heavy pencil case on the s.47 side of the head and neck	Soft tissue due to trauma/unknown mech.	Head and neck	2019/20	
Walking across Verandah - shoe caught on nail protruding out of verandah and fell forward	Contusion, bruising, superficial crush	Knee	2019/20	
Student pulling teacher and falling into bookcase and striking hand	Soft tissue due to trauma/unknown mech.	Hand	2019/20	
Walking over carpark and tripped over landed on wrist also caused a cut to elbow.	Other fractures not elsewhere classified	Wrist	2019/20	
Slipped on wet uneven footpath at school	Trauma to joints/ligaments unspecified	Ankle	2019/20	
post hit on head with umbrella	Other intracranial injury, not specified	Brain	2019/20	
teacher fell in playground at school today on s.47 wrist pain has worsened all day	Trauma to joints/ligaments unspecified	Wrist	2019/20	
Moving boxes around in the staff room and later felt sharp pain in the lower back	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Walking up stairs towards s.47(3)(b) Room, tripped and attempted to grab rail - missed and strained s.47 shoulder	Trauma to muscles/tendon not classified	Shoulder	2019/20	
workplace harassment, deprivation of human rights, autism - at the workplace over the last s.47 months	Anxiety/stress disorder	Psychological system in general	2019/20	
Via actions of a student	Laceration not involving amputation	Fingers	2019/20	
Stood from chair and sudden mid back pain	Diseases of nerve roots, plexuses	Back - unspecified	2019/20	
Constant projecting of voice when working	Occupational overuse syndrome	Other specified multiple locations	2019/20	
Fall. Fell down the stairs onto ribs.	Trauma to muscles/tendon unspecified	Ribs	2019/20	
A student was experiencing difficulty self-regulating their behaviour. The student began screaming repeatedly in a very high pitch while approximately one metre away from the staff member. The staff member experienced a sharp pain in both ears when the screaming was at its highest and loud ringing in the ears. The pain then dulled to an 'earache' feeling but the ringing in the ears continued.	Other diseases of ear and mastoid process	Ear	2019/20	
Not stated	Trauma to joints/ligaments unspecified	Knee	2019/20	
Closed door on it	Contusion, bruising, superficial crush	Fingers	2019/20	
Cumulative events over the s.47 months. Multiple incidents of aggression in the classroom, lack of support and resources to deal with	Anxiety/stress disorder	Psychological system in general	2019/20	
Managing slightly heightened Student - as I approached him, squatted down to hand him activity and he bit my s.47 forearm/wrist area	Laceration not involving amputation	Forearm	2019/20	
Bitten by a student	Laceration not involving amputation	Upper limb - unspecified locations	2019/20	
I was taking part in a s.47 activity with my students when one of the students inadvertently kicked the ball directly into my face causing injury (approx 3 metres distance)	Laceration not involving amputation	Face	2019/20	
open door over my foot, there is a gap under door and just went over my toe	Contusion, bruising, superficial crush	Foot and toes - unspecified	2019/20	
moving furniture from one room to another, holding door open and felt a twinge and by afternoon couldn't lift my arm.	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
Strain occurred while moving desks	Soft tissue due to trauma/unknown mech.	Lower back	2019/20

Was at school running after a student Hit by student at school. Punched in [6.47] shoulder area 7 times Struck [6.47] knee on the corner of a work bench student punched me in the eye	Trauma to muscles/tendon unspecified Post-traumatic stress disorder Unspecified injuries	Knee Psychological system in general Knee	2019/20 2019/20 2019/20	
Student has thrown a full [6.47(2)(b) - COP]	Contusion, bruising, superficial crush Contusion, bruising, superficial crush	Eyeball Head - unspecified locations	2019/20 2019/20	
Multiple difficult children in class, several occasions where one specific child has been aggressive towards her	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
I was at my desk filling out a communication book. There was a [6.47(2)(b) - COP] making noises. I was on a swivel chair which broke. I fell on the floor and tried to break my fall but landed on my arm.	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2019/20	
Moving Students to Hall - slipped on wet floor (rain) and fell onto back Using a prep classroom computer on low table & chair taking something out of oven	Soft tissue due to trauma/unknown mech. Soft tissue due to trauma/unknown mech. Hot burn	Lower back Neck - unspecified Fingers	2019/20 2019/20 2019/20	
Was pushed by angry student at work Playing [6.47(2)(b)]	Back pain, lumbago, sciatica Trauma to joints/ligaments unspecified	Lower back Fingers	2019/20 2019/20	
Major timetable changes this year with no consultation. Causing me to work with relief teachers everyday, planning for other people. Causing extreme amount of stress.	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
iw was walking down some wet concrete steps & slipped iw ended up putting all of her body on [6.47] leg/knee to stop from falling over	Soft tissue diseases due to non-traumati	Knee	2019/20	
Trip at work	Soft tissue diseases due to non-traumati	Knee	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Walking, carrying heavy resources, going up & down stairs, being situated in a staff room, far away from IW's class rooms. IW had a [s.47(3)(b) - Contrary to Public Interest] on suitable duties.	Disc displacement, prolapse, hernia	Lower back	2019/20	s.47(3)(b) - Contrary to P
Fall onto [s.47(3)(b) - Contrary to Public Interest] shoulder after tripping onto [s.47(3)(b) - Contrary to Public Interest] repeated looking down at work station, ergonomic contribution	Other fractures not elsewhere classified	Shoulder	2019/20	
Walking to [s.47(3)(b) - Contrary to Public Interest] block - slipped over on wet polished concrete and landed on [s.47(3)(b) - Contrary to Public Interest] side	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2019/20	
	Contusion, bruising, superficial crush	Shoulder	2019/20	
Walking with Students - stumbled on [s.47(3)(b) - Contrary to Public Interest] foot, tried to regain balance however fell onto [s.47(3)(b) - Contrary to Public Interest] side	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
Child hit her with hard blunt object	Soft tissue due to trauma/unknown mech.	Face	2019/20	
A child/student began pulling on the claimant's right arm, while trying to move in the opposite direction that the claimant was walking	Back pain, lumbago, sciatica	Lower back	2019/20	
Slipped with a twisting motion whilst getting out of a chair, to the [s.47(3)(b) - Contrary to Public Interest] hand side.	Back pain, lumbago, sciatica	Lower back	2019/20	
Constant extension of voice	Unspecified injuries	Mouth	2019/20	
Pulling and pushing roller door	Musculoskeletal/connect tissue unspecif.	Shoulder	2019/20	
Whilst [s.47(3)(b) - Contrary to Public Interest] match for students worker was exposed to multiple hours of sun between [s.47(3)(b) - Contrary to Public Interest] and [s.47(3)(b) - Contrary to Public Interest]	Heat stress/heat stroke	Major proportion of external surface of	2019/20	
PD days before school starts and was moving the furniture on [s.47(3)(b) - Contrary to Public Interest]	Disc displacement, prolapse, hernia	Neck bones, muscles and tendons	2019/20	
While bending and reaching to pick up a bag	Back pain, lumbago, sciatica	Lower back	2019/20	
Supervising [s.47(3)(b) - Contrary to Public Interest] on stage, other Students were playing [s.47(3)(b) - Contrary to Public Interest] on the floor - Student kicked ball towards goal, however missed and it has struck [s.47(3)(b) - Contrary to Public Interest] side of my face	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2019/20	
Workplace bullying and harassment	Anxiety/stress disorder	Psychological system in general	2018/19	
Verbal assault by student	Anxiety/stress disorder	Psychological system in general	2019/20	
collecting rubbish and flicked contents of bottle	Epicondylitis	Elbow	2019/20	
As I was going up the stairs to a classroom my [s.47(3)(b) - Contrary to Public Interest] leg gave way on me and I was in a lot of pain unable to walk unsupported.	Musculoskeletal/connect tissue unspecif.	Knee	2019/20	
Whilst moving equipment and supplies from one classroom to another due to a change in which grade she teaches, Worker has felt a sharp pain in her back.	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Teaching [s.47(3)(b) - Contrary to Public Interest]	Bursitis	Ankle	2019/20	
My staff room is a long distance from my classroom. [s.47(3)(b) - Contrary to Public Interest] I was on oval duties last [s.47(3)(b) - Contrary to Public Interest] morning. As I was walking back I turned a corner along an uneven ground and felt immediate pain	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Car accident on way to work	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2019/20	
MVA been hit behind by a truck at a intersection				
Student pushed desk onto teacher's foot	Contusion, bruising, superficial crush	Foot	2019/20	
fell backwards onto buttocks	Unspecified injuries	Lower back	2019/20	
I was doing a lesson with a class, when I saw one of the [s.47(3)(b) - Contrary to Public Interest] [s.47(3)(b) - Contrary to Public Interest]. The student was telling the class how good it felt. I approached the student, advising him that he should not be doing that and that doing so could land him in trouble. He became really defensive and started racially abusing me and threatened me physically. Claimant was not comfortable discussing further. stumbled up stairs while redirecting a child	Soft tissue due to trauma/unknown mech.	Foot	2019/20	
Walking down stairs behind Students - one Student stopped suddenly causing stop/twist to [redacted] knee	Trauma to muscles/tendon unspecified	Knee	2019/20	
Running after student on uneven surface	Soft tissue diseases due to non-traumati	Foot	2019/20	
Pulled a student that had partially [redacted] Contrary to Public Interest	Post-traumatic stress disorder	Psychological system in general	2019/20	
Slipped and fell down concrete stairs, and hitting lower tail bone	Back pain, lumbago, sciatica	Lower back	2019/20	
injured by student at work, pulled arm and pushed on shoulder	Trauma to muscles/tendon unspecified	Neck and shoulder	2019/20	
[redacted] fell off on the leg during the [redacted]	Contusion, bruising, superficial crush	Lower leg	2019/20	
fall backwards on back smashed posterior head spine neck head and back	Contusion, bruising, superficial crush	Head - unspecified locations	2019/20	
A build up of off stress due to a difficult. It became to much and i had a break down	Anxiety/stress disorder	Psychological system in general	2019/20	
1. I have been given work requirements beyond my abilities which are contrary to my offer of employment which I have been unable to resolve. 2. I have been subject to workplace bullying. 3. I have been subject to continual issues with my [redacted] which I have been unable to resolve.	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Works in [redacted] bitten by a [redacted] yr old boy with [redacted] on the [redacted] elbow	Laceration not involving amputation	Elbow	2019/20	
Overuse of voice as a [redacted] teacher. Sx started 1 week into school term.	Other diseases of respiratory system	Lung, trachea and bronchus	2019/20	
Bruised [redacted] knee when she was trying to restrain unruly pupil	Contusion, bruising, superficial crush	Knee	2019/20	
Punched/kicked by student	Soft tissue due to trauma/unknown mech.	Back - unspecified	2019/20	
Twisted [redacted] ankle at work	Trauma to joints/ligaments unspecified	Ankle	2019/20	
[redacted] door hit her right foot. [redacted] was carrying some sports instruments and going out of the shed and suddenly the door came and hit her [redacted] foot.	Soft tissue due to trauma/unknown mech.	Foot	2019/20	
Fell whilst on site attending to the [redacted] and garden area	Other fractures not elsewhere classified	Wrist	2019/20	
[redacted] and tried to pull it out and felt pain in shoulder	Trauma to joints/ligaments unspecified	Shoulder	2019/20	
walking and stepped on uneven piece of wood and felt tear	Traumatic tearing from muscle, avulsion	Lower leg	2019/20	
Was assaulted by child - Also assaulted three other members	Anxiety/stress disorder	Psychological system in general	2019/20	
plugging into power point to charge laptop	Electrocution, shock, electric current	Other and multiple systemic conditions	2019/20	
Working as [redacted] teacher.	Ganglion, trigger finger, dupuytrens con	Fingers	2019/20	
Walking up a terrace.	Traumatic tearing from muscle, avulsion	Lower leg	2019/20	
Tripped on a chair and developed severe sudden lower back pain saving herself from falling to the floor	Trauma to joints/ligaments unspecified	Lower back	2019/20	
Student fell into me compressing wrist at uncomfortable angle	Trauma to joints/ligaments not classifie	Wrist	2019/20	
Overuse over time	Muscle/tendon strain (non-traumatic)	Neck - internal organs and glands	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Worker advised that the issue is work related - over a period of time	Other diseases of respiratory system	Other and multiple systemic conditions	2019/20	s.47(3)(b) - Contrary to P
I slipped and fell on something sharp	Laceration not involving amputation	Knee	2019/20	
Assaulted by student. Elbowed in [redacted] upper abdomen. Punched twice in abdomen and [redacted]	Anxiety/stress disorder	Psychological system in general	2019/20	
[redacted] Glancing blow from umbrella tip to [redacted] flank				
restraining a violent student	Back pain, lumbago, sciatica	Back - unspecified	2019/20	
Kicked by student	Soft tissue due to trauma/unknown mech.	Hand	2019/20	
Flare of pre-existing condition (see claim [redacted])	Back pain, lumbago, sciatica	Lower back	2019/20	
Walking along the pathway between [redacted]. Stepped on some bark that had blown	Contusion, bruising, superficial crush	Knee	2019/20	
on the pathway with my [redacted] foot went over on my ankle and fell forward landing on the				
cement with my [redacted] knee and both hands.				
Slipped down stairs	Trauma to joints/ligaments unspecified	Ankle	2019/20	
helping a [redacted] child exit the pool safely after his swimming lesson	Back pain, lumbago, sciatica	Lower back	2019/20	
Heavy child threw full body weight onto her. When catching her, it injured her back	Soft tissue due to trauma/unknown mech.	Back - other and multiple	2019/20	
Struck by school student on [redacted] forearm. Teacher was standing with a group of sturdnets	Anxiety/stress disorder	Psychological system in general	2019/20	
when the student addressed the group and threatened [redacted]. This was directed to				
the group not necessarily to the teacher.				
Walking on wet grass slipped and leg went down folded beneath me.	Soft tissue due to trauma/unknown mech.	Lower leg	2019/20	
Taunting from Student B following the return from suspension of Student A, after Student	Anxiety/stress disorder	Psychological system in general	2019/20	
A had used physical force in the classroom				
against me.				
Punched in the chest by a student.	Soft tissue due to trauma/unknown mech.	Chest - unspecified	2019/20	
Student attack ([redacted] year old) scratched and bit her hands and slammed her against	Bursitis	Shoulder	2019/20	
the wall and bag racks				
I was walking into the building and a boy ran full force into my chest and fell backwards but	Neck pain, cervicalgia	Neck bones, muscles and tendons	2019/20	
did not fall over.				
Tripped over children at work on [redacted] at about 11 am and fell on both knees	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Was kicked by a student	Contusion, bruising, superficial crush	Other specified multiple locations	2019/20	
at work while turning to grab a	Back pain, lumbago, sciatica	Lower back	2019/20	
Heavy lifting. Rushed to pack and leave premises	Trauma to joints/ligaments unspecified	Lower back	2019/20	
Fall at work.	Other fractures not elsewhere classified	Wrist	2019/20	
Child had got out of school grounds and was running toward the road [redacted]	Trauma to muscles	Hip	2019/20	
[redacted] Teacher aid ran after the child. Felt the Pain after they had got him back				
inside the school grounds.				
Landed heavily in eversion of [redacted] foot, duw fall on steps at work	Other fractures not elsewhere classified	Foot	2019/20	
A student went to sit on a metal stool and misjudged his seat and fell over. This student	Trauma to muscles/tendon unspecified	Knee	2019/20	
collided with 2 other students who fell into me				
[redacted] s.47(3)(b) - Contrary to Public Interest	Superficial injury	Knee	2019/20	
[redacted] a student came and sat on the table top which tipped the unit forward. I				
fell to the ground landing on my hands and knees, grazing my knees and possibly				
exacerbating a pre-existing back injury				
Increasing voice use as teacher	Other diseases of respiratory system	Respiratory system in general	2019/20	
Got hit with incoming [redacted] ball	Contusion, bruising, superficial crush	Lower leg	2019/20	
I was working with kids and went to walk past the kitchen bench and table and a student	Joint/other articular cartilage, unclass	Knee	2019/20	
pulled his chair out as I was walking past				
work related injury from teaching including [redacted]	Depression	Psychological system in general	2019/20	
Tripped over recycling bin	Unspecified injuries	Upper leg	2019/20	
walking down staircase and fell	Trauma to joints/ligaments unspecified	Lower limb - multiple locations	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
fell down 4 stairs	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	s.47(3)(b) - Contrary to P
Sitting on a roly chair, student jumped forcefully on me. I stuck my [redacted] leg out to stop us rolling we fell off and I rolled my ankle	Other fractures not elsewhere classified	Foot	2019/20	
Slipped on toilet floor and twisted [redacted] ankle	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Pulled back moving book cases at the beginning of the school year setting up the class room.	Disc displacement, prolapse, hernia	Lower back	2019/20	
Compensating for previous injury for [redacted] hand.	Synovitis and tenosynovitis	Wrist	2019/20	
Pushing a child's desk out of the way	Back pain, lumbago, sciatica	Lower back	2019/20	
sitting beside student, student went to run away, put arms around students' waist and sat him on lap, student began to kick and fling arms around violently, struggled to hold him causing low back pain approximately 15 minutes later.	Trauma to muscles/tendon unspecified	Lower back	2019/20	
Bitten by a child	Laceration not involving amputation	Forearm	2019/20	
Thin plywood ejected back from the cutting surface and hit the [redacted] side abdominal and hip bone	Laceration not involving amputation	Abdomen - unspecified	2019/20	
Repetitious lifting of senior children out of [redacted]	Bursitis	Shoulder	2019/20	
Outside the classroom there is a slight slope and I was walking and didn't notice slope as I was talking to student and I rolled my ankle	Other fractures not elsewhere classified	Foot	2019/20	
Ongoing physical support to student.	Trauma to muscles/tendon unspecified	Neck bones, muscles and tendons	2019/20	
Opening the staffroom door - the base of the steel panel lining the door sliced the top/side of my foot.	Laceration not involving amputation	Foot	2019/20	
She had pulled a cap from a year [redacted] student and felt the pain on her right shoulder	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
table fell onto foot	Other fractures not elsewhere classified	Toes	2019/20	
A student kicked a ball at me on lunch time and hit me in the face.	Unspecified injuries	Upper back	2019/20	
Metal Stooks fell on her	Not known	Knee	2019/20	
I was punched in the eye by a [redacted] year old female student while on [redacted]	Contusion, bruising, superficial crush	Eye - other and multiple	2019/20	
Worker was on the field while students playing a game. A student dived and took out bottom of workers leg and they felt their knee hyper extend.	Musculoskeletal/connect tissue unspecif.	Knee	2019/20	
Push the school gate, lost balance, fell on the [redacted] hand sustained laceration on the [redacted] finger	Laceration not involving amputation	Fingers	2019/20	
Putting on and taking off brake on hospital bed and twisted foot.	Trauma to joints/ligaments unspecified	Foot	2019/20	
One of the [redacted] students kicked his finger	Dislocation	Fingers	2019/20	
Unknown - specialists unable to determine cause, "rare condition". Is highly exacerbated by vocal strain/vocal projection.	Other diseases of respiratory system	Neck - internal organs and glands	2018/19	
One student ran across classroom to fight with another student, I had to hold him back and he was flailing and kicking.	Contusion, bruising, superficial crush	Shoulder	2019/20	
Butcher bird attached while walking class between buildings	Laceration not involving amputation	Head - unspecified locations	2019/20	
hit in mouth by [redacted]	Soft tissue due to trauma/unknown mech.	Nose	2019/20	
playing [redacted] with students	Other fractures not elsewhere classified	Fingers	2019/20	
struck with [redacted]	Other fractures not elsewhere classified	Fingers	2019/20	
slipped on wet floor	Back pain, lumbago, sciatica	Lower back	2019/20	
Working with a student, student has become agitated and kicked foot/leg	Trauma to joints/ligaments unspecified	Knee	2019/20	
Punched by student	Soft tissue due to trauma/unknown mech.	Genital (reproductive) organs	2019/20	
Going to class and was walking down stairs and slipped on stairs and [redacted] ankle rolled and fell onto [redacted] leg but fractured [redacted] foot.	Other fractures not elsewhere classified	Foot	2019/20	
Ongoing unsuitable work environment	Mental diseases, unspecified	Psychological system in general	2019/20	
accidental fall at work	Soft tissue due to trauma/unknown mech.	Unspecified locations	2019/20	
tripped over	Other fractures not elsewhere classified	Foot	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Head on head by falling branch while on playground duty	Laceration not involving amputation	Head and other	2019/20	s.47(3)(b) - Contrary to Public Interest
Tripped on concrete edge.	Tendinitis	Ankle	2019/20	
slipped on wet floor	Trauma to joints/ligaments unspecified	Knee	2019/20	
Packing the car to go to work and trip carrying work stuff. fell and hit the car with [redacted]	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
hand side off body and fell onto the ground				
I slipped on some wet asphalt at school and fell over	Soft tissue diseases due to non-traumati	Knee	2019/20	
I was at a school [redacted] tournament, assisted injured student off court and injured self in process. Lifting Student.	Trauma to joints/ligaments unspecified	Lower back	2019/20	
Door hit face	Laceration not involving amputation	Face	2019/20	
Lifting stage equipment on [redacted]	Trauma to muscles/tendon unspecified	Hand	2019/20	
Lifting furniture and suitcases initially thought it was flare up of rheumatoid arthritis	Tendinitis	Shoulder	2019/20	
Fell from a chair after child pulled it away as she was about to sit on it	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
shoulder barged by a shoulder from behind IW	Soft tissue due to trauma/unknown mech.	Back - unspecified	2019/20	
Currently [redacted] teacher at high school, lots of behavioural issues with kids and intellectual impairment	Anxiety/stress disorder	Psychological system in general	2019/20	
Alleged accidentally hit forehead hard on steel mesh blind at the door at work and fell	Soft tissue due to trauma/unknown mech.	Head - unspecified locations	2019/20	
Wednesday evening - calf struggling	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Lack of communication from Employer re: complaint lodged against me	Depression	Psychological system in general	2019/20	
Lifted a heavy overloaded [redacted]	Back pain, lumbago, sciatica	Upper back	2019/20	
A student pegged a rubber at my neck on the [redacted] hand side at the base of my neck	Soft tissue due to trauma/unknown mech.	Neck and trunk	2019/20	
Several events commencing from [redacted] by Students assaulting me and other Students. My arms were scratched and blood drawn, scabbed and then scarred. Punched in face, hair pulled. Chair thrown at me by a Student.	Anxiety/depression combined	Psychological system in general	2019/20	
Depressive symptoms triggered by stress/pressure brought about by work (last known trigger was a [redacted] s.47(3)(b) - Contrary to Public Interest [redacted] s.47(3)(b) - Contrary to Public Interest [redacted] was put on [redacted] initially by another GP; apparently did not get support from her work colleagues	Anxiety/stress disorder	Psychological system in general	2019/20	
Stood between 2 children having a fight. Got hit in [redacted] arm, kicked in [redacted] leg, punched in [redacted] arm, punched on [redacted] side of lip bruising, knock to [redacted] side of head	Soft tissue due to trauma/unknown mech.	Head - unspecified locations	2019/20	
Whilst walking, slipped on the footpath.	Contusion, bruising, superficial crush	Other specified multiple locations	2019/20	
Bitten by [redacted] child - drew blood	Laceration not involving amputation	Forearm	2019/20	
Tripped after climbing stairs at work	Trauma to joints/ligaments unspecified	Lower back	2019/20	
hit on head by a child at school	Infectious diseases involving spine	Neck bones, muscles and tendons	2019/20	
A student attacked him out of nowhere, threw him to the ground, tried to hit him a few times before other teacher separated them.	Soft tissue due to trauma/unknown mech.	Back - unspecified	2019/20	
Tripped on a grate/drain that was raised, in school grounds	Laceration not involving amputation	Head and neck	2019/20	
Very challenging work place with little support. Lack of support with children with [redacted] s.47(3)(b) - Contrary to Public Interest [redacted]	Anxiety/stress disorder	Psychological system in general	2019/20	
After administering [redacted] to a student I accidentally scratched my [redacted] hand with the needle.	Medical sharp/needle-stick puncture	Hand	2019/20	
student was biting other students and teacher intervened and got bitten too.	Laceration not involving amputation	Ankle	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
s.47(3)(b) - Contrary to Public Interest [redacted] Slipped and struck face badly, leading to bruising down the side of the face and a black eye. Tooth ache resulted and dentist identified on [redacted] that pain was the result of a split tooth.	Fractured skull and facial bones	Tooth	2019/20	s.47(3)(b) - Contrary to
s.47(3)(b) - Contrary to Public Interest worker was escorting a student back to the classroom - student slammed door, hitting back of worker's head	Unspecified injuries	Head - unspecified locations	2019/20	
Assaulted by student, punched 5 times	Contusion, bruising, superficial crush	Head - unspecified locations	2019/20	
I was on playground duty at first lunch break, I was playing [redacted] with students. I went [redacted] and I jumped upwards and as I came back down my [redacted] foot slipped on the moist floor (hard surface) and then rolled my [redacted] ankle and I slid into the wall hitting the [redacted] foot	Other fractures not elsewhere classified	Foot	2019/20	
Was on [redacted] and rolled ankle while [redacted]	Trauma to joints/ligaments unspecified	Ankle	2019/20	
I was on playground duty with some children I went to jump on an [redacted]. I over jumped and my ankle rolled taking all the weight and I heard a pop	Trauma to joints/ligaments unspecified	Ankle	2019/20	
I was escorting a student [redacted] to school ( I was not on my way to work and is part of my normal duties to assist student on their way to school) when they become violent kicking the driver when I got a scratch to my [redacted] hand trying to subdue the student.	Laceration not involving amputation	Hand	2019/20	
child spat in my face	Exposure to substances, no injury/diseases	Unspecified locations	2019/20	
Sitting on a chair and swung around to stand up - put weight on [redacted] knee and knee gave way	Meniscus degenerate/detached/tear	Knee	2019/20	
walking with students to sports field and fell thru a service pit with gashed shin immersed in mud and grass in	Laceration not involving amputation	Lower leg	2019/20	
slipped into the [redacted] hole	Laceration not involving amputation	Toes	2019/20	
Student was getting off swing - struck [redacted] under the jaw/chin area	Contusion, bruising, superficial crush	Face	2019/20	
Walking down stairs onto moderate slope, stepped off edge and lost footing - fell onto [redacted] and side	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2019/20	
slipped on kitchen floor in prep classroom	Other fractures not elsewhere classified	Knee	2019/20	
Abuse and death threat from a Parent on School Grounds	Anxiety/stress disorder	Psychological system in general	2019/20	
Slipped on a wet ramp outside classroom	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Was knocked in the back by student	Soft tissue diseases due to non-traumatic	Lower back	2019/20	
Defiant children in class with significant behavioural issues and lack of support	Anxiety/stress disorder	Psychological system in general	2019/20	
Walking along the track near back of pool - bumped into/disturbed hidden [redacted] resulting in multiple [redacted] bites	Poisoning/toxic effects of substances	Neck and trunk	2019/20	
Fall	Unspecified injuries	Wrist	2019/20	
Bending to help children in classroom went to stand up lost balance fell forward and arm took full force of claimant weight hitting door jamb. Forehead hit side of bookcase	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2019/20	
Student [redacted] requested my assistance with an activity however I was unsure where key was for [redacted]. Student became heightened and began hitting me and scratching my arms, [redacted] shoulder and neck area	Soft tissue due to trauma/unknown mech.	Upper arm	2019/20	
Knee popped whilst walking quickly	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Walking down a sloping uneven to the junior oval when lost footing and fell over	Unspecified injuries	Lower leg	2019/20	
Alleged abuse by a child. Lack of support at work.	Anxiety/stress disorder	Psychological system in general	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
I was walking on school grounds between blocks heading towards a different block for a meeting. I walked over a small hill (a grassy area) and as i descended on the other side of the hill, I slipped and then I felt and heard a snap in my ankle. I don't think my ankle rolled but I think the pressure on my foot being at an unusual angle on the slope, caused the break	Other fractures not elsewhere classified	Ankle	2019/20	s.47(3)(b) - Contrary to P
When leaving the Deputy's office, pushed off my leg and heard a pop / felt pain in calf	Trauma to muscles	Lower leg	2019/20	
in the swimming pool a student twisted my finger - pain after injury stubbed toe on wheel of bookbox	Soft tissue due to trauma/unknown mech.	Fingers	2019/20	
	Other fractures not elsewhere classified	Toes	2019/20	
resting on a desk. It slipt and fall directly on to her big toe during her work	Contusion, bruising, superficial crush	Toes	2019/20	
s.47(3)(b) - Contrary to Public Interest	Trauma to muscles/tendon unspecified	Forearm	2019/20	
There was immediate pain, and I couldn't get comfortable in any position that I tried. so as to complete the course, as if it was a real life scenario this is what i would do. I didn't notify the teacher at the time, as she was already dealing with a difficult, challenging student within our class (that student ultimately failed and the course instructor asked that I be witness to that)				
Previous low mood; hostile encounter with parent on a background of significant chronic stress	Anxiety/stress disorder	Psychological system in general	2019/20	
Huge workload of high needs students	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
running to answer phone and tripped over phone cord and my head hit the door of office	Contusion, bruising, superficial crush	Head - unspecified locations	2019/20	
Slipped on the floor coming out of the boys toilets. The floor slopes and has a dip and was wet	Trauma to joints/ligaments unspecified	Foot	2019/20	
Tripped & fell	Trauma to muscles/tendon unspecified	Hip	2019/20	
Child was pulling peoples hair and moved to grab a parent by the arm and was pulling parent around (with excessive force). I reached out to take to student's hand,he took my hand, squeezed the finger on my hand and lent down to my forearm, biting down on my flesh breaking the skin, making it bleed	Laceration not involving amputation	Forearm	2019/20	
fall at work- student ran directly in front of him and IW fell	Soft tissue diseases due to non-traumatic	Neck and shoulder	2019/20	
Sustained infection from infected child at school	Infectious diseases not elsewhere class.	Trunk - multiple locations	2019/20	
Supporting a student to return to class and the student dropped and pulled arm/shoulder down, injuring it	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
twisted while loading trolley books	Muscle/tendon strain (non-traumatic)	Knee	2019/20	
IW was hit by one of their students	Unspecified injuries	Face	2019/20	
I was "transitioning" a student who lost it when they kept hitting me. they He kept on coming back when I tried to hold him back straining my neck, shoulders and back.	Trauma to muscles/tendon unspecified	Neck and shoulder	2019/20	
Tripped over a child and twisted knee.	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Student hit me with metal bottle	Soft tissue diseases due to non-traumatic	Forearm	2019/20	
Walking up a hill, carrying back packs, twisted to turn around and felt pain in lower back which progressed while on teh bus home	Back pain, lumbago, sciatica	Lower back	2019/20	
putting out playground equipment	Back pain, lumbago, sciatica	Lower back	2019/20	
I was in the toilet area helping a student. Another girl walked in and tried to go at me and the student and strike us. I tried to stop her and this is where I hurt my thumb	Trauma to joints/ligaments unspecified	Thumb	2019/20	
a year old male student had	Anxiety/stress disorder	Psychological system in general	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
iw has been having issues with a school student including persistent disruptions, student has been intimidating, being in iw's personal space, physically aggressive (student smashing hand on teachers desk)	Anxiety/stress disorder	Psychological system in general	2019/20	s.47(3)(b) - Contrary to
Stepping up to open a window on a chair and lost balance and fell	Musculoskeletal/connect tissue unspecif.	Knee	2019/20	
Lifting child during toileting at work	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
Stepped into hole in grass whilst chasing after absconding student, twisted [redacted] knee	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Stepped off a stage in the gym.	Muscle/tendon strain (non-traumatic)	Ankle	2019/20	
Yesterday afternoon, at [redacted] grade [redacted] student kicked with his shoes on at the back of her [redacted] calf region	Soft tissue due to trauma/unknown mech.	Lower leg	2019/20	
Fall at work	Soft tissue diseases due to non-traumati	Hand	2019/20	
Hit in face by a [redacted] bat	Fractured skull and facial bones	Head - multiple locations	2019/20	
Bitten by mosquito in staffroom, had itching leg under my jeans	Superficial injury	Unspecified locations	2019/20	
Suspended chemical exposure	Exposure to substances, no injury/diseas	Unspecified locations	2019/20	
In the last [redacted] months and more recently stress has been escalating due to workload leading to some anxiety to depression. Gone from confident worker to losing confidence. Lack of training and support and large class numbers.	Anxiety/stress disorder	Psychological system in general	2019/20	
Violent and volatile student.	Anxiety/stress disorder	Psychological system in general	2019/20	
Assault at work by student; disagreement with management action	Anxiety/stress disorder	Psychological system in general	2019/20	
slipped on piece of paper	Traumatic tearing from muscle, avulsion	Upper leg	2019/20	
Doing activity with children, went to kick ball, stepped into a small hole and hyper-extended knee	Unspecified injuries	Knee	2019/20	
fall on concrete	Superficial injury	Other specified multiple locations	2019/20	
stepping down over the curb from a path into the carpark. Foot/ankle rolled inward.	Other fractures not elsewhere classified	Ankle	2019/20	
slipped on wooden ramp - outdoor, wet - landed on [redacted] arm/chest	Soft tissue diseases due to non-traumati	Chest muscles	2019/20	
Bending over from stool waist height	Trauma to joints/ligaments unspecified	Lower back	2019/20	
playground duty - lift student to safety	Trauma to muscles/tendon unspecified	Wrist	2019/20	
fall resulting from slipping on flower outside of classroom	Back pain, lumbago, sciatica	Lower back	2019/20	
student bite my arm	Laceration not involving amputation	Forearm	2019/20	
Repeated verbal/physical abuse from child with [redacted] last incident on [redacted]	Anxiety/stress disorder	Psychological system in general	2019/20	
Was violent, and [redacted] was involved as well.				
playing [redacted]	Trauma to muscles/tendon unspecified	Lower leg	2019/20	
Was talking to a teacher and turned around to walk away and tripped over little preppies sitting on a mat on the ground	Soft tissue due to trauma/unknown mech.	Elbow	2019/20	
Student attacked her, hit and pushed her.	Unspecified injuries	Lower back	2019/20	
Lifting heavy bag from floor	Trauma to muscles/tendon unspecified	Lower back	2019/20	
Putting rubbish in bin, went to turn and there was a bench there and she fell over.	Laceration not involving amputation	Lower limb - multiple locations	2019/20	
Worker at [redacted] training at school, missed his [redacted] foot down and inverted his [redacted] nkle.	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Twisted while climbing stairs at work.	Meniscus degenerate/detached/tear	Knee	2019/20	
Needle stick injury while giving [redacted] to a student	Medical sharp/needle-stick puncture	Abdomen - other and multiple	2019/20	
a student pulled a chair away from me and I hit the floor	Back pain, lumbago, sciatica	Lower back	2019/20	
Racing Students	Trauma to muscles/tendon unspecified	Lower leg	2019/20	
Child hit teacher with heavy blunt object with force	Multiple injuries	Head - multiple locations	2019/20	
tripped on a step	Trauma to joints/ligaments unspecified	Shoulder	2019/20	
Constant use of voice in a noisy classroom environment due to adjoining room only separated by partial concertina wall	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Head butted by a child at school	Contusion, bruising, superficial crush	Nose	2019/20	s.47(3)(b) - Contrary to
Teaching class to skip - landed and felt crack in [redacted] knee	Meniscus degenerate/detached/tear	Knee	2019/20	
Student approached me and grabbed my [redacted] arm to bite it - Staff intervened and he pulled my arm, hyper-extending [redacted] elbow/shoulder area	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
[redacted] - escorting children in a [redacted] and got hit from behind	Trauma to joints/ligaments not classified	Head and neck	2019/20	
Unacceptable threatening behaviour from some students at [redacted]	Post-traumatic stress disorder	Psychological system in general	2019/20	
Whilst supporting a student in distress (standing behind him, whilst he stood in front of me), he turned to the right and threw himself backwards. In order to prevent them from falling and hitting their head on the floor, I reached out to my [redacted], catching him. His weight caused me to fall to my knees and extend my reach to the [redacted]	Soft tissue due to trauma/unknown mech.	Back - unspecified	2019/20	
Slipped while [redacted]	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
[redacted] IW was struck in the shoulder by a student and when seeing her physio for her [redacted] began regular treatment on her in March this occurred again when new event occurred at school. All events have incident report recorded with DoE	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
Ball thrown by child vs testicle	Contusion, bruising, superficial crush	Genital (reproductive) organs	2019/20	
Persistent heavy voice use.	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	
Carrying bags in from the car, on phone, switched phone to left side and felt strong pain through neck and shoulder	Neck pain, cervicalgia	Neck bones, muscles and tendons	2019/20	
Assaulted by student	Contusion, bruising, superficial crush	Upper arm	2019/20	
[redacted] was walking down to the oval for duty on the path and fell hard landing on both her knees and hand, jarring her body	Contusion, bruising, superficial crush	Knee	2019/20	
Ongoing workplace bullying from management	Anxiety/stress disorder	Psychological system in general	2018/19	
Holding [redacted] - Contrary to Public In doing demonstration for five 30 min lessons	Dislocation	Hip	2019/20	
Inverted ankle at end of PE lesson	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Walking down stairs, turned, acute onset of sudden [redacted] sided back pain.	Soft tissue due to trauma/unknown mech.	Back - unspecified	2019/20	
90kg student ran straight into his lower back on his push bike and fell down	Soft tissue diseases due to non-traumatic	Back - unspecified	2019/20	
Walked into steel rod	Soft tissue due to trauma/unknown mech.	Upper leg	2019/20	
[redacted] Tripped on Student's outstretched legs - fell backwards onto her bottom and impacted onto [redacted] wrist	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
Working in a lab with children	Other diseases not elsewhere classified	Brain	2019/20	
Throwing ball overarm during HP lesson	Tendinitis	Shoulder	2019/20	
Hurt back when fell at work	Back pain, lumbago, sciatica	Lower back	2019/20	
Running playing a school game of occur teachers vs students and as I turned fely a pop in my knee	Muscle/tendon strain (non-traumatic)	Knee	2019/20	
Back plate of a [redacted] fell on my face	Laceration not involving amputation	Face	2019/20	
Pain in the upper back and shoulders after a fall from a ladder at work	Soft tissue diseases due to non-traumatic	Upper back	2019/20	
Standing, moving towards iPad and tripped	Back pain, lumbago, sciatica	Lower back	2019/20	
Opened the door in doorway and a student ran straight to her and hit her in the chest and holding onto door frame - felt extreme pain in shoulder	Bursitis	Shoulder	2019/20	
Verbal abuse and threatened physical assault with [redacted] by Student	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
On playground duty supervising a number of children. I was playing a game and running. I swerved and missed a child and collided with another child and hit the ground	Other fractures not elsewhere classified	Hip	2019/20	
Student at school pulled [redacted] arm forcibly	Trauma to muscles/tendon not classified	Shoulder	2019/20	
[redacted] Rallying in [redacted] in School Hall - as I stepped, felt a cramp in [redacted] calf	Trauma to muscles/tendon unspecified	Lower leg	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
§ 47(2)(b) Kneeling down to support a Student - twisted when rising and felt injury to § 47 knee	Meniscus degenerate/detached/tear	Knee	2019/20	s.47(3)(b) - Contrary to F
§ 47(2)(b) Child grabbed hair and pulled, causing injury to neck	Trauma to muscles/tendon unspecified	Neck and trunk	2019/20	
Fell over a student's jacket which was dragging on the floor.	Soft tissue diseases due to non-traumati	Hand	2019/20	
Tripped over TV cables - stumbled and caught self on desk, injuring § 47 knee.	Trauma to muscles/tendon unspecified	Knee	2019/20	
Bullying by § 47(2)(b) from § 47(2)(b) to present, and misinformation regarding continuation of Role	Anxiety/stress disorder	Psychological system in general	2019/20	
Supporting § 47 year old student with some mobility disability, preventing force.	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
Both incidents § 47(2)(b) were violent physical attacks from two students.	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
I was in the classroom supervising the essential workers kids. We went into the room, I had to open the windows. Tripped over a chair. I think I got my foot hooked in it. I had been reaching over the desk to open the window. I fell backwards and stretched my arm out and hurt my wrist.	Trauma to joints/ligaments unspecified	Wrist	2019/20	
Fall into wheeley retrieving § 47 balls from bottom of bin	Contusion, bruising, superficial crush	Head and neck	2019/20	
I was filming exercises, i injured my lower back doing high knees	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Heavy object fall on her § 47 wrist while working.	Contusion, bruising, superficial crush	Wrist	2019/20	
Automatic gate closed onto § 47 forearm and § 47 hand	Soft tissue diseases due to non-traumati	Hand	2019/20	
§ 47 forearm and hand shut in automatic gate				
School's requirement for me to design, translate, write and teach the contents for the § 47(2)(b) Contrary to with no training and inadequate support. Workload was not taken seriously until I had a mental health breakdown in school during Term § 47(2)	Depression	Psychological system in general	2019/20	
5 kg weight fell on § 47 hand	Soft tissue due to trauma/unknown mech.	Hand	2019/20	
Twisted knee at work while rotating from one desk to another on that leg	Meniscus degenerate/detached/tear	Knee	2019/20	
Playing with children	Other fractures not elsewhere classified	Fingers	2019/20	
Kicked behind in the knee	Trauma to muscles/tendon unspecified	Lower leg	2018/19	
I was running in a race at school	Other fractures not elsewhere classified	Foot	2019/20	
A lot of work pressure and having 1 particular tough child in classroom	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Collision with student accidentally while trying to catch call	Other fractures not elsewhere classified	Toes	2019/20	
Teaching my class- projecting voice & loss ability to speak	Infectious diseases not unspecified	Mouth	2019/20	
IW was playing § 47(2)(b) with a student while on playground duty.	Traumatic tearing from muscle, avulsion	Lower leg	2019/20	
Sudden twisted at PE lessons	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Lifted a heavy desk at work and developed left shoulder pain	Soft tissue diseases due to non-traumati	Shoulder	2019/20	
Student knocked into arm	Musculoskeletal/connect tissue unspecif.	Shoulder	2019/20	
Ducked to avoid a tree near a boom gate, incoming car made gate open, hic in lower face area by gate	Laceration not involving amputation	Face	2019/20

Accident Description	Injury Nature	Injury Location	Incident Year	Region
I was finishing playground duty, walking to the front gate to retrieve a ball that one of the students had kicked outside the grounds. There is a 3 inch / 7.5cm drop where the gate is; as I stepped on the edge, to go through the gate, my [redacted] foot twisted, and I went down on both knees and landed on my [redacted] side	Trauma to muscles/tendon unspecified	Ankle	2019/20	s.47(3)(b) - Contrary to
Injured Worker advised that the School [redacted] was doing Supervision for COVID-19 and that they had Hand Sanitiser, Surgical Masks, and Gloves. However, Injured Worker said that had the put the Gloves on her Hands really quickly and left them on for an hour and then felt the Hands burning and then felt pins and needles, which caused both [redacted] Finger and [redacted] Finger on [redacted] Hand both Numb.	Injuries to nerves and spinal cord	Fingers	2019/20	
Supervising children at school	Superficial injury	Foot	2019/20	
Awkward sitting for long hours online teaching	Disc displacement, prolapse, hernia	Lower back	2019/20	
[redacted] Fall down stairs, inversion injury to left ankle	Other fractures not elsewhere classified	Ankle	2019/20	
Mechanical fall down stairs	Soft tissue due to trauma/unknown mech.	Foot	2019/20	
Uneven footpath causing her to roll ankle	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Cleaning out a cupboard	Poisoning/toxic effects of substances	Lung, trachea and bronchus	2019/20	
Opened container containing chlorine				
Exposed to open container for 30 mins while working on cupboard				
Moving boxes at work	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
Claimant was sitting with a child on the floor for 40 minutes, when got up, had acute low back pain	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Slipped in [redacted] in [redacted] classrooms on tile floor	Trauma to muscles/tendon unspecified	Knee	2019/20	
Fell flat on back, legs flew up, used right arm to brace for the fall				
Repeated use/projection of voice in the workplace - teaching and singing in everyday classes + additional rehearsal lessons - Students have instruments that they are playing, but I am often singing to accompany	Trauma to muscles/tendon unspecified	Neck bones, muscles and tendons	2019/20	
Putting a student in a hoisting sling	Soft tissue due to trauma/unknown mech.	Back - unspecified	2019/20	
I was participating in a [redacted] match with Teachers and Students and I just went to kick the ball and my knee has hyper-extended and I've heard some clicks in the my knee.	Trauma to muscles/tendon unspecified	Knee	2019/20	
Pushing away some boxes to get to powerpoint	Disc displacement, prolapse, hernia	Lower back	2019/20	
Teenager jumped on my hand.	Soft tissue due to trauma/unknown mech.	Fingers	2019/20	
while jogging on uneven terrain felt crunch in knee	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Removal of concrete piping (old irrigation/drainage lines on [redacted])	Exposure to substances, no injury/diseas	Unspecified locations	2017/18	
Full body weight, fall on [redacted] lateral ankle	Soft tissue diseases due to non-traumati	Ankle	2019/20	
Whilst walking from one room to another in the [redacted] Workers shoes have gripped carpet and worker has fallen over	Trauma to muscles/tendon unspecified	Wrist	2019/20	
Electric shock from pulling out a faulty laptop charger from a power board.	Electrocution, shock, electric current	Other and multiple systemic conditions	2019/20	
Walking on footpath and rolled [redacted] ankle over rock	Other fractures not elsewhere classified	Ankle	2019/20	
Tripped on grate and fell	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
Fall onto out stretched hand. Was going to sit on a chair, [redacted] student kicked chair away, fell back ward and onto [redacted] hand	Soft tissue due to trauma/unknown mech.	Hand	2019/20	
student fault- student grabbed onto the IW by her clothing and lost her footing whilst trying to get away and felt something go in her back	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Likely poor ergonomics and leaning against the left ulnar nerve	Soft tissue diseases due to non-traumati	Upper limb - unspecified locations	2019/20	
Landed on [redacted] leg after jumping with a twisting motion	Meniscus degenerate/detached/tear	Knee	2019/20	
Slipped on floor	Trauma to joints/ligaments unspecified	Knee	2019/20	
Slipped on wet floor and flexed [redacted] knee				

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Bullying and harassment from colleague	Anxiety/stress disorder	Psychological system in general	2018/19	s.47(3)(b) - Contrary to
fell at work	Soft tissue due to trauma/unknown mech.	Upper leg	2019/20	
Child pulling on shoulder	Soft tissue diseases due to non-traumati	Shoulder	2019/20	
Fell on stairs onto outstretched arm	Unspecified injuries	Elbow	2019/20	
Was crouching during a teaching session: sudden pain on trying to get up: and knee locked: [redacted] side	Meniscus degenerate/detached/tear	Knee	2019/20	
was walking around the oval with students and pulled muscle in [redacted] calf going up grassy hill	Traumatic tearing from muscle, avulsion	Upper leg	2019/20	
rolled her [redacted] ankle on lip of the stairs	Traumatic tearing from muscle, avulsion	Ankle	2019/20	
Attacked from behind by a student - fell to the ground as the student jumped on my back.	Musculoskeletal/connect tissue unspecif.	Knee	2019/20	
Lack of workplace support and direct negative feedback	Anxiety/stress disorder	Psychological system in general	2019/20	
Lifting textbooks and placing and moving them on/off shelf, repetitive activity	Trauma to muscles/tendon unspecified	Upper limb - multiple locations	2019/20	
Being pulled suddenly by a child who was clinging to stair rails	Musculoskeletal/connect tissue unspecif.	Lower back	2019/20	
Stacking chairs - I was carrying [redacted] arm. Then I felt like I had pulled my muscle from upper arm down to my elbow. I thought it was just muscular.	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
On duty instructing students	Meniscus degenerate/detached/tear	Knee	2019/20	
On duty, rotated on knee, developed sudden pain	Trauma to joints/ligaments unspecified	Ankle	2019/20	
rolled [redacted] ankle over pathway on school ground	Depression	Psychological system in general	2019/20	
Lack of support/debriefing from Employer after hearing info from Students (cases of [redacted] etc.)				
Participating in a [redacted] activity at school. Landed on [redacted] leg, pulled calf muscle. Could not walk or put pressure on my leg.	Trauma to muscles/tendon unspecified	Lower leg	2019/20	
Participating in a game of [redacted] with the students	Dislocation	Elbow	2019/20	
Sitting beside Student in small plastic Prep chair for approx. 30 mins - back began to hurt/sieze up over the next 30 mins	Trauma to muscles/tendon unspecified	Lower back	2019/20	
Walking in a classroom	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Lifting a piece of [redacted] arm - felt strain in bicep	Trauma to muscles/tendon unspecified	Upper arm	2019/20	
[redacted] Tripped on mat - fell forward onto [redacted] knee and hands	Muscle/tendon strain (non-traumatic)	Knee	2019/20	
On [redacted], walked into a meeting and caught toe on computer bag. Felt immediate pain.	Other fractures not elsewhere classified	Foot and toes - other and multiple	2019/20	
slipped on wet surface	Trauma to muscles/tendon not classified	Ankle	2019/20	
home learning packs being filled manually with repetitive bending	Back pain, lumbago, sciatica	Lower back	2019/20	
Walking and did not see a step - missed step and rolled [redacted] ankle	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Fall at Work	Contusion, bruising, superficial crush	Knee	2019/20	
While repairing [redacted] sharp object slipped and injured [redacted] hand	Laceration not involving amputation	Hand	2019/20	
Lifting heavy basket of books (approx. [redacted])	Epicondylitis	Elbow	2019/20	
Hit [redacted] knee on vending machine at work	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Suspended from work due to [redacted] charge, cleared under [redacted] months investigation. Unemployed.	Anxiety/stress disorder	Psychological system in general	2019/20	
At work, tripped backwards, injuring the [redacted] foot	Trauma to joints/ligaments unspecified	Foot	2019/20	
hit by another car from behind while stopped at traffic lights	Trauma to joints/ligaments not classified	Head and neck	2019/20	
Assaulted by student, fell backwards hitting his back on wall plug and head on wall	Musculoskeletal/connect tissue unspecif.	Upper back	2019/20	
Tripped and fell	Soft tissue diseases due to non-traumati	Head and other	2019/20	
Tripped and fell and landed on face				
Twisted [redacted] knee at work while showing students a [redacted] move	Musculoskeletal/connect tissue unspecif.	Knee	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Fall and injured [redacted] shoulder/Chest wall	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	s.47(3)(b) - Contrary to P
Was at work - stood up with a laptop, twisted sideways - sudden onset severe back pain since fell down stairs	Back pain, lumbago, sciatica	Back - unspecified	2019/20	
Riding [redacted] back to [redacted] after supporting Student at [redacted] - turning from outside lane, lost control and subsequent crash	Trauma to joints/ligaments unspecified	Ankle	2019/20	
I was demonstrating a skill during [redacted] on oval. I was running and changed direction and had a sudden pain in my [redacted] knee	Fractured skull and facial bones	Face	2019/20	
Injured Worker advised that [redacted] became highly anxious and that the Student flung out and accidentally hit the Injured Worker in the Mouth thus hitting the Top [redacted] Front Tooth.	Trauma to joints/ligaments unspecified	Knee	2019/20	
On way to do morning duties of checking students and ankle rolled on step and hit head on door. Step up into [redacted] room, didn't see it, half of door shut and caught self on the door.	Fractured skull and facial bones	Tooth	2019/20	
Sitting on an office chair, moved to pull herself in and felt immediate pain as above	Other fractures not elsewhere classified	Ankle	2019/20	
over stressed, accusations of [redacted] and threat of Managing Unsatisfactory Performance.	Trauma to muscles/tendon unspecified	Lower back	2019/20	
[redacted] packing up [redacted] classrooms as we were getting a [redacted]	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
[redacted] Really big pack up of all equipment, a lot of up and down movements, lifting, stretching, climbing, back injury developed over this time.	Anxiety/stress disorder	Psychological system in general	2018/19	
Twisted ankle walking over creek in playground	Back pain, lumbago, sciatica	Lower back	2019/20	
During [redacted] training I was hit in the mouth by a full blooded spike (hit).	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Student with a disability hopped out of wheelchair and was moving around - he fell and grabbed/pulled right arm with significant force	Contusion, bruising, superficial crush	Mouth	2019/20	
[redacted]	Bursitis	Shoulder	2019/20	
[redacted] with the bike turning sideways and landing on the leg and [redacted]	Other fractures not elsewhere classified	Ankle	2019/20	
Fell over seated student	Traumatic tearing from muscle, avulsion	Shoulder	2019/20	
Tripped by student and landed on concrete	injuries to nerves and spinal cord	Face	2019/20	
since [redacted] feels work place stress/bullying	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
[redacted] Issues with Line Manager - feel unsupported, micro-managed, singled out.	Anxiety/stress disorder	Psychological system in general	2019/20	
I was losing the [redacted] flew into my eye.	Laceration not involving amputation	Eye - unspecified	2019/20	
Sitting in low chairs at work	Trauma to joints/ligaments unspecified	Lower back	2019/20	
Work involve sitting in low chairs at different times of the day. Also played sport with student				
2 days prior to pain onset				
Previous mechanical low back pain but has been stable				
Tackling injury to restrain a child	Back pain, lumbago, sciatica	Lower back	2015/16	
Bitten by a dog on way to school this morning	Laceration not involving amputation	Hand	2019/20	
Stepping back and tripped over trolley, falling onto back, hitting backside/back and head/both arms.	Trauma to joints/ligaments not classified	Neck bones, muscles and tendons	2019/20	
Fell at work on wet floor surface	Trauma to joints/ligaments unspecified	Wrist	2019/20	
Overuse of voice in workplace.	Disease of muscle etc, unspecified	Other specified multiple locations	2019/20	
Was protecting a student from another student that was attempting to throw heavy objects at them. As reached out to stand in the way twisted back.	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Was walking down steps to staff room at the end of the day on the last step rolled ankle.	Trauma to joints/ligaments unspecified	Ankle	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Spat on by child during playground duty	Anxiety/stress disorder	Psychological system in general	2019/20	s.47(3)(b) - Contrary to P
Fall while at work playing [s.47(2)(d)]	Other fractures not elsewhere classified	Wrist	2019/20	
Car claimant was in was hit by another car	Trauma to joints/ligaments not classified	Head and neck	2019/20	
Fall	Dislocation	Elbow	2019/20	
Recurring incidents and instances of concern with principal.	Anxiety/stress disorder	Psychological system in general	2019/20	
Pain onset over a few weeks, same knee as previously injury with [s.47(2)(b) c.d]. No injury or fall preceding	Soft tissue diseases due to non-traumatic	Knee	2019/20	
I slipped on a wet metal concrete play area.	Contusion, bruising, superficial crush	Lower leg	2019/20	
Caught hand opening and closing cupboard door	Contusion, bruising, superficial crush	Fingers	2019/20	
Engaged in sporting activity with students	Trauma to joints/ligaments unspecified	Knee	2019/20	
Injury [s.47] knee while running at school on [s.47(3)] at around [s.47(2)].				
Decisions made by Department of Education and Queensland Government in relation to schools not taking into consideration needs of teachers.	Anxiety/stress disorder	Psychological system in general	2019/20	
Over a period of time - When schools starting working from home with constant typing.	Bursitis	Shoulder	2019/20	
While kneeling down the floor, felt tightness behind the knee; when worker stood up to continue working he collapsed on the floor and bend his knees"	Trauma to muscles	Lower limb - multiple locations	2019/20	
School child kicked [s.47(2)(b)] into head	Neck pain, cervicalgia	Neck bones, muscles and tendons	2019/20	
On the school oval and stepping into a [s.47(2)(d)] post hole	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Claimant has been bullied from a coworker at school	Anxiety/stress disorder	Psychological system in general	2019/20	
Walking to classroom	Other fractures not elsewhere classified	Wrist	2019/20	
Head butted by child	Laceration not involving amputation	Mouth	2019/20	
Landing awkwardly while coming down from stairs	Trauma to joints/ligaments unspecified	Foot and toes - other and multiple	2019/20	
Supervising children outside, fell down	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Was sitting on a wheeled stool. At front of classroom with kids present. Bent over to pick up back. Stool scooted out from under her, landed on [s.47] buttock and [s.47] wrist, immediate pain	Trauma to joints/ligaments unspecified	Wrist	2019/20	
Used hand to block fall from sitting on desk	Other fractures not elsewhere classified	Wrist	2019/20	
Fall from desk onto hands				
Desk toppled over when she was sat on it				
Washing glass beakers	Laceration not involving amputation	Hand	2019/20	
fell into a hole	Unspecified injuries	Lower leg	2019/20	
Slipped on wet floor and fell onto backside	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Injured while trying to avoid child running towards her. Teacher yelled at her to get out of the way. Child was going to vomit. While she went to move, she twisted body.	Trauma to muscles	Upper leg	2019/20	
I was supporting a student on a [s.47(2)(b)] ball. He fell off the ball and took the weight of the student	Trauma to muscles/tendon not classified	Lower back	2019/20	
Claimant was teaching her class and was punched into the face by a strong [s.47] year old student. This resulted in facial pain, headaches, dizziness and nausea	Other diseases not elsewhere classified	Face	2019/20	
The worker was on playground duty and the worker walked on uneven ground causing worker to fall over.	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Increase intensive laptop use (up to 5 hours a day)	Epicondylitis	Elbow	2019/20	
Pain began after new work conditions where had to work on laptop continuously				
Tripped on uneven pavement	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
A student leaned heavily into the top of my head during an intensive interaction session causing pain to my neck	Soft tissue due to trauma/unknown mech.	Neck bones, muscles and tendons	2019/20	
Bending down to wring out the cleaning cloth stood back up and felt lower back pain	Back pain, lumbago, sciatica	Lower back	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Impact injury to [redacted] hand from heavy window frame	Soft tissue due to trauma/unknown mech.	Hand	2019/20	s.47(3)(b) - Contrary to P
Repetitive and excessive use of computer and desk work due to COVID-19 online teaching at home and at the school	Occupational overuse syndrome	Wrist	2019/20	
Was hit by one of the students	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
I was moving desks, boxes & filing cabinets from one building to another building	Trauma to muscles/tendon unspecified	Neck and shoulder	2019/20	
Fall on outstretched hand after slipping on a moss covered path at school	Trauma to joints/ligaments unspecified	Wrist	2019/20	
ELECTROCUTED BY KETTLE	Electrocution, shock, electric current	Other and multiple systemic conditions	2019/20	
Walking on uneven surface at school when twisted her right knee	Trauma to joints/ligaments unspecified	Knee	2019/20	
[redacted] Working in [redacted] - repeated lifting of Students [redacted] s.47(3)(b) - Contrary to P	Bursitis	Shoulder	2019/20	
[redacted] supporting Students [redacted] s.47(3)(b) - and other tasks				
Trip fell down stairs	Dislocation	Knee	2019/20	
Refereeing [redacted] Game - bent down and foot slipped on grass [redacted] knee dislocated inwards	Traumatic tearing from muscle, avulsion	Knee	2019/20	
Aggravated due postural changes at work	Back pain, lumbago, sciatica	Back - other and multiple	2019/20	
Hit in the mid humerus by child with [redacted]	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
With Covid 19 around and being an [redacted] s.47(3)(b) - Contrary to Public Interest i was directed to work at home since [redacted] s.47(3) Doing a lot more sitting and I have noticed slight back pain occurring [redacted] s.47(3) By the end of [redacted] s.47(3)(b) - C in agony.	Disc displacement, prolapse, hernia	Lower back	2019/20	
Got in to see a dr on [redacted] s.47(3). Dr refereed for radiology and results have shown a prolapsed disc pressing on left sciatic nerve.				
working from home over past 2 months due to covid. Long periods (>5 hrs a day) of typing and mouse work, much more significant than prior to working from home.	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
[redacted] s.47(3)(b) was supervising a student outside when another student pushed her towards the student she was supervising.	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2019/20	
Was teaching [redacted] s.47(3) to the student, tried to stand up from the [redacted] s.47(3)(b) - Contrary to and swelling sudden onset.	Musculoskeletal/connect tissue unspecif.	Knee	2019/20	
Child scratched face	Laceration not involving amputation	Hand	2019/20	
Supervising students process of getting down [redacted] s.47(3)(b) lost footing and fell forwards.	Soft tissue diseases due to non-traumati	Shoulder	2019/20	
walking up stairs to another class room	Trauma to muscles/tendon unspecified	Lower leg	2019/20	
While removing a child from a dangerous position they jumped and pulled my arm	Bursitis	Shoulder	2019/20	
Student has slammed hand in a fire door	Other fractures not elsewhere classified	Hand	2019/20	
Previous work related back issues, recently change in work conditions, exacerbated back issues due to poor sitting on computer and prolonged sitting at the computer for 4 to 5 weeks	Trauma to joints/ligaments unspecified	Lower back	2019/20	
Fell up stairs	Trauma to joints/ligaments unspecified	Hip	2019/20	
Slipped and fell on the stairs and landed on [redacted] s.47(3)(b) hip				
Slipped on wet step. Walking upstairs while holding onto laptop. Steps were slippery due to rain. Fell and landed on [redacted] s.47(3)(b) elbow.	Laceration not involving amputation	Elbow	2019/20	
hot on head by [redacted] s.47(3)(b) during controlled descent	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2019/20	
Increased pressure with transition to online learning and unable to keep up with expectations - feeling overwhelmed	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Punched by pupil, initial claim [redacted] s.47(3)(b) This has now been re investigated in [redacted] s.47(3)(b) - Contrary to Public - This has caused stress to IW and the outcome of this investigation was delayed	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Tripped over rug in [redacted] s.47(3)(b)	Contusion, bruising, superficial crush	Ribs	2019/20	
Pressure on spine due to using hoist to lift a heavy child	Disc displacement, prolapse, hernia	Neck bones, muscles and tendons	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
I fell over an outside bench that is for children at the tuck shop then I landed on my face	Fractured skull and facial bones	Tooth	2019/20	s.47(3)(b) - Contrary to F
walking to class and rolled ankle on a stray rock	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Kicked by student	Soft tissue due to trauma/unknown mech.	Abdominal muscles and tendons	2019/20	
Fall on concrete floor at school	Trauma to joints/ligaments unspecified	Neck and shoulder	2019/20	
Fell down about 9 stairs, caught [redacted] jaw and [redacted] wrist with rail	Trauma to muscles/tendon unspecified	Wrist	2019/20	
Increased pain in her [redacted] hand and thumb after repetitive movements at work with packing a large papers in envelopes for students	Synovitis and tenosynovitis	Hand	2019/20	
Was protecting a child from assault and was barged full on twice by another child	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
Playing [redacted] with Students - pushed off with [redacted] leg and felt sharp pain in [redacted] leg, fell to floor	Muscle/tendon strain (non-traumatic)	Ankle	2019/20	
My voice was strained and is now failing because of overuse in my job as a classroom [redacted] teacher.	Other diseases of respiratory system	Mouth	2019/20	
Missed a step [redacted] at his work	Other fractures not elsewhere classified	Foot	2019/20	
interacting with student and he kicked my face and damaged my glasses	Contusion, bruising, superficial crush	Face	2019/20	
Frequent use of arms/shoulders in [redacted] over a period of approx [redacted] years	Frozen shoulder (adhesive capsulitis)	Shoulder	2019/20	
Patient was pushing a heavy blackboard at work when her progress was halted suddenly; felt immediate low back pain on left side in region of [redacted]	Joint/other articular cartilage, unspec.	Hip	2019/20	
Walking down a path and slid on path and landed on knee and hurt ankle.	Other fractures not elsewhere classified	Ankle	2019/20	
Fell over bench seat in the classroom	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Assault at work by student	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Restraining an [redacted] child	Superficial injury	Face	2019/20	
On the [redacted] jumped over hurdles landing on leg leg flat foot, felt pain. [redacted] when walking backwards, stopping, then walked forwards explaining [redacted] this has aggravated the injuries.	Trauma to muscles	Lower leg	2019/20	
Stepping off one step and [redacted] knee "gave way" resulting in her falling to ground	Trauma to joints/ligaments unspecified	Knee	2019/20	
Student threw arm over [redacted] side and falling into me ; in a hugging motion. The force push me back into desk and his arm made contact with the [redacted] side of my head before finally resting over my [redacted] shoulder student had to be removed physically from me and when pulled off did not let go; causing my shoulder to be pulled forward	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
Student sneezing in face at close range	Diseases of conjunctiva and cornea	Eye - other and multiple	2019/20	
Student sneezed spit directly into his [redacted]	Other fractures not elsewhere classified	Shoulder	2019/20	
Tripping on a wooden ramp on the way into work.	Anxiety/stress disorder	Psychological system in general	2019/20	
A student pulled with his body weight ([redacted]) sustaining injury to shoulder and arm				
Walking from classroom to storeroom. In the storeroom there was some loose vinyl and I slipped and landed on [redacted] knee	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
twisted ankle	Other fractures not elsewhere classified	Ankle	2019/20	
Student stepped on her [redacted] toe during sports lesson	Contusion, bruising, superficial crush	Toes	2019/20	
Walking downstairs from classroom - fell off the last step and [redacted] ankle twisted sideways (wearing flat shoes)	Other fractures not elsewhere classified	Ankle	2019/20	
Fell from the 4th step and landed on extended hands and knee	Epicondylitis	Elbow	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
I was at work on § 47(3) to get resources for online learning due to covid-19, i wasn't directed to be there but I was there for a few hours. § 47(3)(b) - Contrary to Public Interest whilst i was there. § 47(3)(b) - Contrary to Public Interest §.47(3)(b) - Contrary to Public Interest	Ischaemic heart disease	Heart	2019/20	s.47(3)(b) - Contrary to
Stepped in hole and twisted ankle	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Switching on ceiling fan	Electrocution, shock, electric current	Other and multiple systemic conditions	2019/20	
Sitting on swivel chair in the classroom - turned and stood up from chair, § 47(3)(b) knee gave way	Trauma to muscles/tendon unspecified	Knee	2019/20	
Kneeling and reaching out forward with paper in hand	Back pain, lumbago, sciatica	Back - unspecified	2019/20	
§ 47(3)(b) - Contrary to Public Interest Picked up § 47(3)(b) from the ground of the Sports Shed and strained lower back	Back pain, lumbago, sciatica	Lower back	2019/20	
Tripped and fell on the pavement	Superficial injury	Knee	2019/20	
I broke up a fight between 2 students.	Musculoskeletal/connect tissue unspecif.	Shoulder	2019/20	
A child yanked her § 47(3)(b) arm causing pain § 47(3)(b) shoulder/nape/elbow/forearm/wrist § 47(3)(b) - Contrary to Public Interest I panicked and garbbed all my work for the day and left for my first care class. When I transferred it into my § 47(3)(b) arm to open the door with my § 47(3)(b) the strain did something. The pain got progressively worse throughout the day, such that I could not grab my seatbelt with my § 47(3)(b) arm to drive home and I cannot sleep, § 47(3)(b) - Contrary to Public Interest	Soft tissue diseases due to non-traumat Trauma to muscles/tendon unspecified	Upper limb - multiple locations Shoulder	2019/20 2019/20	
Supervising § 47(3)(b) game, walking divet in the grass ground. § 47(3)(b) ankle rolled fell and injured § 47(3)(b) side of leg	Trauma to muscles/tendon unspecified	Ankle	2019/20	
Pushed down the stairs by a student	Other intracranial injury, not specified	Brain	2019/20	
Kicked in the head by a student	Other diseases not elsewhere classified	Head - unspecified locations	2019/20	
Bitten on § 47(3)(b) forearm by a child	Laceration not involving amputation	Forearm	2019/20	
Witnessing a colleague being verbally and physically abused.	Anxiety/stress disorder	Psychological system in general	2019/20	
foot caught in mat and fell over onto face hands	Soft tissue due to trauma/unknown mech.	Back - other and multiple	2019/20	
Working on laptop - neck in an unusual position for extended period of time	Other specified soft tissue diseases,	Neck bones, muscles and tendons	2019/20	
Psychological trauma after persistent bullying at work	Depression	Psychological system in general	2019/20	
I was confronted twice in the workplace by a § 47(3)(b) It was quite intimidating as he was § 47(3)(b) - Contrary to Public Interest his manager. I had walked away after the first confrontation and he then followed me and confronted me again.	Anxiety/stress disorder	Psychological system in general	2019/20	
The claimant was helping a student up who was sitting in a bean bag on the floor, the student pulled on claimant's arm and his back twisted awkwardly	Disc displacement, prolapse, hernia	Lower back	2019/20	
Increasing stressors at work with oppositional, poorly disciplined children, violently & verbally assaulting each other & other uninvolved classmates in the school grounds, before, during, and after classes. This creates uncontrollable unsafe school environments for the § 47(3)(b) his students & at times other students in other classes, & despite senior school officials being aware of the issues, there appear no practical solutions or safe practices offered in reality, creating an increasing level of fear and anxiety in § 47(3)(b) § 47(3)(b) that at times becomes reality, & is increasingly ? to	Anxiety/stress disorder	Psychological system in general	2019/20	
Tripped over at school playground	Soft tissue due to trauma/unknown mech.	Ankle	2019/20	
Was running after children and twisted calf - felt pain	Trauma to muscles/tendon unspecified	Lower leg	2019/20

Persistent dysphonia following heavy vocal load at work following school concerts	Unspecified injuries	Mouth	2019/20	s.47(3)(b) - Contrary to P
Jammed in door frame	Other fractures not elsewhere classified	Fingers	2019/20	
walking quickly to catch up with student, felt sharp pull in anterior thigh	Trauma to muscles/tendon unspecified	Upper leg	2019/20	
Fell while working down corridor due to shoe catching, she fell forward	Soft tissue due to trauma/unknown mech.	Unspecified locations	2019/20	
Stepping out of block door towards carpark tripped over rolled up carpet	Unspecified injuries	Neck and shoulder	2019/20	
landing on the cement step and bitumen on the side of her body. Injuring side of neck, shoulder, forearm, hip and top of leg area and bruising/grazing both hands and fingers.				
Injury occurred over a period of time due to continuous shredding of paper & moving boxes.	Epicondylitis	Elbow	2019/20	
bite from a pupil at school - was trying to encourage him to go to bus, he was handing onto rail let go of rail and bit her arm	Laceration not involving amputation	Upper arm	2019/20	
Stood quickly to support child - knee jarred	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Repeated use/projection of voice in the workplace - working with Primary Students needing more management/guidance	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	
Stopping fall on stairs	Unspecified injuries	Wrist	2019/20	
Skipping - jumped and felt a snap	Traumatic tearing from muscle, avulsion	Lower leg	2019/20	
Moving play equipment - twisted to move trolley and strained hip area.	Trauma to muscles/tendon unspecified	Hip	2019/20	
Child was getting upset and I turned to move away and the child pushed me and I fell over other children in the area onto my hand	Trauma to joints/ligaments unspecified	Hand	2019/20	
Student pushed patient to the ground and bitten patients forearm	Laceration not involving amputation	Forearm	2019/20	
From increased use of computer work due to Covid-19 - using keyboard/mouse, processing emails, amending excel spreadsheets daily, reduced breaks	Occupational overuse syndrome	Forearm	2019/20	
Verbal and physical abuse from a parent. Either late last year, early this year stress occurred.	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Started with a phone call then on the she came in and physically and verbally abused me, than she was back the school on Wednesday.				
Working long hours on the computer whilst preparing home schooling resources during COVID-19	Soft tissue due to trauma/unknown mech.	Neck - other and multiple	2019/20	
Twisting injury to ankle when Worker was walking on flag ground	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Mistreated by aides at school	Post-traumatic stress disorder	Psychological system in general	2019/20	
Having morning tea at the table and turned to get out of chair and felt pins and needles in back.	Disc displacement, prolapse, hernia	Lower back	2019/20	
Supporting a child to manage behaviour, child's shoes slipped out from under him, supported child to floor, moved wrist and felt pain	Trauma to muscles/tendon unspecified	Wrist	2019/20	
Back pain from frequent twist and turn, knee pain due to walk on uneven ground	Back pain, lumbago, sciatica	Lower back	2019/20	
stepping sideways to avoid student	Trauma to muscles/tendon unspecified	Foot	2019/20	
Repetitive preparation of work materials for schooling at home due to COVID-19 - tasks such as cutting with scissors and slicing laminated sheets on a machine	Trauma to muscles/tendon unspecified	Thumb	2019/20	
hoarseness of voice secondary to repeated talking while talking	Unspecified injuries	Neck - other and multiple	2019/20	
picking up a piece of paper in wet and fell on hand and knee	Contusion, bruising, superficial crush	Shoulder	2019/20	
Lifting a during construction in school class	Back pain, lumbago, sciatica	Lower back	2019/20	
Twisted ankle while playing	Trauma to joints/ligaments unspecified	Ankle	2019/20	
accidentally pierced hand with fork while	Laceration not involving amputation	Hand	2019/20	
While readjusting child onto bus	Trauma to muscles/tendon unspecified	Wrist	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Very busy week at work. Seniors were back at school. Prior to this I was doing online classes from staffroom, but more staff was in staffroom this week so I worked from my classroom. Chair wasn't supportive, and I was doing a lot of computer work. Felt pain from [§ 47(2)(b)] worsened by [§ 47(3)]	Back pain, lumbago, sciatica	Lower back	2019/20	s.47(3)(b) - Contrary to F
Repeated talking while teaching	Muscle/tendon strain (non-traumatic)	Neck - internal organs and glands	2019/20	
Lifting furniture - Student's table	Muscle/tendon strain (non-traumatic)	Upper arm	2019/20	
Tripped over bollard at work - landed on ground on [§ 47(3)] shoulder	Trauma to muscles/tendon not classified	Shoulder	2019/20	
Has several neck and head traumas and injury from a violent child at school, the pain is getting worse for the last 2 months	Inflammatory arthritis/arthropathies	Head and neck	2019/20	
Pushing the laptop trolley into class when stopped and turned around and the trolley rolled backwards onto [§ 47(3)] ankle and rolled over the side of my foot.	Laceration not involving amputation	Foot	2019/20	
[§ 47(3)(b)] Assisting [§ 47(3)] student - went to pick up small plastic bag of needles and needle pricked [§ 47(3)] finger	Medical sharp/needle-stick puncture	Fingers	2019/20	
She mentions that a student desk landed on her foot after one of the students flipped over the desk this morning approximately by [§ 47(3)]	Unspecified injuries	Ankle	2019/20	
Fall to the floor and hit table -injures to lower back and neck	Soft tissue due to trauma/unknown mech.	Neck - other and multiple	2019/20	
Sudden movement at [§ 47(3)] shoulder to save the child from harming himself as the child was about to jumping from monkey bar	Trauma to joints/ligaments unspecified	Shoulder	2019/20	
Bit at school on [§ 47(3)] elbow by student	Laceration not involving amputation	Elbow	2019/20	
bite from a pupil at school	Laceration not involving amputation	Thumb	2019/20	
Repeated use/projection of voice - teaching full classroom, playground/yard duty	Trauma to muscles/tendon unspecified	Neck: bones, muscles and tendons	2019/20	
Struck to [§ 47(3)] side of face	Other diseases not elsewhere classified	Head - unspecified locations	2019/20	
Walking through car park down to gate duty. Walking down slope and has stepped on rock causing the injury.	Trauma to muscles/tendon unspecified	Ankle	2019/20	
Laptops locked away by steel poles, has been removing the pole to place it on top of trolley and it has fallen through hands and landed on foot	Other fractures not elsewhere classified	Toes	2019/20	
Bitten by a student	Laceration not involving amputation	Shoulder	2019/20	
Trip and fall on a tree root on a school oval whilst on a playground duty.	Other fractures not elsewhere classified	Ankle	2019/20	
While carrying books down the stairs, [§ 47(2)(b)] foot has hit the step causing him to fall and his [§ 47(3)] knee went sideways.	Meniscus degenerate/detached/tear	Knee	2019/20	
Physical assault by [§ 47(3)(b)] - C in front of students and immediate supervisor treating him worse than other staff.	Anxiety/stress disorder	Psychological system in general	2019/20	
Behaviour, disrespect of students	Diseases of nervous system unspecified	Neck - internal organs and glands	2019/20	
Students has been verbally and physically abusing her and disrespecting her, causing voice damage and stress				
[§ 47(3)(b)] walked out of [§ 47(3)] Building onto the pathway, the path is uneven, her shoe caught on the edge of the concert and she fell face first hitting the [§ 47(3)] side of her body first they rolled.	Soft tissue due to trauma/unknown mech.	Other specified multiple locations	2019/20	
Repeated overmanagement/micromanagement by [§ 47(3)] Teacher, constantly questioned my actions	Anxiety/stress disorder	Psychological system in general	2019/20	
IW went to open cupboard pulled very heavy door open and felt pain in [§ 47(3)] shoulder	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2019/20	
Repeated alleged sexual harassment by [§ 47(3)(b)] - Contrary to Public Int accommodation	Anxiety/stress disorder	Psychological system in general	2019/20	
Fell over tree stump onto [§ 47(3)] side	Musculoskeletal/connect tissue unspecif.	Knee	2019/20	
was warming up for [§ 47(3)] class in school doing star jumps when felt a pop in [§ 47(3)] leg	Soft tissue due to trauma/unknown mech.	Lower leg	2019/20	
misjudged the distance while going downstairs, landed on [§ 47(3)] side of back, lacerated [§ 47(3)] ankle	Musculoskeletal/connect tissue unspecif.	Trunk - unspecified locations	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
IW on way to class room, concrete area, then 3 steps. As stepped off last step, ankle gave out a bit. IW tried to right herself but stumble and glided over the concrete, twisted and landed on grass beside the concrete. No handrail on steps and the concrete was not quite one level.	Soft tissue due to trauma/unknown mech.	Upper limb - unspecified locations	2019/20	s.47(3)(b) - Contrary to P
I was doing playground duties and standing about 1 foot away from a concrete table and a child § 47(2)(b) - Contrary to Public Interest the table towards my back and I turned to see what it was and my back has been strained when he landed on me.	Back pain, lumbago, sciatica	Lower back	2019/20	
§ 47(2)(b) took the kids to play a game of § 47(2)(b) and went to tag a child who has stopped and their foot has slipped out tripping § 47(3) who has grabbed the child with her § 47 had and placed her § 47 hand forward to take the fall.	Other fractures not elsewhere classified	Wrist	2019/20	
After an attack by a student and now student back to school and § 47(2) is stressed and afraid to be in the classroom with the student. This is taking it's toll on my physical body as well.	Anxiety/stress disorder	Psychological system in general	2019/20	
I was bumped by a student while walking down the stairs. I slid down the rest of the stairs and landed on my foot folding it in half	Trauma to joints/ligaments unspecified	Foot	2019/20	
Scatched by § 47(2)(b) student, who lashed out	Laceration not involving amputation	Forearm	2019/20	
§ 47 was in the library and had to get a picture book from a low shelf. They have little § 47(3)(b) - Contrary to Public Interest	Unspecified injuries	Lower back	2019/20	
find the book. § 47(3) tried to get up off the § 47(3) and was unable to stand and the § 47(3) worker grabbed her § 47 arm and pulled to assist her up and in the stand § 47 twisted her back and felt pain in the back immediately.	Contusion, bruising, superficial crush	Fingers	2019/20	
at her classroom around § 47 hrs § 47 index finger was caught & crushed between 2 desks	Trauma to joints/ligaments unspecified	Wrist	2019/20	
I put my hand up to hold one of the students hands and he leaped towards me, hit my hand and bent my wrist under	Trauma to joints/ligaments unspecified	Wrist	2019/20	
Tripped over student's leg and fell onto buttock and § 47 hand/wrist struck table during fall.	Back pain, lumbago, sciatica	Lower back	2019/20	
Wrist injury post surgery - needs treatment secondary depression	Depression.	Psychological system in general	2019/20	
Walking from one classroom to another - hit in the back by a § 47(2)	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
After physical class instructing at school, § 47 medial knee pain	Trauma to muscles/tendon unspecified	Knee	2019/20	
A contractor was conducting the removal of air an conditioning unit in my classroom. § 47(3)(b) - Contrary to Public Interest	Exposure to substances, no injury/diseas	Unspecified locations	2019/20	
asbestos was not removed. I was told to return to my classroom and carry on with my teaching and learning duties. Later that day at § 47(2) was asked to leave my classroom as an air quality control team had arrived on site. I was informed the following day at § 47 am that my classroom has active asbestos in the carpet after the removal of the air conditioning unit the following day. I reported the incident to WHSQ.				
Whilst filling up the photocopier machine, worker has stood up to push the draw in with her foot and as she stood up worker has twisted to the side and felt a sharp sensation.	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Workplace bullying and unsafe work conditions	Anxiety/stress disorder	Psychological system in general	2019/20	
I received an accusatory email from my Principal that triggered a panic attack that resulted in me requiring medical assistance from my GP and Mental Health Nurse.	Anxiety/stress disorder	Psychological system in general	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
§ 47(3) states that she helping students to get up when she places her § 47(3)(b) arm around the child. On standing the child fell to the ground and it was during his fall that he pulled her § 47(3)(b) arm backwards	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	s.47(3)(b) - Contrary to P
A student pinched her severely & in her attempt to try & get away she hurt her neck & § 47(3)(b) shoulder.	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
Turned head suddenly when one of the student was pretending to throw the ball at him.	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2019/20	
playing § 47(3)(b) with students, loss of balance, fell backwards, hit § 47(3)(b) - Contrary to P	Back pain, lumbago, sciatica	Lower back	2019/20	
Knocked flat to the ground from behind by a student at school fell with full body on § 47(3)(b) shoulder	Bursitis	Shoulder	2019/20	
Fall on outstretched hands.	Trauma to muscles/tendon unspecified	Wrist	2019/20	
Lack of communication/information from Employer regarding transfer granted § 47(3)(b)	Anxiety/stress disorder	Psychological system in general	2019/20	
Fall at work	Back pain, lumbago, sciatica	Lower back	2019/20	
Toileting a student	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
Work-related stress. Few incidents occurred on § 47(3)(b) with students and colleagues exacerbated existing condition.	Depression	Psychological system in general	2019/20	
Due to the incident	Anxiety/stress disorder	Psychological system in general	2018/19	
Seated at at Staff Meeting - all of a sudden my wheelie chair wheeled away from underneath me and I fell onto buttocks	Soft tissue diseases due to non-traumati	Lower back	2019/20	
Pulling two fighting children apart	Epicondylitis	Elbow	2019/20	
The tradesman were in the class before school started and we spent the day in class not knowing there was asbestos. It was confirmed.	Exposure to substances, no injury/diseas	Unspecified locations	2019/20	
Walking on the grass between two buildings whilst walking stepped into a devit in the ground causing injury	Traumatic tearing from muscle, avulsion	Lower leg	2019/20	
Repeated bullying by § 47(3)(b) - Contrary to P (for the past § 47(3)(b) years)	Anxiety/stress disorder	Psychological system in general	2019/20	
§ 47(3)(b) foot caught in a sling at work.	Musculoskeletal/connect tissue unspecif.	Ankle	2019/20	
School student put case on ground, stepped over and landed on knee, twisted ankle	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Twisted of § 47(3)(b) thumb and poked to § 47(3)(b) eye with finger.	Trauma to joints/ligaments unspecified	Thumb	2019/20	
For approx. § 47(3)(b) weeks from § 47(3)(b) increased data entry/typing/mousing to amend/redesign/reconfigure documents/policies/procedures/timetables to accommodate Covid-19 changes	Epicondylitis	Elbow	2019/20	
Sitting at desk near whiteboard - Teacher Aide adjusted the phone on the wall and speaker (shoebox size) fell off the wall and struck me on the head	Other diseases not elsewhere classified	Brain	2019/20	
Whist demonstrating a PE class with my students class, stepped backwards and injured § 47(3)(b) leg	Other fractures not elsewhere classified	Lower leg	2019/20	
Attacked by a § 47(3)(b) year old student from a § 47(3)(b)	Anxiety/stress disorder	Psychological system in general	2019/20	
I was threatened, punched and kicked by a child, aged § 47(3)(b) who had § 47(3)(b) on several occasions. He would punch and kick me and § 47(3)(b) - Contrary to P on occasions. This caused me to feel very frightened, anxious and distressed. § 47(3)(b) - Contrary to P	Post-traumatic stress disorder	Psychological system in general	2018/19	
§ 47(3)(b) - Contrary to Public Interest Another child would constantly pinch my arms causing bruising. Another child would continually threaten other smaller children.				
Falling down 5 stairs, jumped and landed on § 47(3)(b) foot/heel	Other fractures not elsewhere classified	Foot	2019/20	
IW had advised the § 47(3)(b) about the lifts not working for some time but nothing had been done yet.	Traumatic tearing from muscle, avulsion	Shoulder	2019/20	
Repeating scanning	Back pain, lumbago, sciatica	Upper back	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Drill bit pierced thumb, student accidentally slipped whilst drilling piece of metal whilst Mr [§ 47(3)(b)] assisting to hold it still at the time.	Laceration not involving amputation	Thumb	2019/20	s.47(3)(b) - Contrary to P
Lining up outside classroom - tall Student aggressively smacked me on back/shoulder blade with open palms	Trauma to muscles/tendon unspecified	Upper back	2019/20	
A female parent verbally abused and stood over her for [§ 47(3)(b)] tried to escape but was followed by the abusive parent until a male colleague intervened	Post-traumatic stress disorder	Psychological system in general	2019/20	
[§ 47(3)(b)] for playground duty	Back pain, lumbago, sciatica	Lower back	2019/20	
Lifted and carried in each hand 2 barrier stands of approximately 5kgs each.	Soft tissue due to trauma/unknown mech.	Forearm	2019/20	
Fall on outstretched [§ 47(3)(b)] hand	Laceration not involving amputation	Mouth	2019/20	
Two students were having a fight in the playground, I [§ 47(3)(b)] stepped in to separate them when one of the students kicked out at the other but hit me in the face, splitting my lip.	Trauma to joints/ligaments not classified	Neck and trunk	2019/20	
Tripped over an uneven and unmarked concrete surface, tumbled and crashed into the fence with hand out.	Contusion, bruising, superficial crush	Foot	2019/20	
Direct blow to [§ 47(3)(b)] foot, child kicked over table which fell onto his [§ 47(3)(b)] foot	Trauma to muscles	Lower leg	2019/20	
Walking down wet steps.	Trauma to muscles/tendon unspecified	Foot	2019/20	
While walking children to their parent's cars at the end of the school day	Contusion, bruising, superficial crush	Eye - unspecified	2019/20	
Student has deliberately thrown a [§ 47(3)(b)] like ball into [§ 47(3)(b)] right eye from 5-10 metres away.	Other fractures not elsewhere classified	Fingers	2019/20	
playing [§ 47(3)(b)] finger caught between [§ 47(3)(b)]	Tendinitis	Shoulder	2019/20	
repetitive carrying of heavy boxes when reorganising [§ 47(3)(b)] resources room	Back pain, lumbago, sciatica	Lower back	2019/20	
Support worker at [§ 47(3)(b)] school, student jumped on her back suddenly and then dropped to the ground almost dragging her down with him, sore back since esp left lumbar area	Other diseases of respiratory system	Lung, trachea and bronchus	2019/20	
Repeated use / projection of voice in course of employment as Teacher over the past [§ 47(3)(b)] years	Neck pain, cervicalgia	Neck bones, muscles and tendons	2019/20	
Slipped onto bottom at work this morning at around [§ 47(3)(b)] on cement stairs.	Musculoskeletal/connect tissue unspecif.	Head - unspecified locations	2019/20	
Tripped over own foot, fell over and hit head on concrete path. Lost consciousness.	Anxiety/stress disorder	Psychological system in general	2019/20	
Punched and kicked by a student on [§ 47(3)(b)] and then student threw a pencil at my head and ear causing pain and swelling in [§ 47(3)(b)]	Unspecified injuries	Face	2019/20	
Student asked [§ 47(3)(b)] to participate in [§ 47(3)(b) - Contrary to Public] in doing this he proceeded to do push up when he didn't catch himself and fell on his chin.	Contusion, bruising, superficial crush	Mouth	2019/20	
Teacher assaulted by student punched twice	Traumatic tearing from muscle, avulsion	Shoulder	2019/20	
Fall at work, fell onto out stretch hand [§ 47(3)(b)] side	Trauma to joints/ligaments unspecified	Thumb	2019/20	
twisted at work dealing with a child	Neck pain, cervicalgia	Neck bones, muscles and tendons	2019/20	
Flexion injury at work, lanyard ??? and attached to keys and neck. Neck forcibly flexed by door	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
tripped on a chair and fell over	Hot burn	Abdomen - other and multiple	2019/20	
Spilled [§ 47(3)(b) - Contrary to Public] down lower body while eating lunch	Meniscus degenerate/detached/tear	Knee	2019/20	
running to catch a ball from student, stopped suddenly and felt a popping sensation in knee	Muscle/tendon strain (non-traumatic)	Shoulder	2019/20	
Opening door at work. Full thickness tear of the supraspinatus, subscapularis tendinopathy, bursitis	Post-traumatic stress disorder	Psychological system in general	2019/20	
consequence of lengthy investigation of sexual harassment of female student false accusation	Back pain, lumbago, sciatica	Lower back	2019/20	
I was using a student walking frame. I was reaching down performing a twist and pull movement to keep the student safe.				

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Scatched by student at work	Other diseases of skin not classified	Hand, fingers and thumb - other and mult	2019/20	s.47(3)(b) - Contrary to
Kicked in chest by child at school	Other fractures not elsewhere classified	Ribs	2019/20	
Post Physical Education class. Onset of knee pain ocured after sitting in homegroup class for 10minutes. Pain/decreased mobility started after this.	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Cutting up resources with a guillotine & I went to grab handle & my finger caught blade	Laceration not involving amputation	Fingers	2019/20	
Fell down stairs landed quite heavily on both knees	Joint/other articular cartilage, unclass	Knee	2019/20	
Tripped upstairs	Spinal vertebrae disease, unclassified	Lower back	2019/20	
Hoarseness due to work	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	
Hit with a s.47(3) ball	Contusion, bruising, superficial crush	Eye - other and multiple	2019/20	
Had accidental injury to eye with hard s.47(3)(b) - Contrary to ball directly in to eye at play ground yesterday around s.47(3)				
Walking towards next classroom and fell over.	Other fractures not elsewhere classified	Fingers	2019/20	
Child spat in her face	Exposure to substances, no injury/diseas	Unspecified locations	2019/20	
Fell over during HPE lesson on smooth concrete surface - struck head on the concrete, s.47(3)(b) - Contrary to	Trauma to muscles/tendon unspecified	Neck bones, muscles and tendons	2019/20	
Kicked by a student on her outer mid thigh whilst she was standing. She was also kicked in her s.47(3)(b) - Contrary to shoulder by the same student on s.47(3)(b) - Contrary to	Contusion, bruising, superficial crush	Upper leg	2019/20	
A piece of wood dropped on s.47(3)(b) - Contrary to toe	Other fractures not elsewhere classified	Toes	2019/20	
Repeated use of hands to mark/write reports, writing on boards etc. (especially final 2 weeks of each Term)	Carpal tunnel syndrome	Wrist	2019/20	
Demonstrating s.47(3)(b) - Contrary to game with Students - Student beside me pulled s.47(3)(b) - Contrary to down forcefully, causing sharp downwards pull to s.47(3)(b) - Contrary to shoulder	Tendinitis	Shoulder	2019/20	
Student scratched W's arm and kicked in s.47(3)(b) - Contrary to foot	Trauma to joints/ligaments unspecified	Foot	2019/20	
While doing playground duties, had to attend a group fight and got bumped from behind by a student.	Soft tissue due to trauma/unknown mech.	Hip	2019/20	
Walking across the epoxy floor walkway to the staffroom for a meeting with a colleague. Slipped on the floor - nothing visible on the floor or obstructing path. Ankle gave way and fell hard onto knees. Both hands went out to soften the fall. Teacher in a nearby classroom heard the fall and came immediately to my aide. Line manager was notified and ambulance was called.	Unspecified injuries	Ankle	2019/20	
Wheeling Library trolley to shelves - wheels locked and trolley tripped, fell forwards onto the trolley	Unspecified injuries	Neck - unspecified	2019/20	
Child pulled on claimants hair forcing head back hard.	Trauma to joints/ligaments not classifie	Neck bones, muscles and tendons	2019/20	
Climbing stairs at work, slipped on wet surface and fell.	Trauma to joints/ligaments unspecified	Ankle	2019/20	
running after a child who was escaping from the school	Soft tissue diseases due to non-traumati	Ankle	2019/20	
Alleged assault from student, kicked in the back of knee.	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Opening a bottle of soda water for a colleague, felt a jolt and pain in wrist	Trauma to muscles/tendon unspecified	Wrist	2019/20	
Severe stress secondary to behavioural issues of student at school, feels not enough action being taken and other student being affected	Anxiety/stress disorder	Psychological system in general	2019/20	
Chronic voice overuse exacerbated by stress induced reflux and viral infection.	Other diseases of respiratory system	Lung, trachea and bronchus	2019/20	
Raising voice too much	Other diseases of respiratory system	Lung, trachea and bronchus	2019/20	
Panic attack during class.	Anxiety/stress disorder	Psychological system in general	2019/20	
Preventing school fight	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
A student pushed me into another student and a door.	Frozen shoulder (adhesive capsulitis)	Shoulder	2019/20	
Patient was in the playground and heel of boot got stuck in a hole and fell forward onto s.47(3)(b) - Contrary to knee and both hands, subsequently rolled onto side and grazed s.47(3)(b) - Contrary to arm.	Superficial injury	Knee	2019/20	
Fall	Unspecified injuries	Ankle	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Was bitten by one of the [§ 47(2)(b)] student on the [§ 47(2)(b)] arm, I was on the Verandah of the class room. He snuggles into me and bit me.	Laceration not involving amputation	Forearm	2019/20	s.47(3)(b) - Contrary to Public Interest
I was interacting with a [§ 47(2)(b)] student, he sat down and followed to sit, put my [§ 47(2)(b)] hand out to stabilise myself and as I did that, I twisted on the hand as I sat down	Trauma to muscles/tendon unspecified	Hand	2019/20	
[§ 47(2)(b)] year old student raised his both arms wide and smashed patient on the both side of her head with great force.	Other diseases not elsewhere classified	Head - unspecified locations	2019/20	
Was helping to move an student forward into position to [§ 47(2)(b)]	Soft tissue due to trauma/unknown mech.	Unspecified locations	2019/20	
ankle inversion injury ditch in ground n leaving work grounds	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Bitten by a student in the [§ 47(2)(b)] forearm and another student smear with [§ 47(2)(b)] over the wounds and spit into	Laceration not involving amputation	Forearm	2019/20	
Assaulted by [§ 47(2)(b)] year old student. Student grabbed her hair and her glasses	Soft tissue due to trauma/unknown mech.	Neck bones, muscles and tendons	2019/20	
Was at a first aid course at school and she was performing the CPR training on the dummy. While kneeling down on the floor learning CPR	Soft tissue diseases due to non-traumati	Knee	2019/20	
Walking on uneven ground	Other fractures not elsewhere classified	Ankle	2019/20

tripped over a student at work who suddenly wrapped his leg around her ankle	Contusion, bruising, superficial crush	Knee	2019/20	
Assaulted by child at school	Unspecified injuries	Head - unspecified locations	2019/20	
Pulling down a roller door. Roller door was jarred so I had to hop up to grab it and then it still didn't come down which hyper extended my arm.	Epicondylitis	Elbow	2019/20	
I reported an incident last May about the [§ 47(3)(b) - Contrary to Public Interest] s.47(3)(b) - Contrary to Public Interest	Reaction to stressors - other, multiple	Psychological system in general	2018/19	
[§ 47(2)(b) - Contrary to Public Interest] I've had five sets of eyes on me for the last year.				
[§ 47(2)(b)] : Walking through front gate - pulled instead of pushed gate and rebounded back, striking head/ear	Laceration not involving amputation	Ear	2019/20	
Over a period of time of teaching and speaking with the class.	Other diseases of respiratory system	Mouth	2019/20	
Pulling high jump mats, metal slap caught hand on way down	Laceration not involving amputation	Hand	2019/20	
I was sitting at a table in the Prep classroom with a child who was playing with [§ 47(3)(b)]	Superficial injury	Eye - unspecified	2019/20	
[§ 47(3)(b) - Contrary to Public Interest] When he pulled two [§ 47(3)(b)] apart, the end of one of them hit me in the eye.				
Tripped going up steps to a meeting	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Misstep and fall at work	Unspecified injuries	Eye - unspecified	2019/20	
Just finished drop off and claimant turned and tripped over the footpath and injured her ankle and knee.	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Slipped and fell at work about [§ 47(2)(b)] today	Soft tissue diseases due to non-traumati	Hip	2019/20	
[§ 47(2)(b)] into eye GP removed [§ 47(3)(b)] from [§ 47(2)(b)] eye then became further inflamed, IW then admitted to [§ 47(2)(b)]	Other diseases of the eye	Eyeball	2019/20	
Slipped on something - on floor - in classroom	Other fractures not elsewhere classified	Knee	2019/20	
Child with [§ 47(3)(b) - Con] grabbed arm and bit [§ 47(2)(b)] hand, [§ 47(2)(b)] puncture wounds	Laceration not involving amputation	Hand	2019/20	
Hyperextension of [§ 47(2)(b)] arm when assisting child in seat on bus	Bursitis	Shoulder	2019/20	
Workload, conflict and executive decisions of school	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Patient tripped and fell onto concrete at work	Superficial injury	Knee	2019/20	
OPT use/projection of voice - particularly noisy class on [§ 47(2)(b)] requiring increase use of voice and onset of symptoms	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Student [redacted] years old, charged her, knocked her off her feet, oval ground, landed on [redacted] side Anxiety - facing child again	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	s.47(3)(b) - Contrary to P
Kneeling on cement and walking up steep hilly inclines to get to other classrooms	Joint/other articular cartilage, unspec.	Knee	2019/20	
Ongoing stress in dealing with disruptive students and most recently having to [redacted] student [redacted]	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Was teaching PE - had set up some games and kids were throwing [redacted] balls and a student threw the ball off to one side and he did not see it and it hit him in the head	Unspecified injuries	Head - unspecified locations	2019/20	
punched with closed fist by student on [redacted] temple/cheek bone area	Short term shock from disturbing situati	Psychological system in general	2019/20	
Student swung off neck	Soft tissue due to trauma/unknown mech.	Neck and trunk	2019/20	
Fell over on the school oval in the hole from the [redacted]	Soft tissue due to trauma/unknown mech.	Upper arm	2019/20	
[redacted] On Playground Duty on Main Oval, moving across oval to assist Students - walked through game of [redacted] and Student ran into me and knocked me over onto grass	Soft tissue due to trauma/unknown mech.	Unspecified locations	2019/20	
accidental fall at work today at [redacted] this morning and injured her [redacted] hand/wrist/neck, works as teacher and was climbing the staircase to go to her next classroom her toes caught the step when she tried to lift the foot up and fell on both hands - cervical radiculopathy	Soft tissue due to trauma/unknown mech.	Hand, fingers and thumb - unspecified	2019/20	
Slip on wet kitchen floor	Soft tissue due to trauma/unknown mech.	Upper leg	2019/20	
Trying to disperse fight at school and got punched in the face by a student	Unspecified injuries	Head - unspecified locations	2019/20	
mechanical fall on her face	Fractured skull and facial bones	Nose	2019/20	
Daily interactions at workplace - there have been numerous occasions especially since early [redacted] this year but has escalated within the last week, aggravated by recent text messaging from perpatrator [redacted] abusive meeting [redacted]	Anxiety/stress disorder	Psychological system in general	2019/20	
Student bite	Laceration not involving amputation	Chest - unspecified	2019/20	
Walking back to office and slipped on wet outdoor wooden verandah.	Other fractures not elsewhere classified	Ankle	2019/20	
Walking to classroom and rolled ankle of [redacted] on the ground.	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Stopping student getting into area they weren't suppose to	Superficial injury	Hand	2019/20	
picking up play equipment and one of the large walking planks fell and hit wrist	Trauma to joints/ligaments unspecified	Shoulder	2019/20	
a student pushing her hand	Trauma to muscles/tendon unspecified	Fingers	2019/20	
Aggressive student	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2019/20	
Over period of time during normal course of work	Occupational overuse syndrome	Wrist	2019/20	
Walking on footpath at Stop, Drop and Go point to guide cars - stepped on uneven ground and fell, rolling [redacted] ankle	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Had an incident at work with a student, student has gone home and told his Mother a [redacted] s.47(3)(b) - Contrary to Public Interest	Anxiety/stress disorder	Psychological system in general	2019/20	
[redacted] s.47(3)(b) - Contrary to Public Interest is suffering from intense stress and anxiety and feelings of being unsafe and fears for his safety.				
Involved in student alterations	Anxiety/stress disorder	Psychological system in general	2019/20	
Working with [redacted] Student - he became heightened and grabbed my face, scratching left side of face with fingernails	Laceration not involving amputation	Face	2019/20	
Shoe got caught in pull out tray of floor level photocopy machine and she fell landing on left side of her body.	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
Exacerbation marking and whiteboard use.	Unspecified injuries	Fingers	2019/20	
Hit by a [redacted] bat.	Meniscus degenerate/detached/tear	Knee	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
From final week of Term [s.47(2)(b)] we spent more time planning for online learning - seated for extended hours for 5 days straight, neck tilted down looking at laptop	Disc displacement, prolapse, hernia	Neck bones, muscles and tendons	2019/20	s.47(3)(b) - Contrary to
IW was on playground duty, watching boys playing cricket & some boys playing soccer, when one of the boys playing [s.47(2)(b)] collided with IW, causing IW to fall heavily. IW was not expecting it.	Unspecified injuries	Unspecified multiple locations	2019/20	
Fall down stairs - walking class down towards lesson. Lost footing and rolled ankle as fallen on the step.	Muscle/tendon strain (non-traumatic)	Ankle	2019/20	
Door kicked open and slammed into her toe.	Other fractures not elsewhere classified	Toes	2019/20	
Lifting up a desk	Other fractures not elsewhere classified	Fingers	2019/20	
Tripped over garden edging brick	Superficial injury	Ankle	2019/20	
Slip on debris (gravel & leaves)	Trauma to joints/ligaments unspecified	Ankle	2019/20	
bitten by student	Soft tissue due to trauma/unknown mech.	Thumb	2019/20	
Fingers got slammed in the window	Contusion, bruising, superficial crush	Fingers	2019/20	
girl jumped up onto shoulders	Soft tissue due to trauma/unknown mech.	Back - unspecified	2019/20	
Manoeuvring [s.47(2)(b)] and twisted the wrong way	Back pain, lumbago, sciatica	Back - unspecified	2019/20	
Fall downstairs	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Heightened Student barged through door unexpectedly - forcing me into other Students and into unusual body position	Trauma to muscles/tendon unspecified	Unspecified locations	2019/20	
Collision with object.	Soft tissue due to trauma/unknown mech.	Head - unspecified locations	2019/20	
[s.47(2)(b)] School: Seated down on chair at table to support Students - as I stood up, twisted and heard/felt crack in [s.47(2)(b)] knee	Trauma to joints/ligaments unspecified	Knee	2019/20	
Scratched by child on different occasions	Superficial injury	Forearm	2019/20	
Having difficulty managing large group of Students (approx. [s.47(2)(b)] before they go to class - don't feel as though Employer provided enough support (Worker had requested another Teacher to support)	Anxiety/stress disorder	Psychological system in general	2019/20	
?) I was going between classes and I missed a step walking down the concrete stairwell in [s.47(2)(b)] Block.	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Dont know, no specific injury, aware knee making a clunk sound on the [s.47(2)(b)] Then swelling occurred on [s.47(2)(b)]	Soft tissue diseases due to non-traumatic	Knee	2019/20	
Head Teacher who has supported [s.47(2)(b)] mental health at work has left that position	Anxiety/stress disorder	Psychological system in general	2019/20	
[s.47(2)(b)] Smaller Student was [s.47(2)(b)] across a mat - I reached with [s.47(2)(b)] arm to prevent her from slipping and felt sharp pain in [s.47(2)(b)] sided back area	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
fell forward while walking up stairs	Contusion, bruising, superficial crush	Knee	2019/20	
Exposure to epoxy resins - pre-existing sensitivity/allergy	Other and unspecified dermatitis	Unspecified locations	2019/20	
[s.47(2)(b)] did not specifically see the event however Students/Teachers have relayed information about what they witnessed causing aggravation of psychological injury.	Post-traumatic stress disorder	Psychological system in general	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Event 1  A student grabbed me with both hands around my neck and pressed his forehead to my forehead with a lot of pressure. I pushed his hands away and stepped away. As I was redirecting him he lunged forward and I dodged/redirected him.	Soft tissue due to trauma/unknown mech.	Neck bones, muscles and tendons	2019/20	s.47(3)(b) - Contrary to
Event 2  I was waiting with a student in the afterschool pick up area. I was standing between him and the other students. I had my back to him, he grabbed my hair and pulled my hair from behind.				
Event 3 - MVA on the way home from work There was a complex class situation, my emails asking for support were ignored. There s.47(3)(b) - Contrary to Public Interest	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
s.47(3)(b) - Contrary to P I was denied information to do my job properly as well as support requests and I requested several times to try and resolve it.				
orking under direction of student completeing cert s.47(3)(b) doing work out	Trauma to joints/ligaments unspecified	Shoulder	2019/20	
Pain in shoulder that got worse over week, got xray at hospital, strain of shoulder s.47(3)(b)				
Managing very unpredictable Student on one-on-one basis (physical and verbal abuse)	Anxiety/stress disorder	Psychological system in general	2019/20	
Hyperextension of back while lifting a heavy suitcase	Other specified soft tissue diseases,	Back - unspecified	2019/20	
Knocked over while supervising student	Soft tissue due to trauma/unknown mech.	Ankle	2019/20	
s.47(3)(b) - Contrary to Public Interest	Trauma to muscles/tendon unspecified	Neck and shoulder	2019/20	
to her. That student has fallen backwards onto me she has pushed my arm up and I was trying to hold my laptop up, she has hit my shoulder and my arm and also extended my arm up into an unusual position hurting my shoulder and neck area.				
pushed - 8kg object with bended back	Back pain, lumbago, sciatica	Lower back	2019/20	
s.47(3)(b) ball injury to finger	Other fractures not elsewhere classified	Fingers	2019/20	
s.47(3)(b) CA School: First 5 weeks of Term 2 - increased laptop work for online learning and use of thumb for keyboard/touch pad/mouse	Musculoskeletal/connect tissue unspecif.	Thumb	2019/20	
slipped and fell while chasing student who had run from classroom	Contusion, bruising, superficial crush	Ribs	2019/20	
was twisting and hurt the knee	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Fell over small chair at work - landed on both knees	Contusion, bruising, superficial crush	Knee	2019/20	
s.47(3)(b) - Walked out of s.47(3)(b) Block and along pathway - as I stepped off kerb, rolled ankle and fell forward onto chin onto road	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Worker was playing s.47(3)(b) grabbed the ball, went to turn and s.47(3)(b) t foot grabbed on court and Worker fell down.	Other fractures not elsewhere classified	Lower leg	2019/20	
s.47(3)(b) - Contrary to P jarring neck, back and right shoulder manual arts teacher	Soft tissue due to trauma/unknown mech.	Back - other and multiple	2019/20	
Assaulted by a student at school	Other fractures not elsewhere classified	Foot	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
kicked by a student on right thigh	Contusion, bruising, superficial crush	Upper leg	2019/20	s.47(3)(b) - Contrary to P
Significant noise exposure as a music teacher.	Deafness	Ear	2019/20	
Windy on oval, something blew into eye	Foreign body on external eye, ear, nose	Eyeball	2019/20	
[s.47(3)(b)] Primary: On Duty in Hall - struck by [s.47(3)(b)] to rear left hand side of head	Other intracranial injury, not specified	Brain	2019/20	
foot rolled over and fell from a hole in concrete and a hole in the lawn	Trauma to muscles/tendon unspecified	Foot	2019/20	
Slipped and my foot turned and I fell as I was walking.	Trauma to joints/ligaments unspecified	Ankle	2019/20	
playing at school with class students and fell outstretched [s.47(3)(b)] arm	Bursitis	Shoulder	2019/20	
laying out sports equipment	Back pain, lumbago, sciatica	Back - unspecified	2019/20	
Tripped over concrete cube seat (approx 70cm in dimensions) when turning to walk away from having spoken with students outside a classroom.	Unspecified injuries	Knee	2019/20	
Child collided with knee at school	Trauma to joints/ligaments unspecified	Knee	2019/20	
acute ongoing overuse injury	Unspecified injuries	Neck bones, muscles and tendons	2019/20	
Walking to car, walking down hill, slipped and leg went under worker, when stood up, fell again. Worker didn't think anything of it. [s.47(3)(b)]	Other fractures not elsewhere classified	Lower leg	2019/20	
[s.47(3)(b) - Contrary to Public Interest]				
yesterday. Dr has communicated with worker that leg is broken. Currently heading to [s.47(3)(b) - Cont] Hospital.				
ball vs finger	Dislocation	Fingers	2019/20	
[s.47(3)(b)] Repeated use/projection of voice to teach Students	Trauma to muscles/tendon unspecified	Neck bones, muscles and tendons	2019/20	
[s.47(3)(b)] hand grabbed and hyperextended by a student with a [s.47(3)(b)]	Other fractures not elsewhere classified	Wrist	2019/20	
The worker first noted the agitation of her previous injury at work in the middle of the school term. The worker advised that the tool she uses at work, [s.47(3)(b)] is not [s.47(3)(b) - Contrary to Public Interest]	Unspecified injuries	Neck - internal organs and glands	2019/20	
[s.47(3)(b) - Contrary to Public Interest] The worker advised that she would like to resolve her injury first off and then look at different apprentices she could use instead of the [s.47(3)(b)]				
Slipped on trolley	Dislocation	Shoulder	2019/20	
Tripped and fallen over student at the school whilst on the stairs. Grabbed and twisted student to get him out of harms way.	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Fell off rock wall landing on back.	Contusion, bruising, superficial crush	Back - unspecified	2019/20	
Looking after one on one student. As she got to bus, the student bolted for the gate. Child threw the backpack at her when running, and she tripped and fell.	Traumatic tearing from muscle, avulsion	Shoulder	2019/20	
Picking up a child off the ground w	Back pain, lumbago, sciatica	Lower back	2019/20	
Bending and lifting a child to relocated him to the grass as he was banging his head on the concrete ground and inflicting self injury.				
Prolonged exposure to bullying in the workplace. Directly through line manager and department.	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Tripped up stairs in [s.47(3)(b)] lock	Musculoskeletal/connect tissue unspecif.	Wrist	2019/20	
[s.47(3)(b)] Bullying by School Principal since [s.47(3)(b)] varying incidents, being called on for trivial matters, demeaning, berating in front of colleagues, obtrusive, questioning professionalism, threatening to demote among other threats)	Depression	Psychological system in general	2019/20	
Fell down and landed on the [s.47(3)(b)] elbow at work, causing pain and tingling sensation at the [s.47(3)(b)] forearm and hand.	Contusion, bruising, superficial crush	Elbow	2019/20	
I was walking down four stairs leading out of a demountable building and fell grazing both hands and knees and my [s.47(3)(b)] foot on the concrete. Back and [s.47(3)(b)] shoulder pain started the next day. Shoulder pain cleared up but back pain is worsening.	Back pain, lumbago, sciatica	Lower back	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Kneeling down to place witches hats on school oval for lunch time sporting activities.	Trauma to joints/ligaments unspecified	Knee	2019/20	s.47(3)(b) - Contrary to Public Interest
Lifting heavy equipment over the day repetitive overload	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
I reported anxiety about working with students without protective practises in place and was consequently forced to work in this environment over a period of 6 weeks. My	Anxiety/stress disorder	Psychological system in general	2019/20	
s.47(3)(b) - Contrary to Public Interest				
Injured the neck when she fell on a student at work, when she was escorting him to the classroom	Trauma to joints/ligaments unspecified	Neck bones, muscles and tendons	2019/20	
Bad ergonomics with working environment. Due to COVID had to work remotely as a teacher, believes the injury is from poor ergonomics (too small desk and lab stool provided by employer) and excessive sitting. She was provided better equipment (higher desk) but it was taken away for another teacher to use. Employer s.47(3)(b) said would organise ergonomics and medical assessment however they never did and IW believes that the failure in this has caused her injury.	Multiple injuries	Other specified multiple locations	2019/20	
False accusation made by co worker resulting unfair disciplinary action towards worker.	Anxiety/stress disorder	Psychological system in general	2019/20	
Bending over to set up equipment	Trauma to muscles/tendon unspecified	Lower back	2019/20	
Bullying at work	Post-traumatic stress disorder	Psychological system in general	2017/18	
General stresses of job, has been happening since I started as a Teacher - nothing specific, just realising what is involved in being a Teacher	Anxiety/stress disorder	Psychological system in general	2019/20	
A 10yo male student/child headbutted me unspecified	Fractured skull and facial bones	Nose	2019/20	
Sedentary for extended periods of time	Other diseases of respiratory system	Respiratory system in general	2020/21	
Usually as a HPE teacher is quite active throughout the day but with COVID teaching became all online and has created the neck pain. Attempted to correct by getting a new monitor etc	Disc displacement, prolapse, hernia	Back - other and multiple	2019/20	
Has caused further injury to the same	Neck pain, cervicalgia	Neck bones, muscles and tendons	2019/20	
Student purposely fell back onto her. She took his full weight	Soft tissue due to trauma/unknown mech.	Neck bones, muscles and tendons	2019/20	
Walking downhill and slipped on gravel.	Trauma to muscles	Upper leg	2019/20	
I had a student who was rolling around the floor & as i went to take a step to avoid stepping on him, he moved. When I stepped back I landed awkwardly on my foot.	Other fractures not elsewhere classified	Toes	2019/20	
loud voice in class	Other diseases of respiratory system	Respiratory system in general	2019/20	
supervising a student and the student took off and I ran after him at speed to stop him running away.	Trauma to muscles/tendon unspecified	Upper leg	2019/20	
Picking up paper off the desk and turned and sudden pain and could not get up. Ambulance called.	Back pain, lumbago, sciatica	Lower back	2020/21	
s.47(3)(b) Bullying/harassment from Teacher Aide	Anxiety/stress disorder	Psychological system in general	2020/21	
accidentally kicked/stubbed a heavy metal art drying trolley at work - instant pain right foot	Contusion, bruising, superficial crush	Foot	2019/20	
Hygiene process.	Laceration not involving amputation	Wrist	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
i was closing the shipping container and the finger was sliced.	Laceration not involving amputation	Fingers	2020/21	s.47(3)(b) - Contrary to F
Psychology - Always had some anxiety surrounding work but this year has escalated secondary to increasing expectations and accumulated stress	Anxiety/stress disorder	Psychological system in general	2019/20	
Repetitively using voice at work	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	
Workplace harassment and bullying from other staff	Anxiety/depression combined	Psychological system in general	2019/20	
child ran at her, pulled on [redacted] arm	Trauma to muscles/tendon unspecified	Shoulder	2019/20	
Over a period of time	Anxiety/stress disorder	Psychological system in general	2020/21	
fell	Laceration not involving amputation	Knee	2020/21	
[redacted] School: Went to sit on wheelie chair and chair rolled away - landed on bottom	Back pain, lumbago, sciatica	Lower back	2020/21	
[redacted] kid head knock to left ear	Soft tissue due to trauma/unknown mech.	Ear	2019/20	
Slipped on a rock path in [redacted] playground and fell onto outstretched hand	Other fractures not elsewhere classified	Wrist	2020/21	
She was caring for a [redacted] child who was distressed and happened to bit on her [redacted] forearm over her [redacted]	Laceration not involving amputation	Forearm	2020/21	
impact of foot on hard concrete path	Other fractures not elsewhere classified	Foot and toes - other and multiple	2019/20	
hand twisted by aggressive student also kicked in the knee by an aggressive student	Trauma to muscles/tendon unspecified	Hand	2020/21	
Repeated use of [redacted] hand. [redacted] works with children who have [redacted]	Ganglion, trigger finger, dupuytren's con	Thumb	2019/20	
[redacted] Sitting at Student desk in demountable classroom, as I shuffled to allow space for another Teacher, picked up student desk using my legs and shuffled to the right - as I twisted felt pinch in left side of [redacted] knee	Trauma to muscles/tendon unspecified	Knee	2019/20	
Failure of school to enforce social distancing re: Covid-19, anxious about working in a room with others when at increased risk by living with [redacted]	Anxiety/stress disorder	Psychological system in general	2020/21	
Repeated use of voice in teaching/projecting to classes of Students (from 2018 to present) - often teaching [redacted] in Hall and/or Oval	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	
[redacted] child forcibly gripped her forearm.	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
[redacted] School: On vinyl area in [redacted] - Student knocked [redacted] over and as we were cleaning, I slipped on slippery floor and fell forward onto [redacted] knee	Trauma to muscles/tendon not classified	Ankle	2020/21	
At [redacted] School, when she was bending to grab something, another student was running and hit her head (by his head	Contusion, bruising, superficial crush	Head - unspecified locations	2020/21	
Collision with a ball, finger was hyperextended.	Other fractures not elsewhere classified	Fingers	2019/20	
Knocked over by a student running past	Musculoskeletal/connect tissue unspecif.	Unspecified locations	2020/21	
Walking on concrete pathway, a small scaffolding plate was on walkway - caught toe on plate and fell forward, elbow caught on [redacted] rib	Contusion, bruising, superficial crush	Chest - unspecified	2020/21	
Pushed off from [redacted] leg during [redacted] game at school - pain ++ in [redacted] knee.	Tendinitis	Knee	2019/20	
Anxious and stressed following meeting held on [redacted]	Depression	Psychological system in general	2019/20	
walking to administration. Someone bumped into my back and i fell over playing [redacted]	Other fractures not elsewhere classified	Ribs	2020/21	
Slip on grass during lesson	Soft tissue due to trauma/unknown mech.	Wrist	2019/20	
Walking down the steps from walkway to [redacted] Building, heard and felt a pop in [redacted] calf area, pain unable to weight bear	Trauma to muscles/tendon unspecified	Hip	2020/21	
"I was trying to direct a child around me as they came towards me. I tried to direct the child to the right side of my body and this caused my [redacted] shoulder to be pushed in a way it shouldn't have gone. - it moved my arm and the whole arm twisted as a result of the movement. I can't recall if she was holding onto my arm"	Traumatic tearing from muscle, avulsion	Lower leg	2020/21	
work related	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
	Anxiety/stress disorder	Psychological system in general	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Fell down stairs and landed with leg and foot underneath - 3 stairs - landed on the landing	Other fractures not elsewhere classified	Ankle	2019/20	s.47(3)(b) - Contrary to F
Student ran into me and knocked me over	Soft tissue due to trauma/unknown mech.	Ankle	2020/21	
We were playing [redacted] during class and I was running after a student on the field and I've fallen over and landed hard on my [redacted] shoulder.	Traumatic tearing from muscle, avulsion	Shoulder	2020/21	
slipped on a banana skin	Trauma to joints/ligaments unspecified	Knee	2020/21	
Worker slipped on a piece of cardboard on the carpet in the classroom. Worker advised as they went to take a step off the cupboard their body twisted to the right side.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
I had a 16mm chisel on the middle of the bench so it would not fall off the bench and got distracted by some noise of kids on the other side of room, went to pick up my demo project and brushed the chisel with my hand	Laceration not involving amputation	Hand	2020/21	
Student bite him - during class, student had something taken off him got upset and went to grab another student by the shirt and he went in between and student bite him	Laceration not involving amputation	Forearm	2020/21	
One of the [redacted] students was having a meltdown and picking furniture up and flinging it around the room. Student turned toward Worker, called Worker a name and threw a chair directly at Worker. The chair landed on Workers [redacted] foot and Worker tried to step out of the way with [redacted] foot. Worker was in pain straight away. Worker felt pain in the [redacted] ankle the next day.	Contusion, bruising, superficial crush	Foot	2020/21	
Rotational force when picking up marking cone.	Trauma to muscles/tendon unspecified	Thumb	2019/20	
stepped into tennis ball size concrete hole, heel got struck, fell onto knees and [redacted] elbow and [redacted] hand.	Bursitis	Elbow	2019/20	
One of the students left their whiteboard on the floor when I was handing out some papers and I stood on it causing me to slip and fall twisting my [redacted] ankle and hurting my [redacted] shoulder.	Trauma to muscles	Shoulder	2019/20	
kicked by student/pulled arm	Trauma to muscles/tendon unspecified	Knee	2020/21	
Lifting a Student from the change bed to wheelchair using the hoist and the sling - Student began to shift out of chair and whilst supporting, injured lower back.	Trauma to muscles/tendon unspecified	Back - unspecified	2020/21	
Walking down steep grassed slope on Year [redacted] Oval - [redacted] ankle rolled outwards	Trauma to muscles/tendon unspecified	Foot	2019/20	
Voice use	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	
tripped on uneven pavers	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
[redacted] s.47(2)(b) - Contrary to Public Int: Assaulted by Student - grabbed by hair and head flung around	Trauma to joints/ligaments not classified	Neck bones, muscles and tendons	2020/21	
Work related stress	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Walking	Trauma to muscles/tendon unspecified	Ankle	2020/21	
[redacted] s.47(2)(b) : Working with Student [redacted] s.47(2)(b) - she became heightened and bit my right wrist with significant force	Laceration not involving amputation	Wrist	2020/21	
[redacted] s.47(2)(b) : Playing [redacted] s.47(2)(b) with Students - as I blocked a hit, another Student accidentally hit my [redacted] hand/index finger	Other fractures not elsewhere classified	Fingers	2019/20	
working at computer for long period	Disc displacement, prolapse, hernia	Lower back	2019/20	
incidence in workplace where she was subject to significant verbal abuse and aggression	Anxiety/stress disorder	Psychological system in general	2019/20	
Was hit closed fist to [redacted] ear by student .	Deafness	Ear	2020/21	
[redacted] s.47(2)(b) : Knee pain after fall at her work place	Trauma to joints/ligaments unspecified	Knee	2020/21	
Breaking up a fight between students, took a step back and tripped over another students foot and fell.	Soft tissue diseases due to non-traumatic	Foot	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
I was blue tacking up the daily program for the students outside the staff room behind the door. Another staff member has come out side pushing the door open. The wind has ripped the door out of her hand and then has slammed open onto my arm into my elbow and my hand hit the wall	Trauma to joints/ligaments unspecified	Wrist	2020/21	s.47(3)(b) - Contrary to
workplace stress	Depression	Psychological system in general	2019/20	
While supporting another student in the playground.	Soft tissue due to trauma/unknown mech.	Back - unspecified	2020/21	
Tripped over computer lead	Trauma to muscles/tendon unspecified	Trunk - unspecified locations	2020/21	
Heightened Student grabbed hair with both hands and pulled suddenly - pulled neck muscles.	Trauma to muscles/tendon unspecified	Neck bones, muscles and tendons	2020/21	
teaching [redacted] class, slipped on grass, put hand on ground and finger dislocated and fractured	Other fractures not elsewhere classified	Fingers	2020/21	
Fall onto [redacted] hand at work	Trauma to joints/ligaments unspecified	Hand	2020/21	
Rolled ankle and fell forward onto both hands while walking on path at [redacted] School	Trauma to joints/ligaments unspecified	Ankle	2019/20	
Twisted by child	Unspecified injuries	Fingers	2019/20	
Being hit by students who were fighting, injuring him at the [redacted] neck and [redacted] thumb	Contusion, bruising, superficial crush	Neck - other and multiple	2020/21	
Touching the volume control of wall mounted speakers that are attached to a digital projector.	Electrocution, shock, electric current	Other and multiple systemic conditions	2020/21	
walking on cement on playground duty, turned head while walking and fell over. unclear if mechanical fall or non mechanical fall	Other intracranial injury, not specified	Brain	2020/21	
Fall at work - supervising children and tripped on uneven concrete, landed off on [redacted] knee, stumped [redacted] great toe, general jarring of body	Back pain, lumbago, sciatica	Lower back	2020/21	
Tripped over a sliding door frame	Trauma to muscles/tendon unspecified	Knee	2020/21	
Standing at desk and picked up [redacted] (re: weight) - felt like I pulled a muscle in [redacted] forearm/elbow area	Tendinitis	Elbow	2020/21	
Fall backwards in playground at work.	Unspecified injuries	Shoulder	2020/21	
I was playing [redacted] with the kids	Other fractures not elsewhere classified	Fingers	2020/21	
Lifting boxes, books, desk drawers	Trauma to muscles/tendon unspecified	Lower back	2020/21	
I have a couple of kids with high anxiety. We needed to remove one of them from the classroom as he was having a meltdown. He was trying to get back into the room, he pulled me and then pushed me. As I was off balance from being pushed I stepped back awkwardly onto my [redacted] foot and felt a sharp pain in my lower [redacted] back	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
wet floor, inversion ankle injury	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Gradual onset	Trauma to muscles/tendon unspecified	Hand, fingers and thumb - other and mult	2019/20	
I had half the student books in my arms and I bent down to get the rest and I twisted in doing this and felt an acute pain in my back.	Back pain, lumbago, sciatica	Lower back	2020/21	
Slipped on greasy surface	Trauma to muscles/tendon unspecified	Upper leg	2020/21	
Scratched by student.	Superficial injury	Face	2020/21	
Assaulted by student	Other specified soft tissue diseases,	Upper back	2020/21	
Caught a bookcase at work which was falling with acute pain to the [redacted] shoulder	Trauma to joints/ligaments unspecified	Neck and shoulder	2020/21	
stepping off playground equipment and fell 60cm	Other fractures not elsewhere classified	Lower leg	2020/21	
Running after a student who was attempting to leave school grounds	Unspecified injuries	Knee	2020/21	
accidental fall at school	Other intracranial injury, not specified	Brain	2020/21	
Walking down stairs - fell onto concrete	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
Fell down stairs	Trauma to joints/ligaments unspecified	Knee	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
As I walked around corner to path, I missed seeing the small gradient concrete step and my foot turned over it. I fell forward onto my forehead	Trauma to joints/ligaments unspecified	Ankle	2020/21	s.47(3)(b) - Contrary to F
Student hit with a branch of a tree	Other diseases not elsewhere classified	Head - unspecified locations	2020/21	
Hurt [redacted] shoulder area while helping a boy - as getting him off [redacted] - he jumped onto [redacted] shoulder	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
OPT a period of time due to nature of job	Unspecified injuries	Unspecified locations	2019/20	
Playing [redacted]	Bursitis	Shoulder	2019/20	
Was participating in classroom activity and hurt knee.	Meniscus degenerate/detached/tear	Knee	2019/20	
While doing playground duties, I rolled ankle on un-even ground in the playground and felt crack in [redacted] ankle.	Trauma to muscles/tendon unspecified	Foot	2020/21	
Rushing between [redacted] between classes, and was going up the stairs and felt pain in her knee	Meniscus degenerate/detached/tear	Knee	2020/21	
Overuse of voice for teaching	Other diseases of respiratory system	Neck - internal organs and glands	2019/20	
I fell over playing [redacted] with the kids during the break (I was on playground duties)	Other fractures not elsewhere classified	Wrist	2020/21	
Stepped in a sprinkler hole on the school oval	Soft tissue due to trauma/unknown mech.	Back - unspecified	2020/21	
[redacted] forearm abscess.	Superficial injury	Forearm	2020/21	
Slipped on the wet floor at school, twisted his back and [redacted] ankle and [redacted] knee. standing up from a chair (low)	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	
[redacted]	Unspecified injuries	Knee	2020/21	
Gradual onset shoulder pain from physical interactions with [redacted] students at school	Other fractures not elsewhere classified	Fingers	2020/21	
Repeating pulling of both wrists by [redacted] year old Student - often forceful with tight grip	Tendinitis	Shoulder	2020/21	
Slipped down stairs	Trauma to muscles/tendon unspecified	Wrist	2020/21	
Pulling out school floor map out of shelf, and corner of map hit the [redacted] eye	Trauma to muscles/tendon unspecified	Ankle	2020/21	
Getting up from a table, getting out of a chair, leg fell asleep, started walking gave way and twisted - fell to the ground bruise to the knee	Superficial injury	Eye - unspecified	2020/21	
Student threw a plastic food container which hit [redacted] hand	Trauma to joints/ligaments unspecified	Foot	2020/21	
Walking through School Foyer and feet got caught up in tape attached to box - jarred back.	Soft tissue due to trauma/unknown mech.	Hand	2020/21	
	Unspecified injuries	Lower back	2020/21	
Had a fall at work, walking over a garden bed and fell and hit head on concrete wall and floor, raining and wet	Other intracranial injury, not specified	Brain	2020/21	
Student slammed a door onto his back	Contusion, bruising, superficial crush	Upper back	2020/21	
Walking towards area for playground duties, looking a head and tripped over protruding concrete edge.	Other fractures not elsewhere classified	Hand	2020/21	
lifting a puzzle and bending to support students	Trauma to joints/ligaments unspecified	Lower back	2020/21	
While playing music over period of time	Synovitis and tenosynovitis	Hand	2019/20	
Rolled over [redacted] ankle at school in class. Sprained injured ankle.	Other fractures not elsewhere classified	Ankle	2020/21	
Having notice of negative interactions with colleague with nil evidence of statements.	Anxiety/stress disorder	Psychological system in general	2020/21	
tripped over child at school landed on coccyx, elbow and wrist.	Contusion, bruising, superficial crush	Elbow	2020/21	
Work related stresses.	Anxiety/stress disorder	Psychological system in general	2019/20	
Feeling unsupported by administration with regard to management of behaviour and complaints by students				
Turned and put forward foot, pain heel, unable to weight bear	Soft tissue due to trauma/unknown mech.	Foot	2020/21	
I had positioned chair behind me and leaned over to assist a Student however as I went to sit back down, another Student had pulled chair to stack it - fell backwards onto floor	Osteopathies and chondropathies	Lower back	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Tripped and fell on outstretched hand	Trauma to joints/ligaments unspecified	Wrist	2020/21	s.47(3)(b) - Contrary to
Trying to separate two students fighting	Musculoskeletal/connect tissue unspecif.	Neck bones, muscles and tendons	2020/21	
At [redacted] Meeting at local park (instead of at school due to Covid) - when packing up, tripped on a toy and fell onto outstretched [redacted] hand	Other fractures not elsewhere classified	Elbow	2020/21	
Our staffroom doors open out to a walkway. I flung open the door with the my [redacted] arm and it hit a [redacted] that was coming past and when the door hit the [redacted] it swung back and hit my [redacted] elbow.	Soft tissue due to trauma/unknown mech.	Elbow	2020/21	
Burn to four fingers, caused by opening microwave meal.	Burns, unspecified	Fingers	2020/21	
Ankle inversion injury on [redacted] court on playground duties.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Student grabbed two handfuls of my hair and dropped his bodyweight - causing my neck/upper body to be pulled forward	Trauma to muscles/tendon unspecified	Neck and shoulder	2020/21	
Moving 28 desks	Epicondylitis	Elbow	2020/21	
"While I'm counselling a student who was crying, I stand up to pick up the phone as his mother was on the line; I tried to sit in the [redacted] ottoman but was out of balance and fell over on my bottom, hmy head and my [redacted] shoulder "	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Picked up a steel chair which caught the edge of a table - edge of the table dropped on [redacted] foot.	Soft tissue due to trauma/unknown mech.	Foot	2020/21	
[redacted] School: Supporting heightened Student - Student put his hands around me to pull me in and bit lower [redacted] side of face	Laceration not involving amputation	Face	2020/21	
Moving boxes and cleaning shelves (quite high) shoulder just had pain. As day went on teaching [redacted] it got worst. Went up ball and socket joint and into neck.	Trauma to muscles/tendon not classified	Shoulder	2020/21	
[redacted] ball kicked high velocity with blunt trauma to [redacted] side of the face.	Other intracranial injury, not specified	Brain	2020/21	
The claimant was standing on a chair in the classroom to put a poster back on the wall, she slipped from the chair and fell onto the floor, striking her head on the floor in the fall	Other intracranial injury, not specified	Brain	2020/21	
incident	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
Breaking up a fight with two students and fell	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Classroom got trashed. Recurrence of traumas that had occurred last year in [redacted] class.	Post-traumatic stress disorder	Psychological system in general	2020/21	
Accidental step down stairs, ankle sprain [redacted] - nil fall	Trauma to joints/ligaments unspecified	Ankle	2020/21	
While handling a student who was climbing a railing, experienced pulling force to right shoulder.	Musculoskeletal/connect tissue unspecif.	Shoulder	2020/21	
In a room with small group of Students and writing on large whiteboard (on table leaning against wall ) - turned around to check on Students as a Teacher came through the door and wind from door caused whiteboard to topple, striking my head and [redacted] shoulder	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2020/21	
Supervising heightened Student - I gave him his [redacted] and he pushed away, then crawled to me and bit [redacted] leg just above knee	Superficial injury	Upper leg	2020/21	
I tripped up some stairs in [redacted] block and I landed on my knees	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Employer response to incident in school grounds caused my injury	Anxiety/stress disorder	Psychological system in general	2020/21	
Putting up folding table and it was on its side and grabbed it to flip it and when it landed she felt pain in [redacted] side of neck. Woke up this morning with pain in both side, shoulder and stiff.	Trauma to muscles/tendon unspecified	Neck bones, muscles and tendons	2020/21	
Pushing wheelchair using hoist	Unspecified injuries	Foot	2020/21	
Slipped on footpath	Trauma to tendon	Ankle	2019/20	
going down double flight of stairs - close to bottom - not sure what happened - no obstruction - foot didn't go in the right spot and rolled /tumbled down the stairs - lucky close to the bottom and landed on back. [redacted] foot going down - sprain	Trauma to joints/ligaments unspecified	Ankle	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Trying to catch a child who had climbed onto the bench, child struggled and resulted in pushing elbow into door frame	Unspecified injuries	Elbow	2020/21	s.47(3)(b) - Contrary to P
s.47(3) training holding a s.47(3)(b). Student ran through and the impact of the player coming through and the contact has caused the injury. One of my teeth was knocked sideways.	Fractured skull and facial bones	Tooth	2017/18	
Worker was walking up the stairs at work and fell up them. The workers back progressively got worse over time.	Unspecified injuries	Lower back	2020/21	
Tripped over concrete building block - landed on concrete on s.47(3)(b) ribs and wrist.	Trauma to muscles/tendon unspecified	Chest - other and multiple	2020/21	
Worker walking down some stairs missed stepped the last two steps at the bottom of the steps causing worker to slip & fall down onto of her s.47(3)(b) ankle	Dislocation	Ankle	2020/21	
Incident with student who brought a replica gun to school and threatened other students. Gun was not known to be a replica at the time.	Anxiety/stress disorder	Psychological system in general	2020/21	
Planning time, sitting at desk on laptop doing some paperwork.Had a headache for a few days and then started to felt very dizzy at that moment, put my head down and passed out at my desk.	Diseases brain, spine, peripheral nervou	Unspecified locations	2020/21	
Exposure to Asbestos in the workplace	Exposure to substances, no injury/diseas	Unspecified locations	2020/21	
s.47(2)(v): Tripped on footpath - fell forwards onto hands	Other fractures not elsewhere classified	Hand	2020/21	
I was showing the class how to do a s.47(2)(v) class and as I did it I felt my knee lock.	Unspecified injuries	Knee	2020/21	
s.47(3)(b) foot got stuck in stairs, fell	Contusion, bruising, superficial crush	Foot	2020/21	
Walking across oval one at school and did not see a ditch in the grass	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Teachers, parents and students were engaged in a s.47(3)(b) - Con. When s.47(2)(v) s.47(3)(b) - Contrary to Public Interest	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
up. She was turning and looking at the student and then turned to start to run. As she turned she tripped and fell onto her left shoulder and arm. There was a loud crack heard.				
s.47(3)(b) - Contrary to Public Interest				
Stabbed in the eye with the blunt end of a pencil by a student	Contusion, bruising, superficial crush	Eye - unspecified	2020/21	
Running in a school race - teachers and students - went faster and fell	Other fractures not elsewhere classified	Shoulder	2020/21	
Walking along the veranda (staff room) and worker slipped and fell on her s.47(3)(b) elbow	Soft tissue due to trauma/unknown mech.	Elbow	2019/20	
Climbing the school fence as it as school holidays and locked - i needed to get into the school for resources. Foot got caught, body went over.	Dislocation	Shoulder	2020/21	
demonstrating exercise - fell onto outstretched hand	Trauma to muscles/tendon not classified	Wrist	2020/21	
a 2kg table corner dropped to her s.47(3)(b) foot, painful to walk and weight bearing	Contusion, bruising, superficial crush	Foot	2020/21	
Walking into bathroom, turned around and slipped on outdoor carpet-type flooring (had been raining) - impacted onto s.47(3)(b) knee	Joint/other articular cartilage, unclass	Knee	2019/20	
persistent behaviour of the school principle on various occasions, withholding information, unreasonable behaviour, unfair management	Reaction to stressors - other, multiple	Psychological system in general	2019/20

Trying to restrain one of two students fighting	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2020/21	
Kicked by student - One of kids at school ran/jump on her back and hip at school half an hour ago	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
opening jammed door into mouth	Fractured skull and facial bones	Tooth	2020/21	s.47(3)(b) - Contrary to
Slipping on the wet floor	Trauma to muscles/tendon unspecified	Knee	2019/20	
Leaning over arm rest of office chair to retrieve object off floor. Armrest pushed into rib, resulting in fracture.	Other fractures not elsewhere classified	Ribs	2020/21	
Pushed by child on shoulders from behind causing sudden onset of [redacted] lumbar back pain.	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Breaking up schoolyard fight - Student struck rib area with elbow	Soft tissue due to trauma/unknown mech.	Chest muscles	2020/21	
Supervising students digging a trench - slipped at edge of trench and took full weight on [redacted] leg	Musculoskeletal/connect tissue unspecif.	Pelvic bones, muscles and tendons	2020/21	
Turning on an amplifier, felt a shock	Electrical burn	Hand	2020/21	
a [redacted] hit me in the head	Other intracranial injury, not specified	Brain	2020/21	
Fall onto ground while sitting and missed the chair	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Fell down the stairs	Other fractures not elsewhere classified	Foot	2020/21	
Punched on [redacted] side head by a student, but a student, while he was referring a [redacted] game	Unspecified injuries	Head - unspecified locations	2020/21	
Strained while lifting a roller door on the sports shed	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
Student broke glass and she got injured in the process	Laceration not involving amputation	Fingers	2020/21	
I was walking up the steps to the toilets, the steps were wet. I was holding onto the rail but I slipped and my leg went out behind me.	Musculoskeletal/connect tissue unspecif.	Knee	2020/21	
Hoisting student to wheelchair	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Heightened Student was chasing me - slipped on mat and fell (injuring [redacted] elbow and both knees), Student grabbed my jumper and pulled me backwards (injured thumb)	Trauma to muscles/tendon unspecified	Neck and shoulder	2020/21	
Walking along pathway with Colleague - [redacted] foot became stuck in branch, causing fall onto [redacted] knee and shoulder	Tendinitis	Shoulder	2020/21	
Lack of support from peers when she was asking for help with physical tasks that were difficult for her due to the physical symptoms from the aggravation of her [redacted]	Anxiety/stress disorder	Psychological system in general	2019/20	
Sudden push or pull away of assisted child causing her to jerk her upper limb assaulted by a student at the college	Tendinitis	Shoulder	2019/20	
Jammed index finger in door.	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
Pushed by child on shoulders from behind causing sudden onset of [redacted] lumbar back pain	Contusion, bruising, superficial crush	Fingers	2020/21	
	Back pain, lumbago, sciatica	Lower back	2020/21	
Student wrapped arms around my legs causing me to fall face first onto the ground, this occupational violence has been occurring since the beginning of term causing significant stress, my psycho social functioning and cognition has been affected. [redacted] s.47(3)(b) - Contrary to Public Interest	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
Supervising a student	Occupational overuse syndrome	Knee	2020/21	
During recess, the worker going from the library to the admin room via a block, the worker tripped over at working falling into her outstretched [redacted] arm.	Unspecified injuries	Shoulder	2020/21	
Playground duty slid on clay.	Unspecified injuries	Knee	2019/20	
Student hit her thoracic spine with open palms on the [redacted] and punched the same region on the [redacted]	Back pain, lumbago, sciatica	Upper back	2020/21	
[redacted] School: Managing heightened Student with colleague and was attacked by Student - Student threw objects at us, pulled lanyard, slapping/punching to face and spitting	Trauma to muscles/tendon not classified	Upper arm	2020/21	
Fell Down Stairs injury to [redacted] Ankle	Trauma to muscles/tendon not classified	Foot	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
There was a shelf that used to be forward facing and was moved to the left where my desk is. A student came into the classroom wanting to some assistance and Ive stood up and just banged my shoulder on the shelf.	Contusion, bruising, superficial crush	Shoulder	2019/20	s.47(3)(b) - Contrary to F
I fell backwards over a child on a bitumen court	Back pain, lumbago, sciatica	Lower back	2020/21	
squatting to lift child at school with arms under child - child suddenly put all his weight onto patient's arms - further episode provoking low back pain a week later when child suddenly resisted being lifted from sitting position	Back pain, lumbago, sciatica	Lower back	2020/21	
From a public facebook post from a parent of a student in my class.	Anxiety/stress disorder	Psychological system in general	2019/20	
Fell on stairs	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Restraining a trespassing student on school grounds	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
Ladder fell when door opened	Contusion, bruising, superficial crush	Lower leg	2020/21	
Fell onto shoulder [redacted] but IW did actual fell.	Other fractures not elsewhere classified	Shoulder	2020/21	
Pretending to fall from tree [redacted] flopped from knee and landed on [redacted] body, breaking collar bone.				
sitting on stool at work - one of four legs gave way fell backwards hitting against metal bar	Unspecified injuries	Head and other	2020/21	
Shoulder charged by student	Trauma to joints/ligaments not classifie	Head and neck	2020/21	
Intervened in a fight between students, trying to separate them. I was struck by one of the students and this was witnessed by a significant portion of the school population	Post-traumatic stress disorder	Psychological system in general	2020/21	
Running on concrete to stop child running on road	Trauma to muscles/tendon unspecified	Hip	2020/21	
Slipped in school kitchen - rolled [redacted] ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Assaulted by student at school	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
During class, I was participating in a [redacted] game. I was jogging backwards and jumped to headbutt the ball, I landed with all of my bodyweight on my [redacted] ankle which rolled outwards.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Injured the finger while she was opening the cleaner gate at school	Laceration not involving amputation	Fingers	2020/21	
Sitting on carpet doing work with children and stood up and that is when my lower back went; more the [redacted] side	Back pain, lumbago, sciatica	Lower back	2019/20	
Accidentally knocked over by a student whilst on playground duty. Knocked backwards into drain pipe, fell onto edge of concrete slab	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Supporting a students with behaviour issues, he was trying to get ball which was trapped in a gutter down, he obtained another ball to knock the trapped ball down, as it was falling down, so it did not hit me I went to grab it, which forced my fingers backwards	Contusion, bruising, superficial crush	Fingers	2020/21	
[redacted] foot rolled off edge of footpath in school grounds	Contusion, bruising, superficial crush	Knee	2020/21	
Was walking down the stairs at school i took a big step but stairs was more shallow than anticipated, ankle landed the wrong way and she tumbled down the stairs	Other fractures not elsewhere classified	Ankle	2020/21	
Plywood fell on his head	Contusion, bruising, superficial crush	Head - unspecified locations	2020/21	
I was helping a training on Sunday at the sport centre. My shoes gripped the floor and made me tripped. I fell on the wrist.	Other fractures not elsewhere classified	Wrist	2020/21	
Child unexpectedly hung on her neck from behind while she was tying shoelaces	Trauma to muscles/tendon unspecified	Neck bones, muscles and tendons	2020/21	
Someone threw an apple on his neck at playground	Contusion, bruising, superficial crush	Neck - unspecified	2020/21	
Student pushed gate open with force - causing jolt to [redacted] arm	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2020/21	
twisted [redacted] ankle on an uneven concrete floor when she was on playground duties at work	Other fractures not elsewhere classified	Ankle	2020/21	
works as a [redacted] teacher and the children often bite and scratch her and jump on her back	Laceration not involving amputation	Unspecified multiple locations	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Fell and twisted ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	s.47(3)(b) - Contrary to P
walked out of room slipped over slippery mat	Back pain, lumbago, sciatica	Lower back	2020/21	
I was just walking on flat ground, with flat shoes and tripped over a [redacted] that I was carrying, so fell to ground and landed with all my weight on [redacted] hand, fingers were outstretched	Other fractures not elsewhere classified	Fingers	2020/21	
Fell off school practice [redacted]	Other fractures not elsewhere classified	Wrist	2020/21	
A [redacted] ball kick to the head	Unspecified injuries	Head - unspecified locations	2020/21	
Broke up fight at school year [redacted] and [redacted] students. [redacted] arm bung back?	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
I was pushing a piece of lumber through a panel saw and slipped, cutting my arm	Laceration not involving amputation	Forearm	2020/21	
Standing and bent over to pick up crayon from floor - felt immediate intense pain lower back	Disc displacement, prolapse, hernia	Lower back	2020/21	
[redacted] client headbutted and scratched pt attacked lasted 15mins	Multiple injuries	Other specified multiple locations	2019/20	
Trying to break up Student Fight - was kicked multiple times to [redacted] knee	Trauma to muscles/tendon unspecified	Knee	2020/21	
Psychological - under investigation.	Anxiety/stress disorder	Psychological system in general	2019/20	
Walking back from library over concrete bridge over creek, foot went from underneath, inverted and landed on ground	Other fractures not elsewhere classified	Foot	2020/21	
Lifted a plastic chair off stack of chairs to put under a desk and my arm has given way - [redacted] arm pain around elbow.	Soft tissue diseases due to non-traumat	Upper arm	2020/21	
Repeated twisting/turning of the knee to demonstrate [redacted] activity	Meniscus degenerate/detached/tear	Knee	2020/21	
Student who punched her was returned to school after [redacted] - when the decision was overturned	Post-traumatic stress disorder	Psychological system in general	2020/21	
Student kicked her in the face	Unspecified injuries	Face	2020/21	
stressful workplace, physical abuse from [redacted] student, violent students, leadership team is toxic- a formal complaint in place	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
The worker was assisting a student to transition to chair.	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Kicked by a student to [redacted] knee when she was working at [redacted] School	Trauma to joints/ligaments unspecified	Knee	2020/21	
Punched in the [redacted] wrist by a student whilst trying to stop them hitting each other	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Hit by a kicked ball	Contusion, bruising, superficial crush	Head and neck	2020/21	
student sat on a chair with leg on my foot	Soft tissue due to trauma/unknown mech.	Foot	2020/21	
twisting around to grab stuff for the children	Trauma to joints/ligaments unspecified	Lower back	2020/21	
[redacted] Y/O boy with [redacted] attacked her at [redacted] class	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
A child who was attempting to leave the school grounds outside my classroom which backs [redacted] was intercepted by myself at the gate but as he attempted for a second time to get outside the gate and run, I stepped, turned and twisted my body to intercept him, lunging to the left to block the gate entry/exit and felt a sharp seizing/strain pain up the front of the knee area, around the knee cap and also behind the knee and surrounding muscle areas. This caused it to feel like it had locked up and although no immediate restriction from walking I was unable to walk normally for around half an hour. After that I could limp to move around but there was a muscle/knee area pain. This progressively got worse over the next 5 days.	Musculoskeletal/connect tissue unspecif.	Knee	2020/21	
moving whiteboard trolley	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
tripped over chair fell	Trauma to muscles/tendon unspecified	Lower back	2020/21	
Student pulled on arm	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
workplace bullying	Anxiety/stress disorder	Psychological system in general	2019/20	
Inhalation of chemical hazard	Other diseases of respiratory system	Lung, trachea and bronchus	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
whilst holding a student's hand, he flung his arm backwards and caused pain to my arm	Trauma to muscles/tendon unspecified	Elbow	2020/21	s.47(3)(b) - Contrary to P
Tripped over whilst escorting a class outside for a fire drill.	Laceration not involving amputation	Face	2020/21	
Patient had a fall at work two days ago.	Other fractures not elsewhere classified	Wrist	2020/21	
Lifting child sized couch	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
School Photo Day, transitioned class from Classroom to Undercover Area - one Child became agitated and went to bite me, I managed to guide him away however he grabbed my hand and pulled [redacted] thumb backwards	Trauma to joints/ligaments unspecified	Thumb	2020/21	
Over the last [redacted] months I have been facing verbal assault and threats in the work place. I [redacted] s.47(3)(b) - Contrary to Public Interest	Post-traumatic stress disorder	Psychological system in general	2020/21	
I then took any position that was available and moved my family to [redacted] s.47(3)(b) - Contra				
Where I was constantly bitten, assaulted, verbally abused by parents and students. A student said [redacted] s.47(3)(b) - Contrary to Public Interest				
[redacted] s.47(3)(b) from a colleague.				
There was a complete lack of communication between myself and both schools.				
Difficult work day [redacted] have had multiple new Students join class recently and having difficulty managing Students and Parents	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
A student threw their school bag over the 1st floor stair railing hitting [redacted] s.47(3) as she walked up the stairs, on the back of the head knocking her head forward and down	Soft tissue diseases due to non-traumat	Other specified multiple locations	2020/21	
Fell over an object on concrete path	Other fractures not elsewhere classified	Fingers	2020/21	
Walking out of a class, tripped on a chair and fell onto left knee	Trauma to joints/ligaments unspecified	Knee	2020/21	
Attacked by Student - pushed and pulled, causing twist to [redacted] s.47 foot during the incident.	Synovitis and tenosyovitis	Ankle	2020/21	
Student threw a chair at the ankle helping student off the bike push	Unspecified injuries	Ankle	2020/21	
Student with [redacted] s.47(3)(b) became heightened (swore at me, disobeyed direction), Student left classroom and myself and Carer followed - Student struck my [redacted] s.47 arm and kicked my [redacted] s.47 leg	Contusion, bruising, superficial crush	Foot	2020/21	
RUNNING DURING SPORTS TRAINING SESSION WITH STUDENTS	Soft tissue due to trauma/unknown mech.	Forearm	2020/21	
Restrained a student from behind, student kept moving	Soft tissue due to trauma/unknown mech.	Upper leg	2020/21	
assaulted by a student	Trauma to joints/ligaments unspecified	Upper back	2020/21	
assaulted by one of the student	Soft tissue due to trauma/unknown mech.	Face	2020/21	
was pushed, bitten, pushed, punched by an [redacted] s.47(3) student	Soft tissue diseases due to non-traumat	Head - multiple locations	2020/21	
[redacted] s.47(3)(b) - Contrary to P The cleaner had moved a heavy work bench to the side to clean and when I came in and opened the roller door, the door caught the heavy bench raising it in the air. I was grabbing the bench to stop it moving further and a [redacted] s.47(3)(b) lacerated my finger.	Soft tissue due to trauma/unknown mech.	Unspecified multiple locations	2020/21	
It was in a [redacted] s.47(3)(b) - Co class student had accidentally pulled the plug out off the power cord from the ceiling plug and hit me at high speed at the back of the head.	Laceration not involving amputation	Fingers	2020/21	
Multiple physical attacks by a Student - significant event [redacted] s.47 in which was physically struck by heightened Student	Other intracranial injury, not specified	Brain	2020/21	
	Soft tissue due to trauma/unknown mech.	Upper limb - multiple locations	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
He injured his [redacted] shoulder at work as a primary school teacher when a student became violent. His hands were caught in a door when this student shoulder charged him while he was holding door. He was had a previous injury to the [redacted] s.47(3)(b) - Contrary to Public Interest He continued to work but has trouble lifting objects with the arm abducted. He has aggravated a [redacted] s.47(3)(b) - Contrary to Public Interest	Tendinitis	Shoulder	2020/21	s.47(3)(b) - Contrary to Public Interest
Playing with some of the boys on rewards time. Stuck arm out, and one of the kids has ran and hit [redacted] arm, twisting it backwards.	Traumatic tearing from muscle, avulsion	Shoulder	2020/21	
Fell down steps at work	Trauma to muscles/tendon unspecified	Knee	2020/21	
Student sprayed deodorant/perfume in classroom - I inhaled this and this exacerbated my asthma	Asthma	Lung, trachea and bronchus	2020/21	
Slip on wet pebblecrete inclined surface during play ground duty	Other fractures not elsewhere classified	Lower leg	2020/21	
Chisel injury	Injuries to nerves and spinal cord	Fingers	2020/21	
While walking to a class tripped on a raised pathway.	Soft tissue diseases due to non-traumatic	Neck and shoulder	2020/21	
Pupil tossed [redacted] s.47(3)(b) which landed on her [redacted] s.47(3)(b) side skull	Trauma to joints/ligaments unspecified	Neck bones, muscles and tendons	2020/21	
A child jumped on me from a high platform.	Trauma to muscles/tendon not classified	Shoulder	2020/21	
Child was heavy and caused soft tissue damage.				
Trying to avoid a collision with a student	Trauma to muscles/tendon unspecified	Neck and shoulder	2020/21	
Told to go home by principal	Anxiety/stress disorder	Psychological system in general	2020/21	
Head butted on [redacted] arm	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
FOOSH tripping over child	Other fractures not elsewhere classified	Wrist	2020/21	
s.47(3)(b) - Contrary to Public Interest	Traumatic tearing from muscle, avulsion	Shoulder	2020/21	
would stop. While holding onto the bag I was wrenched and I felt immediate pain in my R shoulder and so I let go of the bag as I was hurt. [redacted] s.47(3)(b) - Contrary to Public Interest came and pulled them apart.				
Worker was in a [redacted] s.47(3)(b) - C and about to take a [redacted] s.47(3)(b) class of [redacted] s.47(3)(b) Worker picked up literacy box off a shelf and the shelf fell off the bookshelf and landed edge side down on Workers left foot.	Soft tissue due to trauma/unknown mech.	Foot	2020/21	
Stress at work - forced to teach [redacted] s.47(3)(b) - a subject he never taught before. This stress exac. by harassment by a pupil who rubbed his head for a few seconds on Thursday [redacted] s.47(3)(b)	Depression	Psychological system in general	2019/20	
In playground in afternoon, student fell backwards off of play equipment, I caught him in my arms so he didnt hit the ground, as I caught him I knew straight away I knew that I had hurt my lower back and possibly both shoulders.	Unspecified injuries	Lower back	2020/21	
While waking to the stairs - stumbled and tripped	Other fractures not elsewhere classified	Wrist	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
<p>§ 47(2)(b) : Walked into gated § 47(2)(b) and a Student was assaulting his Teacher - I leaned over and unlocked a gate so that the Teacher could exit but as I leaned over - Student became more heightened and was punching, hitting, kicking, pinching me repeatedly all over my body.</p> <p>§ 47(2)(b) - Contrary to Public Interest Walking in Classroom - tripped over laptop cord and fell forward</p> <p>The worker tripped down 4 concrete stairs, workers arms were full with a § 47(3)(b) - § 47(3)(b) - Contrary to Public Interest and in her left hand was holding laptop, the worker fell forward and her § 47(3)(b) cheekbone hit into the side of the hard wooden door, the worker twisted slightly, hurting her § 47(3)(b) ankle and collapsed onto her knees and impacted both shins, and § 47(3)(b) knuckles on her hand and due to the jerking motion, injured her back and neck. The worker was feeling dizzy and disorientated after the fall.</p> <p>Stress and feels bullied by his Deputy Principal § 47(2)(b)</p> <p>I have been experiencing bullying and harassment from § 47(2)(b) since the teaching year began. I first saw the Doctor with this problem on the § 47(2)(b) Case. The Doctor § 47(3)(b) - Contrary to Public Interest</p> <p>Finally I went to see my psychiatrist who confirmed that I was suffering major depression, severe anxiety and PTSD from a § 47(3)(b) - Contrary to Public Interest § 47(3)(b) - Contrary to Public Interest</p> <p>standing up from a sitting on the floor position while in classroom</p> <p>Missed a step and fell</p> <p>Poor behaviour of the children causing anxiety, stress and one injury</p> <p>worker was on a class excursion - walking along a footpath - fell in pothole and twisted ankle</p> <p>slip and fall</p> <p>Accidental fall - tripped on path</p> <p>Fall on slippery concrete closing block § 47(2)(b) external doors during a practice drill lock down</p> <p>lack of support, stress at work</p> <p>heating food in microwave and microwave exploded</p> <p>Caught a boy who fell backwards during a seizure</p> <p>Whilst on Playground Duty, overseeing Students playing § 47(2)(b) Student hit § 47(2)(b) ball which struck right side of face/eye area.</p> <p>Was hit by a § 47(2)(b) ball while doing playground duties at school. Student accidentally kicked ball and it hit her - lack of support from school after this event occurred - No psychical support after being hit by ball - not enough staff there to help her and students could not be left unsupervised.</p> <p>Initial incident was where student tried to stab Worker with a knife. Since then there have been multiple interactions with student pushing,shoving and throwing items being physically violent and verbally abusive to Worker. Most recent incident occurred on § 47(2)(b) § 47(3)(b) - Contrary to Public Interest</p> <p>Assaulted by Student - Child kicked ball which struck right ribs, threw school bag injuring § 47(2)(b) finger, multiple kicks and pushes.</p>	<p>Soft tissue due to trauma/unknown mech.</p> <p>Soft tissue due to trauma/unknown mech.</p> <p>Unspecified injuries</p> <p>Anxiety/stress disorder</p> <p>Anxiety/stress disorder</p> <p>Soft tissue due to trauma/unknown mech.</p> <p>Soft tissue due to trauma/unknown mech.</p> <p>Reaction to stressors - other, multiple</p> <p>Trauma to joints/ligaments unspecified</p> <p>Soft tissue diseases due to non-traumati</p> <p>Soft tissue due to trauma/unknown mech.</p> <p>Trauma to joints/ligaments unspecified</p> <p>Reaction to stressors - other, multiple</p> <p>Burns, unspecified</p> <p>Musculoskeletal/connect tissue unspecif.</p> <p>Unspecified injuries</p> <p>Mental diseases, unspecified</p> <p>Reaction to stressors - other, multiple</p> <p>Soft tissue due to trauma/unknown mech.</p>	<p>Unspecified multiple locations</p> <p>Back - unspecified</p> <p>Face</p> <p>Psychological system in general</p> <p>Psychological system in general</p> <p>Knee</p> <p>Neck bones, muscles and tendons</p> <p>Psychological system in general</p> <p>Ankle</p> <p>Ankle</p> <p>Wrist</p> <p>Knee</p> <p>Psychological system in general</p> <p>Hand</p> <p>Neck and shoulder</p> <p>Face</p> <p>Psychological system in general</p> <p>Psychological system in general</p> <p>Fingers</p>	<p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2019/20</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2020/21</p> <p>2019/20</p> <p>2020/21</p>	<p>§ 47(3)(b) - Contrary to Public Interest</p>

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Punched by student	Soft tissue due to trauma/unknown mech.	Ribs	2020/21	s.47(3)(b) - Contrary to F
Slipped on a mandarine peel	Other fractures not elsewhere classified	Wrist	2020/21	
Bullying at work and being disrespected by staff members since beginning of the year. Had a clash with a staff member [redacted] in front of a student which made his symptoms much worse	Reaction to stressors - other, multiple	Psychological system in general	2019/20

Walking over dirt track while supervising students.	Trauma to joints/ligaments unspecified	Knee	2020/21	
Was attacked by a student and her head and her hands at work	Soft tissue due to trauma/unknown mech.	Head - unspecified locations	2020/21	
Running with students at school, sudden onset [redacted] calf pain, heard 'pop' at the time.	Traumatic tearing from muscle, avulsion	Lower leg	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Trip on loose nail and fall down 3-4 steps accumulation over a period of years - staffroom environment	Soft tissue due to trauma/unknown mech.	Knee	2020/21	s.47(3)(b) - Contrary to
Fell down steps	Depression	Psychological system in general	2020/21	
Fall at work	Trauma to joints/ligaments unspecified	Knee	2020/21	
Lifting, moving a student table	Unspecified injuries	Back - unspecified	2020/21	
Slipped/overstepped on stairs	Back pain, lumbago, sciatica	Lower back	2020/21	
student slammed door while hand was on door frame	Musculoskeletal/connect tissue unspecif.	Knee	2020/21	
Student threw a bottle at shed, he was inside, felt like and explosion.	Soft tissue due to trauma/unknown mech.	Fingers	2020/21	
student's knee hit s.47(2)(b) calf while doing s.47 at school	Traumatic deafness from air pressure	Ear	2020/21	
Impact by student on tricycle.	Contusion, bruising, superficial crush	Lower leg	2020/21	
trying to retrieve decoration/art work and got hook penetrating to s.47 thumb - attended s.47(3)(b) - Contrary for removal under anaesthetic,post removal antibiotic prophylaxis for 5 days & tetanus booster	Muscle/tendon strain (non-traumatic)	Ankle	2020/21	
Whilst on school camp, and helping to support a s.47(2)(b) student on a bushwalk, she slipped and fell to the ground causing?	Laceration not involving amputation	Thumb	2020/21	
Supporting heightened Student - attempted to stop him escaping and bent s.47(2)(b) finger back	Superficial injury	Other specified multiple locations	2020/21	
Rolled ankle on uneven ground and fell and in process hurt s.47 ankle.	Soft tissue due to trauma/unknown mech.	Fingers	2020/21	
MVA, car pulled out across path and was hit	Trauma to joints/ligaments unspecified	Ankle	2020/21	
s.47(3)(b) HIT HER ON THE HEAD	Trauma to joints/ligaments not classifie	Unspecified locations	2020/21	
A large s.47 high school male student was pushed from behind by another student, directly into me as I was walking along the path from the classroom back to the staffroom.	Contusion, bruising, superficial crush	Head - unspecified locations	2020/21	
Worker s.47(3)(b) - Contrary girl, the worker was chasing the s.47(2)(b) child and fell over whilst chasing and fell on her s.47 side.	Meniscus degenerate/detached/tear	Knee	2020/21	
Backwards onto her bottom then hit back of head against bookshelf	Trauma to tendon	Shoulder	2020/21	
I was assisting a student s.47(2)(b) coming down the hill from the senior campus to the primary campus. I had to strain my arm to hold the s.47(3)(b)	Unspecified injuries	Lower back	2020/21	
Hit on the head - Rail off a storage rack he was dismantling, (locking pins weren't in the top rail) and it came loose and fell down and hit his head. Kept working, then realised that blood was dripping down his neck.	Not known	Elbow	2020/21	
Walking back to office after teaching - astro turf - new - foot rolled off the concrete to where grass meets the grass - pulled knee back to stop fall	Laceration not involving amputation	Head and other	2020/21	
A small child was hugging her, then jumped up and child's head collided with the underside of patient's lower jaw	Meniscus degenerate/detached/tear	Knee	2020/21	
Struck in s.47 eye with laminated piece of paper	Soft tissue due to trauma/unknown mech.	Mouth	2020/21	
Attempting to open a door	Laceration not involving amputation	Eyeball	2020/21	
I was on a raised floor platform & turned to walk away when I stepped down twisting my ankle	Trauma to muscles/tendon not classified	Shoulder	2020/21	
wrist got stuck in backpack pulled	Trauma to joints/ligaments unspecified	Ankle	2020/21	
fall over rubberised s.47(2) in children's play area	Synovitis and tenosynovitis	Wrist	2020/21	
Restraining a heightened student and injured back and s.47 foot	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
I was attacked by a student and put in a headlock in the admin/front foyer of the school.	Back pain, lumbago, sciatica	Lower back	2020/21	
Sitting on ground on student (s.47 student) jumped on her neck and back	Unspecified injuries	Neck - unspecified	2020/21	
prolonged work in same position doing marking and computer work	Musculoskeletal/connect tissue unspecif.	Neck and shoulder	2020/21	
Whilst s.47(3) to prepare for a lesson worker has forgot to take s.47(2)(b) - Contrary	Disc displacement, prolapse, hernia	Lower back	2020/21	
s.47(3)(b) - Contrary needle has gone through her finger	Laceration not involving amputation	Fingers	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Cut finger on glass that a student had picked up and tried to get off the student and cut finger on the glass	Laceration not involving amputation	Fingers	2020/21	s.47(3)(b) - Contrary to P
Verbal abused by colleague in front of everyone	Anxiety/stress disorder	Psychological system in general	2020/21	
Pt was climbing stairs and tripped over, avoided fall but hurt her neck and upper back	Trauma to joints/ligaments not classified	Head and neck	2020/21	
Micro stress fracture in [redacted] foot. Tripped over a wheely whiteboard in the classroom resulting in a full fracture and unable to weight bear.	Other fractures not elsewhere classified	Foot	2020/21	
tripped over desk leg	Contusion, bruising, superficial crush	Knee	2020/21	
Walking downstairs	Unspecified injuries	Knee	2020/21	
Foot caught in door, fell on [redacted] side.	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
fall down stairs at work	Soft tissue due to trauma/unknown mech.	Ankle	2020/21	
punched by a student in the neck	Soft tissue due to trauma/unknown mech.	Neck and trunk	2020/21	
Dealing with poor student behaviour and unsafe behaviours of students over an extended period of time.	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
Fall from standing height while walking on footpath.	Meniscus degenerate/detached/tear	Knee	2020/21	
Child jerkes head up and hit me in the jaw.	Soft tissue due to trauma/unknown mech.	Neck bones, muscles and tendons	2020/21	
Demonstrating an [redacted]	Meniscus degenerate/detached/tear	Knee	2020/21	
Changing a [redacted] - he was standing and while assisting he lost his balance and he was standing over her and used her body to re balance himself - [redacted]	Musculoskeletal/connect tissue unspecif.	Lower back	2020/21	
multiple events at school [redacted] at school mental health issues in students advised by school to put in workcover claim	Anxiety/depression combined	Psychological system in general	2020/21	
Doing CPR Training	Trauma to muscles/tendon unspecified	Elbow	2020/21	
student scratched arm with his finger nails, then it got infected - it happened in a walkway after school had ended	Laceration not involving amputation	Wrist	2020/21	
IW was sliding a bucket of water on the ground & her back went.	Fracture of vertebral column	Lower back	2020/21	
Pain just above ulna styloid of [redacted] wrist from doing light work at school	Trauma to joints/ligaments unspecified	Wrist	2020/21	
Was standing helping an activity and student came and jumped on back [redacted] side of her.	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Had a fall on extended [redacted] wrist	Trauma to joints/ligaments unspecified	Wrist	2020/21	
Was demonstrating stop, drop and roll to children and when doing the drop part she felt pain and heard pop in [redacted] ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Overuse of voice.	Effects of weather etc no classified	Other specified multiple locations	2020/21	
Due to bully at work	Anxiety/stress disorder	Psychological system in general	2019/20	
Stepped onto end of a path and knee folded underneath him causing injury.	Meniscus degenerate/detached/tear	Knee	2018/19

Accidentally bumped on [redacted] toe by a child	Contusion, bruising, superficial crush	Knee	2020/21	
closing a door someone else forcefully opened it from the other side	Contusion, bruising, superficial crush	Toes	2020/21	
I was walking with head down, looked to the [redacted] left and hit my head on pole [redacted] - see [redacted] comments	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
There was an incident in grade [redacted] classroom of violent students starting a fight so I went to intervene. A student through a [redacted] and it smashed and a piece of it went into my eye	Soft tissue due to trauma/unknown mech.	Face	2020/21	
Student ran a [redacted] over her	Anxiety/stress disorder	Psychological system in general	2020/21	
Slipped on metal grate landing directly onto [redacted] knee.	Foreign body on external eye, ear, nose	Eyeball	2020/21	
Going up and down stairs and squatting at school	Contusion, bruising, superficial crush	Foot	2020/21	
[redacted] ball it left face in school grounds	Contusion, bruising, superficial crush	Knee	2020/21	
Work demands and lack of role description	Meniscus degenerate/detached/tear	Knee	2020/21	
sleeping in uncomfortable bed combined with daily activities [redacted]	Soft tissue due to trauma/unknown mech.	Face	2020/21	
Walking outside and stepped down a curbing, fell to the ground ? Rolled ankle put arms out to stop from falling	Reaction to stressors - other, multiple	Psychological system in general	2019/20	
Injury to [redacted] ankle and back. Tripped on a chair and fell backwards.	Trauma to joints/ligaments unspecified	Unspecified locations	2020/21	
While on playground duty	Other fractures not elsewhere classified	Elbow	2020/21	
Was punched in the jaw by a [redacted] child - experienced also hitting, punching and items thrown at her	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
Roller playing [redacted]	Contusion, bruising, superficial crush	Other specified multiple locations	2020/21	
bitten by child at work	Post-traumatic stress disorder	Psychological system in general	2020/21	
Suffering from PTSD due to events that happened [redacted] a student punched me in the stomach like an upper cut.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
I was working in the class room, and tripped or slipped and fell backwards onto a school desk striking my back.	Laceration not involving amputation	Forearm	2020/21	
Threats from a Student who is connected to a local 'gang' - QPS involved	Post-traumatic stress disorder	Psychological system in general	2018/19	
Tripped over miniature picket fence at work.	Fracture of vertebral column	Back - unspecified	2020/21	
There was a pot hole in bitumen, walking and talking to kids, tripped over and rolled the [redacted] ankle	Anxiety/stress disorder	Psychological system in general	2020/21	
Walking down hallway and tripped and landed on [redacted] wrist, fracturing wrist	Contusion, bruising, superficial crush	Knee	2020/21	
Child bit her [redacted] arm	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Whilst cleaning desks and vacuuming - pulled [redacted] - Contrary to Public Interest [redacted] and felt sharp pain in back	Other fractures not elsewhere classified	Wrist	2020/21	
Tripped over whilst walking, worker tripped over a [redacted] - Contrary to Public Interest [redacted] for the kids to play with)	Laceration not involving amputation	Forearm	2020/21	
Have picked up two [redacted], as lifting twisted to move away and felt pain through my middle to lower part of the back	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
Student left the classroom and slammed door. He was behind a door - I pushed the door open and he pushed back and I was squashed between the door and the frame hurting my shoulder blade. I pushed the door back to get out and through onto the landing.	Contusion, bruising, superficial crush	Knee	2020/21	
	Back pain, lumbago, sciatica	Back - other and multiple	2020/21	
	Superficial injury	Shoulder	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Teaching 6 students in the classroom ([§ 47(3)(b) - Contrary to Public Interest]). Had back turned while music was being played and as I turned around I saw that the student was on [§ 47(3)(b) - Contrary to Public Interest].	Anxiety/stress disorder	Psychological system in general	2020/21	s.47(3)(b) - Contrary to Public Interest
Was to help a [§ 47(3)(b) - Contrary to Public Interest] child down off playground, twisted back while helping child down, pain got worse over course of day	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
was sitting in a [§ 47(3)(b) - Contrary to Public Interest] for over 6 hours a day. Seat is not ergonomic just a plastic boost seat.	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
initial lumbosacral back pain in [§ 47(3)(b) - Contrary to Public Interest] after heavy lifting in the garde. Symptoms were improving with physio, chiropractor therapy. [§ 47(3)(b) - Contrary to Public Interest] while in class bent down to plug in laptop, back gave way, recurrence of severe back pain	Back pain, lumbago, sciatica	Lower back	2020/21	
I was walking past the footpath and kids where playing and I got hit in the head with the ball and fell on the concrete	Contusion, bruising, superficial crush	Knee	2020/21	
Student (age [§ 47(3)(b) - Contrary to Public Interest]) jumped on [§ 47(3)(b) - Contrary to Public Interest] back grabbing around neck, causing strangulation	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2020/21	
work related to new job	Anxiety/stress disorder	Psychological system in general	2020/21	
stopped board being thrown at her - pain [§ 47(3)(b) - Contrary to Public Interest] elbow	Contusion, bruising, superficial crush	Elbow	2020/21	
I was moving a heavy table and the person supporting let go and the following day I felt the pain.	Unspecified injuries	Shoulder	2020/21	
Worker separated 2 fighting students	Soft tissue due to trauma/unknown mech.	Head and neck	2020/21	
Hit with metal pole	Contusion, bruising, superficial crush	Forearm	2020/21	
Bite by a student	Superficial injury	Wrist	2020/21	
Managing heightened Student - twisted and felt/heard crack to rib area, was unable to move.	Soft tissue due to trauma/unknown mech.	Ribs	2020/21	
Walking back to staff room after playground duty, I have tripped over concrete pathway, and just managed to stop myself from falling. Causing strain on lower back.	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
I got hit by a swing that [§ 47(3)(b) - Contrary to Public Interest]. One of the students hopped onto the swing without me noticing when I stood up to take another student to the toilet. The swing came up to my thigh and I fell on the floor and that's when the pain started. I [§ 47(3)(b) - Contrary to Public Interest].	Soft tissue due to trauma/unknown mech.	Upper leg	2020/21	
Playing [§ 47(3)(b) - Contrary to Public Interest]	Other fractures not elsewhere classified	Forearm	2020/21	
Lifted arm to catch hat flying off head	Dislocation	Shoulder	2020/21	
Directly related to bullying at work	Depression	Psychological system in general	2020/21	
Hit with metal rod	Soft tissue due to trauma/unknown mech.	Forearm	2020/21	
I was supporting in a [§ 47(3)(b) - Contrary to Public Interest] I stopped because a student asked me a question. After I finished answering the question the knife slipped and lacerated my finger.	Laceration not involving amputation	Fingers	2020/21	
bitten by [§ 47(3)(b) - Contrary to Public Interest] student	Laceration not involving amputation	Hand	2020/21	
Child had her in a neck hold	Trauma to muscles/tendon unspecified	Neck bones, muscles and tendons	2020/21	
[§ 47(3)(b) - Contrary to Public Interest] knee hit bench leg after a student ran into me,	Contusion, bruising, superficial crush	Knee	2020/21	
Tripped over a rubber mat and landed on her chest wall/abdomen	Soft tissue due to trauma/unknown mech.	Abdomen - unspecified	2020/21	
Tripped over microphone stand when putting away sound equipment away	Meniscus degenerate/detached/tear	Knee	2020/21	
Tripped over a concrete slab on ground floor at school	Back pain, lumbago, sciatica	Lower back	2020/21	
Bitten by a student	Superficial injury	Hand	2020/21	
Fell onto concrete	Laceration not involving amputation	Face	2020/21	
Chronic and excessive voice use	Other diseases of respiratory system	Lung, trachea and bronchus	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Drop kicking a [§ 47(2)(b)] ball.	Trauma to muscles/tendon unspecified	Knee	2020/21	s.47(3)(b) - Contrary to P
Fall on stairs	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Stress, abusive behaviour	Anxiety/stress disorder	Psychological system in general	2020/21	
Between the hours of [§ 47(2)(b)] exposed to [§ 47(2)(b) - Contrary to Public Interest] while supervising the outside entrance of [§ 47(3)(b) - Contrary to Publ] where the [§ 47(2)(b)] was taking place.	Other diseases or ear and mastoid proces	Ear	2020/21	
In door, top slammed on bottom	Contusion, bruising, superficial crush	Fingers	2020/21	
verbal & physical abuse by student - student aggressive, threatening, wiping bloody bandaid on her face, back and arm	Post-traumatic stress disorder	Psychological system in general	2020/21	
[§ 47(2)(b)] child bit her on her left breast while she was at work	Laceration not involving amputation	Breast	2020/21	
I joined in on a ball game with Grade [§ 47(2)(b)] I accidentally stepped on the ball & fell backwards. I put my hand out to break my fall	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Repetitive cutting and laminating	Soft tissue diseases due to non-traumati	Shoulder	2020/21	
Kid jumped out on me from the tree (Grade [§ 47(2)(b)])	Traumatic tearing from muscle, avulsion	Elbow	2020/21	
lifted and moved student desk and had sudden onset of lower back pain - now pain with flexion and extension of lower back	Trauma to joints/ligaments unspecified	Lower back	2020/21	
Sitting on a child's chair at work	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Tripped whilst chasing a child at work	Other fractures not elsewhere classified	Toes	2020/21	
Tripped and fell	Other fractures not elsewhere classified	Thumb	2020/21	
Punched by a student on [§ 47(2)(b)] shoulder at school	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
Tripped over the lip on the door at work 2 hours ago	Soft tissue diseases due to non-traumati	Elbow	2020/21	
Running after a Child and slipped on grass - put [§ 47(2)(b)] arm out to break fall	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
running onto the field to deliver water to the players/students	Unspecified injuries	Knee	2020/21	
[§ 47(2)(b) - Contrary to Public Interest] and I was propelled off my seat and landed on the floor on my tail bone/Back	Trauma to muscles/tendon unspecified	Lower back	2020/21	
[§ 47(2)(b) - Contrary to Public Interest] and I was propelled off my seat and landed on the floor on my tail bone/Back	Trauma to muscles/tendon unspecified	Lower back	2020/21	
[§ 47(2)(b)] knee pain/swelling after she slipped off balance while walking on footpath	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
FOOSH backwards	Trauma to joints/ligaments unspecified	Shoulder	2020/21	
[§ 47(2)(b)] while younger and then teaching a lot of [§ 47(3)(b) - Contrary to Pu] and [§ 47(2)(b) - Contrary to Public Interest] years worth	Deafness	Ear	2020/21	
Was accidentally struck on the back of her [§ 47(2)(b)] hand with large metal instrument.	Soft tissue due to trauma/unknown mech.	Hand, fingers and thumb - other and mult	2020/21	
Supervising Student who had a [§ 47(2)(b)] while walking - as I supported her to sit, she joined and threw us both off balance and I fell onto my back/bottom	Back pain, lumbago, sciatica	Lower back	2020/21	
student fight	Anxiety/stress disorder	Psychological system in general	2020/21	
Was walking back to class and got hit by a student in the [§ 47(2)(b)] side of the face	Superficial injury	Eye - other and multiple	2020/21	
She twisted [§ 47(2)(b)] ankle at work accidentally.	Trauma to muscles/tendon unspecified	Ankle	2020/21	
Repeated use/projection of voice in classroom	Muscle/tendon strain (non-traumatic)	Neck - internal organs and glands	2020/21	
Running in [§ 47(2)(b) - Cd] and jumped over obstacle and then landed on [§ 47(2)(b)] leg in divot and her leg twisted under her.	Trauma to muscles/tendon not classified	Ankle	2020/21	
Physically assaulted by a student at school, he scratched my arm and punched my wrist, punched and kicked me in the back.	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Playing [§ 47(2)(b)] with staff and children	Trauma to muscles/tendon unspecified	Lower leg	2020/21	
Accidentally cut dorsum of [§ 47(2)(b)] hand against metal machinery	Laceration not involving amputation	Hand	2020/21	
Classroom, everything is very low, stooping over to cut and paint a box. As soon as i was finished i stood up and noticed that i was in pain	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
[§ 47(2)(b)] child was trying to sit on her head.	Soft tissue due to trauma/unknown mech.	Head and other	2019/20	
Fell backward at work	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
slipped over chasing a ball	Contusion, bruising, superficial crush	Head - unspecified locations	2020/21	
Coaching [§ 47(2)(b)]	Trauma to muscles/tendon not classified	Knee	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Playing [redacted] at work	Muscle/tendon strain (non-traumatic)	Knee	2020/21	s.47(3)(b) - Contrary to P
Struck by a [redacted] ball	Dislocation	Thumb	2020/21	
Whilst doing [redacted] with a class, iw was showing the students how [redacted]	Other fractures not elsewhere classified	Thumb	2020/21	
[redacted] iw thumb hit the [redacted] & iw thumb got bent backwards causing injury				
Inversion injury to ankle	Trauma to muscles/tendon unspecified	Ankle	2020/21	
Students finger nail	Superficial injury	Eye - unspecified	2020/21	
She has been cutting repeatedly with twisting movement of her [redacted] wrist which is new work she is doing while working from home. [redacted] is now to cause due to forceful repeatative movement of wrist	Synovitis and tenosynovitis	Wrist	2020/21	
fall in car park fell over concrete parking barrier onto [redacted] sude	Other fractures not elsewhere classified	Ribs	2020/21	
lifting a chair	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Running in a [redacted] - felt sudden / sharp pain in right hamstring	Traumatic tearing from muscle, avulsion	Upper leg	2020/21	
Persistent workplace harassment deceived as bullying	Anxiety/depression combined	Psychological system in general	2019/20	
Over period of time , having to project voice while teaching	Other diseases of respiratory system	Neck - internal organs and glands	2020/21	
Moving quickly down bitumen pathway	Superficial injury	Knee	2020/21	
slipped from stool and landed on back and [redacted] elbow	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Student at school with [redacted]	Viral disease, not classified elsewhere	Back - other and multiple	2020/21	
Repeated use and projection of voice	Other diseases of respiratory system	Respiratory system in general	2020/21	
PE teacher - constant use of voice	Other diseases of respiratory system	Neck - internal organs and glands	2020/21	
Using [redacted] to write cut paper and cardboard repeatedly	Carpal tunnel syndrome	Wrist	2020/21	
Was collecting books from classroom, tripped on a small swivel chair, falling on [redacted] side and wrist	Bursitis	Hip	2020/21	
[redacted] knee injury during [redacted]	Dislocation	Knee	2020/21	
Unknown	Other diseases of respiratory system	Neck - internal organs and glands	2020/21	
Slipped in mud	Trauma to muscles/tendon unspecified	Knee	2020/21	
TBC as worker in waiting room	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
A [redacted] student fell on inside of knee while standing and my knee gave way.	Trauma to muscles/tendon unspecified	Knee	2020/21	
Workers microphone has died midway through the day and worker has started experiencing pain and Hoarseness of voice.	Other respiratory diseases, unspecified	Respiratory system in general	2020/21	
Traumatic events at work including a student threatening suicide during class	Post-traumatic stress disorder	Psychological system in general	2020/21	
A child was swinging around a metal toy car on a string and lost hold of it, it flew from their hand and hit my eye	Laceration not involving amputation	Eye - unspecified	2020/21	
Falling onto handrail at steps	Contusion, bruising, superficial crush	Chest - unspecified	2020/21	
Repeated pulling action from Children to [redacted] shoulder	Tendinitis	Shoulder	2020/21	
Went to sit down and Student pulled chair from underneath - fell onto floor.	Trauma to joints/ligaments not classified	Lower back	2020/21	
I was just playing some [redacted] with my students that started at about 12:30 and at about 1pm I could just feel a sharp pain in my [redacted] heel. I was wearing normal asic sport shoes at the time.	Fasciitis	Foot	2020/21	
I was working with a [redacted] Student who was escaiated. He began hitting me and grasping, so I moved away. We were walking up to clean up an injury of his and he grabbed my arm and bit into my forearm.	Laceration not involving amputation	Forearm	2020/21	
Bent over pushing an amplifier	Trauma to joints/ligaments unspecified	Lower back	2020/21	
On the [redacted] student was hitting another teacher. We asked him to stop on numerous occasions. Went to move him away, and take him outside. I tripped on him whilst he was pulling away from me, and both feet went over. As I stumbled, and braced with [redacted] foot to prevent fall, and [redacted] foot went sideways. Her [redacted] foot went sideways as well.	Trauma to muscles/tendon not classified	Ankle	2018/19	
Repeated use / projection of voice to speak to Students	Trauma to muscles/tendon unspecified	Neck and trunk	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
moving [6.47(2)(b)] out of a draw in resource centre that iw works in, roughly more than 2kgs ...had to lift it with two hands, as i pulled it out i could just fell my back go	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	s.47(3)(b) - Contrary to F
I was interacting with a [6.47(2)(b)] student he suddenly got upset and bite me	Laceration not involving amputation	Shoulder	2020/21	
Student intentionally sprayed Liquid hand sanitiser into worker's eyes twice.	Chemical burn	Eyeball	2020/21	
W was assaulted in [6.47(2)(b) - Contrary to Public Interest]	Anxiety/stress disorder	Psychological system in general	2020/21	
I was at drop off duty, I have stepped forward to close a vehicle door, as I stepped forward my foot has gone off the side of the gutter and twisted falling down on my knee and side of my body.	Contusion, bruising, superficial crush	Ankle	2020/21	
Missed the last step walked down stairs.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Work stress (Provisional)	Anxiety/stress disorder	Psychological system in general	2020/21	
Slipped on pencil at work	Other fractures not elsewhere classified	Ankle	2020/21	
Attacked by student.	Contusion, bruising, superficial crush	Forearm	2020/21	
Assaulted by a Student - kick to leg, punch to head, chair thrown and struck [6.47] hand, hit to shoulder with broom	Soft tissue due to trauma/unknown mech.	Hand	2020/21	
Walking up Auditorium Stairs - [6.47] foot kicked step and struck [6.47(2)(b)] toe (was wearing enclosed shoes)	Unspecified injuries	Toes	2020/21	
Student became aggressive	Soft tissue due to trauma/unknown mech.	Thumb	2020/21	
Standing on chair to attend to Speaker - heard popping sound [6.47] leg	Traumatic tearing from muscle, avulsion	Lower leg	2020/21	
possible mould exposure at school	Other respiratory diseases, unspecified	Respiratory system in general	2019/20	
Rehousing digital camera into its case and over extended finger	Trauma to tendon	Fingers	2020/21	
I was playing [6.47(2)(b)] with the students in after school training and the ball hit the end of my finger	Trauma to joints/ligaments unspecified	Fingers	2020/21	
Difficulty managing Student Behaviour and lack of support from Employer in response	Depression	Psychological system in general	2020/21	
Repeated standing at 'Standing Desk' for previous [6.47] months with weight mostly on [6.47] foot - large portion of role [6.47(2)(b) - Co] and was not alternating between sitting/standing	Fasciitis	Foot	2020/21	
Heightened Student grabbed both arms and scratched	Superficial injury	Forearm	2020/21	
On [6.47(2)(b)] found stacked chairs and tables everywhere - moving stack of 3 of chairs on carpet - dragging them to the other side of the room felt burn in [6.47] elbow.	Soft tissue diseases due to non-traumati	Elbow	2020/21	
kick by student	Soft tissue due to trauma/unknown mech.	Hip	2020/21	
Punched to back of neck and pain in [6.47] shoulder by a student, pain has been radiating down to [6.47] side of chest (pain worse in [6.47] shoulder)	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2020/21	
walking to class which was uneven and [6.47] foot rolled and left to the ground	Soft tissue due to trauma/unknown mech.	Shoulder	2019/20	
A student backed into me accidentally while playing [6.47(2)(b)] knocking into my [6.47(3)] [6.47(2)(b) - Co] and it tipped over. [6.47(2)(b) - Contrary to Public Interest] stopped most of the impact.	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
Walking along footpath on the side of the building and Tripped over raised piece of concrete and fell to ground and handed on both knees and hands.	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
<p>At approximately [redacted] I was in my classroom and the [redacted] s.47(3)(b) - Contrary to Public Interest</p> <p>students foot placement. As a result of this my knee twisted and I was unable to balance properly due to pain in my [redacted] knee. I lost my balance and put my [redacted] arm out to attempt to balance myself. Unfortunately I could not reach a wall or item of furniture to balance and therefore fell to the ground. When I fell I felt a sharp pain in my arm. I had landed on my [redacted] hand with my arm at a straight angle. I felt immediate pain in my elbow/forearm/wrist area.</p> <p>[redacted] s.47(3)(b) - Contrary to Public Interest</p>	Other fractures not elsewhere classified	Forearm	2020/21	s.47(3)(b) - Contrary to Public Interest
<p>kicked/punched attacked by child</p> <p>Fall at work</p> <p>Rolled ankle at work on uneven ground</p> <p>lashing out by a student, he pinched and slapped</p> <p>I was playing sport with my class and on [redacted] s.47(3)(b) - Contrary to Public Interest. On playground duty walking across the oval and a [§ 47(3)] landed just behind me and a boy dived to get the ball and made contact with my ankle, causing it to buckle and twist.	Dislocation	Ankle	2020/21	s.47(3)(b) - Contrary to P
Was working in book room, unloaded [§ 47(3)(b)] pain developed in [§ 47] shoulder and arm over a period time	Bursitis	Shoulder	2020/21	
Jumped off embankment onto sand. Pain to knee when landed	Dislocation	Knee	2020/21	
Trip/Fall missed a step on path	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Assaulted by student in class room, multiple instances of physical and verbal abuse in the work place	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
Work related.	Anxiety/stress disorder	Psychological system in general	2019/20	
Over-exertion during [§ 47(3)(b)] but then also further exertional nature of job over next few weeks afterwards	Bursitis	Hip	2020/21	
tripped on a ball landed on hip and wrist	Soft tissue diseases due to non-traumati	Wrist	2020/21	
Playing [§ 47] with [§ 47] class - jogged to pick up a ball on next court, stood on a rock and rolled [§ 47] ankle.	Trauma to muscles/tendon unspecified	Ankle	2020/21	
Student kicked a ball and struck me on the back of the head with the ball causing head to move forward and instant pain in head and neck	Trauma to muscles/tendon unspecified	Head and neck	2020/21	
being physically and verbally abused by kids at school	Anxiety/stress disorder	Psychological system in general	2020/21	
Playing [§ 47] with students and felt a snap in the [§ 47] calf muscle	Trauma to muscles	Lower leg	2020/21	
Tripped on tree root whilst walking to oval - fell onto [§ 47] side	Soft tissue due to trauma/unknown mech.	Upper limb - multiple locations	2020/21	
Was in the [§ 47(3)(b) - Contra] ball came to her, tried to kick it with her [§ 47] foot but her [§ 47] leg gave way and fell and landed on her bottom	Trauma to joints/ligaments unspecified	Ankle	2020/21	
wrist struck by letter punch	Ganglion, trigger finger, dupuytren's con	Wrist	2020/21	
fixing mic stand - has awkward landing	Trauma to joints/ligaments unspecified	Knee	2020/21	
I was the first responder to a student that had [§ 47(3)(b) - Contrary to Public In	Anxiety/stress disorder	Psychological system in general	2020/21	
Mite bite	Superficial injury	Abdomen - unspecified	2020/21	
Twisted back resulting in acute pain	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
[§ 47(3)] swung out of players hands and struck anterior shin. Pain and swelling.	Contusion, bruising, superficial crush	Lower leg	2020/21	
bitten by student at work	Laceration, not involving amputation	Hand	2020/21	
Taking my class to the [§ 47(3)(b) - Contra] turned and picked up my backpack and as I placed it on my back, felt sharp pain left shoulder	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
[§ 47(3)(b)] Walking on path with Students - turned to redirect a Student and felt [§ 47] knee 'pop', unable to walk.	Meniscus degenerate/detached/tear	Knee	2020/21	
Hit in head by a [§ 47(3)]	Trauma to joints/ligaments not classifi	Head and neck	2020/21	
playing [§ 47], had tackle and then felt pain in his back	Back pain, lumbago, sciatica	Lower back	2020/21	
Teaching [§ 47] and Student came from behind - stepped back and tripped over Student, injuring [§ 47] ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Worker was moving items out of the [§ 47(3)(b) - Contra] Worker was moving items including [§ 47(3)(b) - Contrary] Worker was doing this over the course of the morning. When Worker lifted the [§ 47(3)(b)] they twisted to the left when they lifted it and felt pinching pain in back. Pain got progressively worse as the day wore on.	Disc displacement, prolapse, hernia	Back - other and multiple	2020/21	
Walking up internal concrete stairs to Office - shoe caught on metal lip of stair and lost balance, twisted and impacted on [§ 47] knee	Joint/other articular cartilage, unclass	Knee	2020/21	
whacked on desk drawer	Laceration not involving amputation	Knee	2020/21	
Fell backwards and child landed on her	Soft tissue diseases due to non-traumati	Lower back	2020/21

Working with § 47(2)(b) - Contrary to Public Interest - Student grabbed my lanyard and pulled, scratched § 47(2)(b) side of my face/eye	Laceration not involving amputation	Face	2020/21	s.47(3)(b) - Contrary to P
I had returned from class (lesson 1) and another teacher came asking who to ring as a student outside was behaving violently. I went to the door to see teacher attempting to restrain you from physically attacking students. I got her to call whomever she could and went to assist teacher in restraining student. student was very angry and verbally and physically abusive. With teacher on one side and me on the other we restricted student movement in order to protect students nearby. student was aggressively attempting to remove self and, in the process, kicked me strongly with your heels four times in the shins. teacher was also receiving kicks as student tried forward kicks towards him. teacher came §.47(3)(b) - Contrary to Public Interest	Contusion, bruising, superficial crush	Knee	2020/21	
able to remove you from this confrontation but, as you struggled you hit me solidly in the jaw with the heel of your hand. § 47(2)(b) - Contrary to Public Interest				
§.47(3)(b) - Contrary to Public Interest				
On this § 47(2)(b) at work pulling desks and hurt her § 47(2)(b) wrist while pulling the desk.	Tendinitis	Wrist	2020/21	
Trying to calm a student who was fighting with another student and was hit in the jaw	Contusion, bruising, superficial crush	Mouth	2020/21	
hot water onto hand	Hot burn	Hand	2020/21	
Human bite to forearm	Laceration not involving amputation	Forearm	2020/21	
Threw § 47(2)(b) leg out and twisted § 47(2)(b) leg	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Continuing pervasive harassment and bullying by senior staff member	Mental diseases, unspecified	Psychological system in general	2020/21	
Repeated walking up/down stairs on school grounds	Trauma to muscles/tendon unspecified	Knee	2020/21	
Developed sudden pain back of § 47(2)(b) foot after pushing a heavy wheelchair.	Trauma to muscles/tendon unspecified	Foot	2020/21	
Student grabbed § 47(2)(b) finger - bent backwards	Trauma to muscles/tendon unspecified	Hand, fingers and thumb - unspecified	2020/21	
Child jumper off step in pool, collided with eye	Contusion, bruising, superficial crush	Eye - unspecified	2020/21	
Workplace bullying/harassment	Post-traumatic stress disorder	Psychological system in general	2020/21	
Tripped over at school and landed on Knees, hand, chest and chin	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
§ 47(2)(b) kicked at close range hit the § 47(2)(b) back of the head unexpectedly.	Trauma to joints/ligaments not classifie	Neck bones, muscles and tendons	2020/21	
stepping down from a platform.	Contusion, bruising, superficial crush	Lower back	2020/21	
breaking up fight between students, bent her wrist	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Tripped over coiled wire used by tradesman while walking up ramp hit head on rail and twisted § 47(2)(b) wrist when grabbing onto the railing during fall.	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Trying to bend and lift some § 47(2)(b)	Trauma to joints/ligaments unspecified	Back - unspecified	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Student was late for class. When I asked him to wait and attempted to direct him to where he should be and talk about punctuality. He began to walk towards me into the room and barged past me. I was standing in doorway and put my arm up to stop him from entering, at which time he pushed my arm down and walked into me, making physical contact forcing me to step out of the way. I asked him to leave the room numerous times and he refused. I asked passing Teacher to escort him to Administration. He also refused to follow that Teachers' instructions. She contacted Head of Behaviour who came to class and withdrew the Student.	Anxiety/stress disorder	Psychological system in general	2020/21	s.47(3)(b) - Contrary to P
Bitten by student at school	Laceration not involving amputation	Forearm	2020/21	
Hit shoulder [redacted] side on door when trying to open at work.	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
Walked out of sliding door that steps down onto concrete platform - misjudged step and fell forward onto both knees and [redacted] shoulder/side	Superficial injury	Knee	2020/21	
tripped over	Bursitis	Shoulder	2020/21	
Slipped on stairs	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Large year [redacted] student threatening/stalking pt, screaming, cornered her at desk, threatened with physical harm with makeshift weapon.	Post-traumatic stress disorder	Psychological system in general	2020/21	
I was pulling [redacted] s.47(3)(b) - Contrary to Public Information Act, it got caught, as I turned to pull it I injured my [redacted] leg- pain progressively got worse	Musculoskeletal/connect tissue unspecif.	Knee	2020/21	
Got scratched and punched by a student at work, injuries to [redacted] wrist [redacted] forearm [redacted] lumbar area [redacted] side of neck.	Superficial injury	Wrist	2020/21	
Stepping widely side to side rapidly	Trauma to muscles/tendon unspecified	Upper leg	2020/21	
A student grabbed the already injured wrist and pulled on it in an aggressive manner.	Anxiety/stress disorder	Psychological system in general	2020/21	
Being treated unfairly and bullied by employer	Anxiety/stress disorder	Psychological system in general	2020/21	
Fell forward onto face and body when rolled ankle caused by tripped by a student at work.	Muscle/tendon strain (non-traumatic)	Ankle	2020/21	
Accidental spill of hot soup	Hot burn	Hand	2020/21	
i was redirecting a student in the playground and he dropped to the ground whilst holding my [redacted] hand pulling my body abruptly	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
rolled [redacted] ankle while at work	Other fractures not elsewhere classified	Lower leg	2020/21	
Year [redacted] Student was attacking another Student - I intervened and restrained him, he lifted me off the ground and smashed me into glass door	Contusion, bruising, superficial crush	Ribs	2020/21	
I was walking students back to class, I rolled my ankle on a crack in the concrete and fell.	Other fractures not elsewhere classified	Elbow	2020/21	
Assault by student	Contusion, bruising, superficial crush	Face	2020/21	
I was walking up the stairs and tripped on the top step, falling to the ground. Landing on my knee, elbows and hands.	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
[redacted] arm wrenched by a student	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
I was attending a [redacted] s.47(3)(b) - Contrary to Public Information Act and I felt a little dizzy and felt a bit sick, so I walked to the bathroom. On the way I fainted a little and got back up and once I entered the bathroom I fainted and must have knocked my head on the toilet or sink. I was woken up moments later by co-workers.	Fracture of vertebral column	Neck and trunk	2020/21	
I was out playing [redacted] s.47(3)(b) - Contrary to Public Information Act with the students. I was tagged in the middle of the back and extended my stride and tore my [redacted] hamstring	Trauma to muscles/tendon unspecified	Upper leg	2020/21	
[redacted] s.47(3)(b) - Contrary to Public Information Act was in the town [redacted] s.47(3)(b) - Contrary to Public Information Act to do some training of the teacher in the school in that town. I was teaching my class. A kid in my class has behaviour issues and he was sitting next to me. As I got up to write something on the board he has moved my chair and I've gone to sit back down and fell and smacked my back and head on the floor.	Trauma to joints/ligaments unspecified	Lower back	2020/21	s.47(3)(b) - Contrary to P
Strained calf walking down stairs.	Trauma to muscles/tendon unspecified	Lower leg	2020/21	
Setting up <span>s.47(3)(b) - Contrary to P</span> display in Staffroom, with a couple of other staff. Working at table, got a fright from someone at the door and stepped back and tripped over a chair.	Other fractures not elsewhere classified	Wrist	2020/21	
Landing on Knees and <span>s.47(3)(b) - Contrary to P</span> arm.				
running student collided with staff member at full speed	Soft tissue due to trauma/unknown mech.	Neck - other and multiple	2020/21	
Hit on the tope of the head by a chair that a student threw. The student was unsettled, picked up a chair and threiq it. <span>s.47(3)(b) - Contrary to P</span> was trying to intervene to protect other children when she got hit	Unspecified injuries	Head - unspecified locations	2020/21	
In manual arts building, timber falling on to face	Laceration not involving amputation	Face	2020/21	
Anon complaint made against teacher, working in toxic environment	Anxiety/stress disorder	Psychological system in general	2020/21	
Accidental contact student.	Soft tissue due to trauma/unknown mech.	Thumb	2020/21	
I was on yard duty, walking back to my area looking at the kids and not at the ground when I walked into a hole and felt sharp pain and a pop to my <span>s.47(3)(b) - Contrary to P</span> ankle	Trauma to muscles/tendon unspecified	Ankle	2020/21	
whilst assisting a student to walk, student has dropped to the ground pulling worker straining her back. Worker has then returned to work on <span>s.47(3)(b) - Contrary to P</span> and pain in upper back started.	Soft tissue due to trauma/unknown mech.	Back - other and multiple	2020/21	
Tripped over a cord	Bursitis	Shoulder	2020/21	
Light fell onto head	Superficial injury	Head - unspecified locations	2020/21	
Walking up the school driveway to access school and twisted knee and stumbled	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Bullying/Harrasment	Anxiety/stress disorder	Psychological system in general	2020/21	
Punched, strained fingers & shoulder	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
<span>s.47(3)(b) - Contrary to P</span> - strained upper back/shoulders/neck area	Trauma to muscles/tendon unspecified	Neck and shoulder	2020/21	
Accidentally fell and injured lower back.	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Witness superior with medical condition	Anxiety/stress disorder	Psychological system in general	2019/20	
Fall onto <span>s.47(3)(b) - Contrary to P</span> side. Stepped on ? stone and became out of balance and fall onto <span>s.47(3)(b) - Contrary to P</span> side.	Soft tissue due to trauma/unknown mech.	Hand	2020/21	
I was assaulted by a student	Other diseases not elsewhere classified	Head and neck	2020/21	
Slipped at work	Soft tissue due to trauma/unknown mech.	Back - other and multiple	2020/21	
Foot caught on step and she fell	Other fractures not elsewhere classified	Wrist	2020/21	
Workplace stressors.	Anxiety/stress disorder	Psychological system in general	2020/21	
Claimant was in the process of playing sport with a group <span>s.47(3)(b) - Contrary to P</span> when she fell over on to her <span>s.47(3)(b) - Contrary to P</span> knee causing injury (Video evidence confirms event). Over the last 6 monyhs injury has not healed	Meniscus degenerate/detached/tear	Knee	2019/20	
Student kicked <span>s.47(3)(b) - Contrary to P</span> in the back of the knee	Unspecified injuries	Knee	2020/21	
catching a <span>s.47(3)(b) - Contrary to P</span>	Other fractures not elsewhere classified	Fingers	2020/21	
Fall while supervising class recreational activity	Soft tissue due to trauma/unknown mech.	Chest - other and multiple	2020/21	
fell forward down stairs at school - hyperextended rotated the knee	Meniscus degenerate/detached/tear	Knee	2020/21	
Reaching up above her head and across a bench to turn a switch on and off <span>s.47(3)(b) - Contrary to P</span>	Unspecified injuries	Shoulder	2020/21	
day				
Stepped on a rock on way to class	Unspecified injuries	Knee	2020/21	
Was walking with a student through a classroom, as turning a corner in the classroom the student cut across her path unexpectedly had to take an unexpected sideways step while off balance, landed on furniture and managed to brace so didn't fall all the way to the floor but did roll the ankle.	Unspecified injuries	Ankle	2020/21	
Kicked to the face.	Soft tissue due to trauma/unknown mech.	Face	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Year 6 child was attacking another child, a different child threw the attacking child to the ground to protect the other child, put arm around attacking child. He bit the 6.47 lower arm did break the skin and bled.	Laceration not involving amputation	Forearm	2020/21	s.47(3)(b) - Contrary to P
Walking, felt tear in calf	Trauma to muscles/tendon unspecified	Lower leg	2020/21	
student bumped into the 6.47 shoulder and felt sudden pain to 6.47 shoulder and wrist	Trauma to muscles/tendon not classified	Shoulder	2020/21	
constantly being called derogatory names	Anxiety/stress disorder	Psychological system in general	2020/21	
Due to stress at work	Depression	Psychological system in general	2020/21	
Difficulties with principal	Anxiety/stress disorder	Psychological system in general	2020/21	
Hit in the face by a student at work	Joint/other articular cartilage, unclass	Face	2020/21	
Sport lesson on school oval	Trauma to muscles/tendon unspecified	Ankle	2020/21	
A student punched her in the shoulder blade from behind quite hard.	Soft tissue due to trauma/unknown mech.	Upper back	2020/21	
I was on playground duty, there was an uneven wedge and I've stepped on it wrong and gone down.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Student had the 6.47(3)(b) on while finger is in the bowl.	Laceration not involving amputation	Fingers	2020/21	
Separating students in a physical altercation	Trauma to muscles/tendon not classified	Shoulder	2020/21	
Separating fighting students, forced to intervene and separate fighting students, shoulder impacted against self				
Running	Trauma to joints/ligaments unspecified	Other specified multiple locations	2020/21	
Physical assault by a student.	Trauma to muscles/tendon not classified	Shoulder	2020/21	
Twisting.	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Punched by student	Contusion, bruising, superficial crush	Forearm	2020/21	
Child kicked 6.47(2)(b) IW stopped ball from hitting another student	Other fractures not elsewhere classified	Fingers	2020/21	
A student bumped into me when running after a ball, 6.47 advised was a big bump and lost her footing. Almost fell over but caught herself from falling.	Back pain, lumbago, sciatica	Lower back	2020/21	
Sexual abuse and verbal abuse by co-worker	Depression	Psychological system in general	2019/20	
Pulled up a metal bar that didn't mo.	Soft tissue diseases due to non-traumati	Chest muscles	2020/21	
Walking down stairs, missed a step.	Trauma to tendon	Ankle	2020/21	
Making baskets	Musculoskeletal/connect tissue unspecif.	Hand, fingers and thumb - other and mult	2020/21	
Object thrown at hand	Unspecified injuries	Thumb	2020/21	
Understaffed, too much work, staff/bosses not supportive, mentally exhausted	Anxiety/stress disorder	Psychological system in general	2020/21	
Worker was training with year 6.47(2)(b) C Worker stepped back and heard pop, fell down and couldn't move.	Trauma to muscles/tendon not classified	Lower leg	2020/21	
Closing minibus door	Trauma to muscles/tendon not classified	Shoulder	2020/21	
Getting away from angry kid, twisted back causing injury	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
Traumatic accumulative effect of stress in 6.47(2)(b) Contusion	Post-traumatic stress disorder	Psychological system in general	2019/20	
I was walking down the stairs and walked on uneven ground on grass during a fire drill and rolled my right ankle and heard it pop. I felt pain immediately.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
moving classroom furniture - lifting large and small tables at school	Back pain, lumbago, sciatica	Lower back	2020/21	
Student- throwing and physically hurting worker	Anxiety/stress disorder	Psychological system in general	2020/21	
shoved in 6.47 shoulder and also door handle into right hand by student.	Neck pain, cervicalgia	Neck bones, muscles and tendons	2020/21	
Fell over	Other diseases of the eye	Eyeball	2019/20	
A young child rolled a 6.47(2)(b) in front of me as I turned to call a couple of boys over. I have pulled up suddenly and felt a lot of pain in the top of my 6.47 leg.	Musculoskeletal/connect tissue unspecif.	Upper leg	2020/21	
Going to collect a child from office, I wiped feet as it was wet outside and walked onto a lino that is on cement, slipped and went down landing on 6.47 hand side.	Trauma to joints/ligaments unspecified	Lower limb - unspecified locations	2020/21	
Child dropped to floor when holding my hand I tried to pull him up.	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
Work	Dislocation	Shoulder	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
during work hours on way back from office i saw an [§ 47(2)(b)] in the stairwell in [§ 47(3)(b) - Contrary to Public Interest] block. [§ 47(3)(b) - Contrary to Public Interest] then the parents attacked me (both parents) then i missed the step and fell down on elbow and knees	Unspecified injuries	Knee	2020/21	§.47(3)(b) - Contrary to Public Interest
needle stick injury	Laceration not involving amputation	Unspecified locations	2020/21	
Repeated looking downwards at laptop for marking/planning (several years)	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2020/21	
a student grabbed and twisted the worker's wrist	Other fractures not elsewhere classified	Wrist	2020/21	
Running at school race	Trauma to muscles	Lower leg	2020/21	
Supporting/lifting a wheelchair bound student during a [§ 47(3)(b) - Co] - lifting out of [§ 47(3)(b) - Co]	Back pain, lumbago, sciatica	Lower back	2020/21	
Accumulation of traumatic events	Post-traumatic stress disorder	Psychological system in general	2015/16	
I was teaching [§ 47(3)(b)] lessons.	Back pain, lumbago, sciatica	Lower back	2020/21	
[§ 47(3)(b) - Contr] Picked up a first aid kit and put it on a low bench.				
As I unzipped it my back locked.				
I was teaching and one of my Students grabbed the [§ 47(3)(b) - Contr] and started approaching me with [§ 47(3)(b) - Contrary to Public Interest] and as I backed away I tripped over on the path and fell onto my arm onto the concrete path.	Other fractures not elsewhere classified	Wrist	2020/21	
Student dropped a full metal water bottle on [§ 47] foot near [§ 47] toe.	Soft tissue due to trauma/unknown mech.	Toes	2020/21	
Hit by vinyl roll swung at her by [§ 47] year old student.	Trauma to muscles/tendon unspecified	Thumb	2020/21	
Rolled [§ 47] Ankle when playing [§ 47] with one of the [§ 47] students	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Pulled hamstring while running in [§ 47(3)(b) - Contr] fell forward landing on collarbone	Other fractures not elsewhere classified	Ribs	2020/21	
Struck by a student while on playground duty. - An aggressive student approached myself and another [§ 47(3)(b) - Contr] while on playground duty and struck my [§ 47] hand and [§ 47] arm several times as I protected another child and moved to safety.	Unspecified injuries	Hand	2020/21	
Stepped in hole while on [§ 47(3)(b)]	Unspecified injuries	Lower back	2020/21	
Playing [§ 47] with Students - fell on ball and rolled [§ 47] ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Pulled myself [§ 47(3)(b)] and kneeling on foam mat [§ 47(3)(b) - Contrary to Public Interest] and lifted/twisted her, felt twinge lower back	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
Handling bleeding child - Skin contact with blood from child who had been cut by [§ 47(3)(b) - Contr] exposure to possible blood borne illness [§ 47(3)(b) - Contrary to Public Interest]	Exposure to substances, no injury/diseases	Unspecified locations	2020/21	
wrist at the time				
verbal and physical abuse by student	Anxiety/stress disorder	Psychological system in general	2020/21	
Kneeling for [§ 47(3)(b)] - stood up and felt pain in knee	Trauma to muscles/tendon unspecified	Knee	2020/21	
rolled ankle when tripping over hose.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Developed pain in the lower back after lifting a school child, pain radiates down [§ 47] leg	Trauma to joints/ligaments unspecified	Lower back	2020/21	
struck by school bag	Soft tissue due to trauma/unknown mech.	Neck and shoulder	2020/21	
Workplace bullying and mistreatment	Anxiety/stress disorder	Psychological system in general	2020/21	
Bullying / intimidation by colleague and increased work load	Anxiety/stress disorder	Psychological system in general	2019/20	
Rolled ankle while walking around on unstable ground	Trauma to joints/ligaments unspecified	Ankle	2020/21	
was being pulled up stairs in a non-aggressive manner	Unspecified injuries	Ribs	2020/21	
Needing to talk a lot as part of OC	Other diseases of respiratory system	Respiratory system in general	2020/21	
Fell down stairs	Trauma to joints/ligaments unspecified	Ankle	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Fall at work Supporting Student [§ 47(2)(b) - Contrary to Public Interest] - have been doing this all year but symptoms worsened on [§ 47(2)(b)] tripped on uneven pavers [§ 47(2)(b)] One Student became heightened after I told him to exit an inappropriate website - he jumped up, shoulder slammed/tackled me with the impact to my [§ 47(2)(b)] shoulder	Back pain, lumbago, sciatica Trauma to joints/ligaments unspecified  Trauma to muscles/tendon not classified Trauma to muscles/tendon unspecified	Lower back Lower back  Ankle Shoulder	2020/21 2020/21  2020/21 2020/21	s.47(3)(b) - Contrary to
Consistent violence and verbal abuse from students. Having to place students into lockdown due to another student frequently. Physical contact from students. Details of incident [§ 47(3)(b)]	Anxiety/stress disorder	Psychological system in general	2020/21	
[§ 47(3)(b) - Contrary to Public Interest]				
supervising a student then I fell over backward in an awkward position fell down steps I was supervising children back to the school bus when I slipped on the concrete footpath landing on my wrist which jarred my [§ 47(2)(b)] elbow. Student kicked [§ 47(2)(b)] into my back I was [§ 47(2)(b) - Contrary to Public Interest] up from the bus through the school to the class room I was on the phone and a student pushed the phone into my ear Slipped on wet surface Received email from Deputy Principal requesting meeting to discuss concern/complaint from Parent - caused stress as have never been asked this before	Trauma to joints/ligaments unspecified Meniscus degenerate/detached/tear Other fractures not elsewhere classified  Soft tissue due to trauma/unknown mech. Trauma to muscles/tendon unspecified  Soft tissue due to trauma/unknown mech. Muscle/tendon strain (non-traumatic) Anxiety/stress disorder	Knee Knee Wrist  Upper back Lower back  Ear Foot Psychological system in general	2020/21 2020/21 2020/21  2020/21 2020/21  2020/21 2020/21 2020/21	
Tripped on a bolt sticking up in concrete. Fell forward and to right, but didn't fall to ground	Trauma to muscles/tendon unspecified	Unspecified locations	2020/21	
Worker went to sit on chair and the chair moved and it banged against the wall and bounced back and hit worker in the back - worker then fell on to the chair.	Unspecified injuries	Back - unspecified	2020/21	
Not specified	Laceration not involving amputation	Unspecified locations	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Touching light switch	Electrocution, shock, electric current	Other and multiple systemic conditions	2020/21	s.47(3)(b) - Contrary to
Kicked by student	Contusion, bruising, superficial crush	Forearm	2020/21	
Tried to run to stop item fall from table, felt pop in left calf then subsequently fell over	Trauma to muscles/tendon unspecified	Lower leg	2020/21	
On playground duty and child was punching other kids and I have gone to take the child off the playground area. I have used my arm to anchor under his arm as he was lashing out and have been hit in the [redacted] shoulder and arm and shoulder blade and neck.	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
works at [redacted] school and students over time have scratched, bitten and pinched her	Laceration not involving amputation	Forearm	2020/21	
[redacted] was headbutted on [redacted] side of face, scratched and bite on forearm by a [redacted] [redacted] while trying to get him onto community bus, she copain [redacted] side of face and tender on examination	Unspecified injuries	Face	2020/21	
Slipped on mat - bag on shoulder pulled her backwards	Unspecified injuries	Shoulder	2020/21	
Bitten by a student having a meltdown	Laceration not involving amputation	Forearm	2020/21	
bitten by student	Contusion, bruising, superficial crush	Lower limb - unspecified locations	2020/21	
Fall in car park	Trauma to muscles/tendon unspecified	Neck and trunk	2020/21	
Managing heightened Students - one Male student threatened to 'smash my face in', swore at me and motioned to take off his backpack to approach me aggressively.	Anxiety/stress disorder	Psychological system in general	2020/21	
OPT: Repeated walking, bending to look under benches [redacted] [redacted]	Bursitis	Hip	2020/21	
I was taking a [redacted] class and I was [redacted] to the students with my [redacted] foot and straight after I felt pain at the top of my [redacted] quad muscle.	Trauma to muscles/tendon unspecified	Upper leg	2020/21	
Separating students during fight	Trauma to muscles/tendon unspecified	Back - unspecified	2020/21	
Fall at work	Unspecified injuries	Elbow	2020/21	
Was playing [redacted] jut came down on [redacted] knee	Trauma to joints/ligaments unspecified	Knee	2020/21	
playing [redacted] with other teachers in instructional game	Other fractures not elsewhere classified	Lower leg	2020/21	
lack of support for medical / mental health to support ability to increase workload [redacted]	Anxiety/stress disorder	Psychological system in general	2020/21	
On [redacted] - Student jumped and pulled me [redacted] caused twisting movement to [redacted] knee	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Trip and fell up step landing on both wrists	Other fractures not elsewhere classified	Wrist	2020/21	
I was on an excursion. I was walking a student back from the toilets and I stepped on a stick. I rolled my ankle.	Other fractures not elsewhere classified	Lower leg	2020/21	
Student throwing a desk	Back pain, lumbago, sciatica	Lower back	2020/21	
Started when tried to sit on her chair at work which was a bit lower than usual and landed awkwardly on the chair which had no back or side arms and felt her back twisted a bit also feels bit pain and pins and needles [redacted] leg	Unspecified injuries	Lower back	2020/21	
heavy lifting	Back pain, lumbago, sciatica	Lower back	2020/21	
I was performing playground duties and stepped down onto the ring road and twisted my ankle.	Other fractures not elsewhere classified	Ankle	2020/21	
Twisting injury at work, exacerbated at work.	Meniscus degenerate/detached/tear	Knee	2018/19	
collision with student in playground - [redacted]	Back pain, lumbago, sciatica	Lower back	2020/21	
Slipped whilst leaving work getting into her car to go home, jarred back.	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Picked up a stack of books from classroom - felt strain lower back	Trauma to muscles/tendon unspecified	Back - unspecified	2020/21	
Attack by grade 3 student	Contusion, bruising, superficial crush	Other specified multiple locations	2020/21	
Twisting to left to collect books	Trauma to joints/ligaments unspecified	Lower back	2020/21	
Male student barged shoulder into left breast.	Anxiety/stress disorder	Psychological system in general	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
student trashed my room and terrorised my students on [§ 47(2)(b) Corp] verbal abuse by students on [§ 47(2)(b) Corp]	Depression	Psychological system in general	2019/20	s.47(3)(b) - Contrary to P
Trying to de-escalate fight	Trauma to joints/ligaments unspecified	Neck bones, muscles and tendons	2020/21	
IW was rushing to her car, with bags on both shoulders and carrying some work resources when she fell facing forwards, landing on her breast and shoulder hitting concrete	Other fractures not elsewhere classified	Ribs	2020/21	
Pupil complaint, with parental threat through principal, with secondary avoidance/fear behaviours. Pressure from superior to disregard school rules. Failure to respond to employee concerns.	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
in [§ 47(2)(b) Corp] I lifted a part [§ 47] and it slipped from hand and fell hitting top of foot	Trauma to joints/ligaments unspecified	Foot	2020/21	
Student - two staff to one - bite proof gloves and got finger under the glove and scratched - deregulated	Other diseases of skin not classified	Hand	2020/21	
While moving/relocating lengths of [§ 47] delivered to the school - with one person at each end - the length of [§ 47] was dropped, crushing the hand on the ground.	Trauma to joints/ligaments unspecified	Wrist	2020/21	
Scatched by student	Laceration not involving amputation	Face	2020/21	
Stress	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
Was sitting on the carpet and went to get up and twisted my knee	Trauma to muscles/tendon unspecified	Knee	2020/21	
stress reaction caused by being assaulted by child at school	Anxiety/stress disorder	Psychological system in general	2020/21	
Handed a syringe needle	Medical sharp/needle-stick puncture	Fingers	2020/21	
Rolled ankle	Soft tissue diseases due to non-traumatic	Ankle	2020/21	
Tripped on step and fell onto chest	Osteopathies and chondropathies	Ribs	2020/21	
knee locked while sitting to assist a student in a wheelchair	Meniscus degenerate/detached/tear	Knee	2020/21	
Rolled off the edge of the path, rolled over, internally rotated her [§ 47] ankle and hurt the lateral [§ 47] ankle and foot. She fell and hurt her [§ 47] knee and her [§ 47(2)(b) Corp] of her [§ 47] foot	Soft tissue due to trauma/unknown mech.	Foot	2020/21	
Projector screen fell onto shoulder	Contusion, bruising, superficial crush	Shoulder	2020/21	
Doing a [§ 47(2)(b) Corp] with students on [§ 47(3)(b)] and rolled [§ 47] ankle on edge of a concrete path.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
tripped over uneven concrete path	Musculoskeletal/connect tissue unspecif.	Hand	2020/21	
Punched by a student.	Post-traumatic stress disorder	Psychological system in general	2020/21	
Pushed over by child and hit back of head on floor	Unspecified injuries	Head - unspecified locations	2020/21	
Tripped walking up stairs - fell forward landing on knees and hit head and [§ 47] shoulder on door	Multiple injuries	Other specified multiple locations	2020/21	
Transitioning Students from Assembly to Class - heightened Student was grabbing and pinching my [§ 47] arm, headbutt me several times	Contusion, bruising, superficial crush	Forearm	2020/21	
I was playing sport with the kids on the oval, I was running up to one of the kids, we were playing [§ 47] My footing was wrong so while jumping about my [§ 47] foot landed on my [§ 47] foot which made the [§ 47] ankle roll	Trauma to muscles/tendon unspecified	Ankle	2020/21	
Tripped over a child in the class room.	Trauma to joints/ligaments unspecified	Knee	2020/21	
Pushing chair while sitting in it to reposition herself	Trauma to muscles/tendon unspecified	Knee	2020/21	
Lost footing as going down stairs, Fell about 4 flights	Bursitis	Shoulder	2020/21	
Whilst worker was assisting a [§ 47(2)(b) Corp] he has had an escalation and has turned and struck worker in the ribs.	Contusion, bruising, superficial crush	Ribs	2020/21	
accidental fall onto [§ 47] knee - Aggravation of [§ 47(2)(b) Corp] knee	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
stepped wrongly forward	Trauma to joints/ligaments unspecified	Foot	2020/21	
Walking on sand and irregular surfaces on school excursions	Meniscus degenerate/detached/tear	Knee	2020/21	
Fell backward in garden hit stone	Fracture of vertebral column	Upper back	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
leaving school grounds with staff member, she tripped on the edge of garden path and rolled ankle, at approx [6.47(3)] - she had finished for the day, the path she had tripped on was on the school side	Trauma to joints/ligaments unspecified	Ankle	2020/21	s.47(3)(b) - Contrary to P
When he performed a difficult [6.47(3)(b)] his [6.47(3)(b)] knee dislocated and enlocated on its own. Subsequently has pain in [6.47(3)(b)] knee	Trauma to joints/ligaments unspecified	Knee	2020/21	
Slipped down stairs and fell to the side	Trauma to muscles/tendon unspecified	Ankle	2020/21	
tripped over something and fell	Contusion, bruising, superficial crush	Knee	2020/21	
Ball to [6.47(3)(b)] finger	Soft tissue due to trauma/unknown mech.	Fingers	2020/21	
Playing [6.47(3)(b)] with the students.	Soft tissue due to trauma/unknown mech.	Ankle	2020/21	
Continuous and overuse of voice	Other diseases of respiratory system	Unspecified locations	2020/21	
Foot hit grill protruding from ground and ankle inverted	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Landed awkwardly trying to catch a ball and inverted ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Twisted by child	Dislocation	Fingers	2020/21	
Aggravated by deodorant in the workplace	Asthma	Lung, trachea and bronchus	2020/21	
Inversion injury - making her way between desks	Trauma to joints/ligaments unspecified	Foot	2020/21	
Rolled ankle on uneven ground	Trauma to joints/ligaments unspecified	Ankle	2020/21	
I was cleaning up and getting things ready to go too lunch and I turned around and locked my legs together and fell.	Unspecified injuries	Ankle	2020/21	
I was playing [6.47(3)(b)] I was throwing a [6.47(3)(b)] in the usual manner and then that night and the next morning I had ongoing pain.	Traumatic tearing from muscle, avulsion	Shoulder	2020/21	
Assaulted by Student on [6.47(3)(b)] - frustrated at lack of support from [6.47(3)(b)] ongoing challenges with violent Students.	Anxiety/stress disorder	Psychological system in general	2015/16	
Pushing wheelchair on grass for an entire day.	Epicondylitis	Elbow	2020/21	
I was near the [6.47(3)(b)] I & I was running back to get a children's [6.47(3)(b)]	Trauma to muscles	Lower leg	2020/21	
Caught on open carabina (part of lanyard) at work	Laceration not involving amputation	Hand	2020/21	
student knocked over, fell onto [6.47(3)(b)] side	Soft tissue due to trauma/unknown mech.	Upper back	2020/21	
I got pushed over by a student, fell on the floor and then the student fell on top of me	Disc displacement, prolapse, hernia	Lower back	2020/21	
Step class during student free day	Trauma to muscles/tendon unspecified	Lower leg	2019/20	
I was walking up the walkway with my head of department, the bell had just rung and a student came out of no where and ran straight into me	Soft tissue due to trauma/unknown mech.	Forearm	2020/21	
Repeated use of hands - kneading, hands-on work, mixing and carrying.	Carpal tunnel syndrome	Hand	2020/21	
tripped on uneven concrete	Contusion, bruising, superficial crush	Elbow	2020/21	
one of the students in my class threw a piece of paper on my face and then he picked up a drink bottle and threw that as well, the drink bottle hit me in the ribs	Soft tissue due to trauma/unknown mech.	Ribs	2020/21	
Running in game, [6.47(3)(b)] foot landed in small hole in ground and sustained inversion/eversion injury. Immediate pain, swelling. Unable to weight bear	Trauma to muscles/tendon not classified	Ankle	2020/21	
Playing a game with kids and fell down and landed on wrist	Trauma to muscles/tendon unspecified	Wrist	2020/21	
Hit in forearm by a spade being held by a student who spun around quickly when the bell went to signify the end of the afternoon play break	Laceration not involving amputation	Forearm	2020/21	
[6.47(3)(b)] years of workplace harassment by another co-worker	Post-traumatic stress disorder	Psychological system in general	2016/17	
IW was walking on a path at school, when part of the path was uneven (dropdown in path) causing IW to fall.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Head butted twice by a student into [6.47(3)(b)] shoulder	Soft tissue diseases due to non-traumati	Shoulder	2020/21	
manual lifting of students	Back pain, lumbago, sciatica	Lower back	2020/21	
Twisted knee stepping on new synthetic floor in [6.47(3)(b)] area	Meniscus degenerate/detached/tear	Knee	2020/21	
patient was headbutted from behind by a student	Soft tissue due to trauma/unknown mech.	Upper back	2020/21	
Sitting on chair and back of chair gave way hence injured back	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
I had been to the tuckshop and I slipped on the pathway and fell on to my shoulder.	Dislocation	Shoulder	2020/21	s.47(3)(b) - Contrary to P
Attached by [redacted] student	Superficial injury	Neck - unspecified	2020/21	
Around [redacted] we were hiking up a steep incline and think I slipped and twisted [redacted] knee	Trauma to joints/ligaments unspecified	Knee	2020/21	
Abuse by Parent - work related stress after abused by an aggressive Parent on School Grounds	Anxiety/stress disorder	Psychological system in general	2020/21	
OPT - Intimidation/ bullying from specific colleague - also student harassment	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
I am a teacher at the school and during a sport lesson, a ball had been thrown by a student and it caught the tip of my index finger quite hard	Other fractures not elsewhere classified	Fingers	2020/21	
Leaned over to plug laptop into dock - immediate pain in back area	Back pain, lumbago, sciatica	Lower back	2020/21	
Repeated use / projection of voice to teach Students (including usual classrooms, [redacted])	Muscle/tendon strain (non-traumatic)	Neck - internal organs and glands	2020/21	
Repetitive traumatic experiences and psychological distress from student (student has been in class for the past year)	Post-traumatic stress disorder	Psychological system in general	2020/21	
Works as [redacted] and since started working there in term 1 has been witnessing specific student se is allocate to care for [redacted] on a daily basis. Exposure [redacted]	Anxiety/stress disorder	Psychological system in general	2019/20	
[redacted]				
[redacted] Bending down to pick up heightened Student's lunch box - Student kicked my head	Other intracranial injury, not specified	Brain	2020/21	
hit on head by a student	Soft tissue due to trauma/unknown mech.	Head - unspecified locations	2020/21	
Worker was scratched on arms and hair pulled to the point of pulling worker to the ground, twisted neck in an attempt to free themselves.	Unspecified injuries	Neck - unspecified	2020/21	
stress	Unspecified diseases	Brain	2020/21	
Tripped/ rolled ankle	Unspecified injuries	Upper arm	2020/21	
Over a long period of time being made to feel I'm not good enough. Constantly being told there was a complaint made about me, but there was no complaint made. Punished for things I didn't know were wrong. Constant lying.	Depression	Psychological system in general	2019/20	
Supervising students, arm was yanked by student	Tendinitis	Elbow	2020/21	
Not Advised	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
Inhaled dust & hay	Asthma	Respiratory system in general	2020/21	
Rolled left ankle in workshop - fell onto [redacted] shoulder/arm	Trauma to muscles/tendon not classified	Shoulder	2020/21	
Trying to separate fighting students	Musculoskeletal/connect tissue unspecif.	Elbow	2020/21	
Punched on the inside of right inner arm and then pushed by a student.	Trauma to joints/ligaments not classifie	Neck and shoulder	2020/21	
Supervising Students on [redacted] - assisting one Student with shoes and they jumped, impacting [redacted] chin	Other intracranial injury, not specified	Brain	2020/21	
Walking towards front of class - stepped over Child's feet. Child swung feet and I had to overstep to avoid them - landed heavily and felt instant pain in back	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
Worker was walking from her class room to the [redacted] building, not 100% sure how buy I think my foot rolled on the edge of the walking path causing me to fall over	Other fractures not elsewhere classified	Elbow	2020/21	
on duty underneath [redacted] playground- ground has eroded, walked across uneven ground there is a [redacted] which covers the hole in the ground, i then fell into it the hole and fell to the ground	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
I was restraining a student on the ground in a fight and injured my neck	Unspecified injuries	Neck - unspecified	2020/21	
Running after Student who had left school grounds - wearing high heeled shoes	Fasciitis	Foot	2020/21	
Head butted to [redacted] lower orbit/cheek	Soft tissue diseases due to non-traumati	Face	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Playing game of § 47(2)(b) with Students - chasing Student and felt 'pop' § 47(2)(b) groin area	Trauma to muscles/tendon unspecified	Abdominal muscles and tendons	2020/21	s.47(3)(b) - Contrary to P
Repeated use / projection of voice to Students on full time basis	Other diseases of respiratory system	Neck - internal organs and glands	2020/21	
Student was outside classroom misbehaving, I tried to redirect/guide her with my hand on her arm - my § 47(2)(b) bent backwards	Trauma to muscles/tendon unspecified	Thumb	2020/21	
Tripped and rolled my § 47(2)(b) ankle, on the foot path.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
§ 47(3)(b) - Contrary to Public Interest On Playground Supervision - Student headbutted lower back area	Trauma to joints/ligaments unspecified	Lower back	2020/21	
Edge of metal music stand impaled	Laceration not involving amputation	Lower leg	2020/21	
In her § 47(3)(b) had § 47(2)(b) § 47(2)(b) in a support meeting behaved aggressively threatened her and abuse her at work § 47(3)(b) - Contrary to Public Interest	Anxiety/stress disorder	Psychological system in general	2020/21	
tripped over furniture and twisted knee	Soft tissue due to trauma/unknown mech.	Knee	2019/20	
Separating Student fight - injured § 47(2)(b) foot	Trauma to muscles/tendon unspecified	Foot and toes - unspecified	2020/21	
Caught a § 47(2)(b) off the ground and jarred finger	Other fractures not elsewhere classified	Fingers	2020/21	
The claimant was walking down an § 47(3)(b) - Contrary to Public Interest to where the buses were parked to start his rostered bus duty, and his § 47(2)(b) foot slipped forwards due to the slope which jarred his § 47(2)(b) knee	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Tripped in the hallway of office	Fractured skull and facial bones	Nose	2020/21	
Physical assault / punched to head	Neck pain, cervicalgia	Neck bones, muscles and tendons	2020/21	
I tripped over a chair in the office and twisted my § 47(2)(b) knee.	Trauma to muscles/tendon unspecified	Knee	2020/21	
Playing § 47(3)(b) thumb collided with a students body when attempting to tag the student.	Other fractures not elsewhere classified	Thumb	2020/21	
§ 47(2)(b) knee hyperextended, when standing on uneven ground and caused immediate pain and instability	Trauma to joints/ligaments unspecified	Knee	2020/21	
Playing § 47(3)(b) - Contrary to Public Interest Tagged a player and his § 47(2)(b) finger got caught in opposition players shorts .	Not known	Fingers	2020/21	
Repetitive use of barcode scanner across a wide desk in the library	Tendinitis	Shoulder	2020/21	
§ 47(2)(b) bent over to plug her laptop into the power point, as she stood back up felt pain in lower back.	Other specified soft tissue diseases,	Lower back	2020/21	
Got injured badly with a deep cut on the knee after tipping over the walkway besides the § 47(2)(b) of the school. I was treated by first aid of school. School admin notified my § 47(3)(b) - Contrary to Public Interest	Laceration not involving amputation	Knee	2020/21	
Walking down stairs	Other fractures not elsewhere classified	Foot	2020/21	
patient tripped due to a concrete elevation while walking in the school playground	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Shut door on finger	Contusion, bruising, superficial crush	Fingers	2020/21	
Patient was playing § 47(2)(b) with school kids and fell on uneven ground and twisted her ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	
§ 47(3)(b) - Contrary to Public Interest was assisting the teacher with a student. The student decided to leave the room and tried to lock § 47(3)(b) - Contrary to Public Interest A few minutes later they heard a loud noise and went out of the kitchen to investigate. § 47(2)(b) - Contrary to Public Interest § 47(3)(b) and a cloud of dust was on the air when § 47(3)(b) came out of the kitchen. She inhaled the powder that causes the scratch throat	Other respiratory diseases, unspecified	Respiratory system in general	2020/21	
student pulled back her 2nd finger	Muscle/tendon strain (non-traumatic)	Fingers	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Chemical injection of fire extinguisher - dry chemicals A:B (E) class. Child sprayed fire extinguisher at s.47(3)(b) - Contrary to Public I who had an asthma attack and had powder all over her. Assisted child who was coughing and distressed. Tasted powder	Asthma	Respiratory system in general	2020/21	s.47(3)(b) - Contrary to P
Tripped over - fell forward onto hands and knees	Contusion, bruising, superficial crush	Knee	2020/21	
Inversion injury to ankle at work	Trauma to joints/ligaments unspecified	Ankle	2020/21	
A student was having a violent episode attacking other students. The worker and 2 other staff members intervened trying to stop the student from attacking other students as this was happening the student's foot landed on the worker's s.4 ankle. Worker felt pain in their s.4 ankle and foot immediately.	Trauma to muscles/tendon unspecified	Ankle	2020/21	
Walking and tripped - fell forward	Unspecified injuries	Chest - other and multiple	2020/21	
s.4 ankle sprain	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Twisted s.4 ankle during work	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Slid down bank at s.47(2)(b)	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Walking on pavers (quite uneven) - tripped on edge of paver and fell forward	Meniscus degenerate/detached/tear	Knee	2020/21	
Twisting on extended knee with heavy load carrying	Trauma to joints/ligaments unspecified	Ankle	2020/21	
walking from a cement level to ground and rolled my ankle	Superficial injury	Knee	2020/21	
Human bite - Supervising students, student bit s.4 leg behind knee cap drawing blood	Fractured skull and facial bones	Tooth	2020/21	
Headbutted and bitten by student.	Medical sharp/needle-stick puncture	Hand	2020/21	
A s.47(2)(b) - Contrary to Public I - lifted the needle and may have thought he put the cap on - happened quickly and got her in the hand forward - as he moved the needle forward	Back pain, lumbago, sciatica	Lower back	2020/21	
Tripped over on grassed area, fell and hurt bottom and s.4 leg, twisted s.4 knee and s.4 ankle, jarred her back	Unspecified injuries	Knee	2020/21	
Playing s.47(2)(b) with Students - moved suddenly to s.47(1) ball, twisted s.4 knee and felt immediate pain	Contusion, bruising, superficial crush	Upper back	2020/21	
Lifting a student's project into a ute.	Neck pain, cervicalgia	Neck bones, muscles and tendons	2020/21	
Was reaching over bin to unlock and s.47(1) ball connected with face, neck, jarring neck	Traumatic tearing from muscle, avulsion	Lower leg	2020/21	
Umpiring a s.47(2) game - IW was running when felt a pull in the calf area	Trauma to joints/ligaments unspecified	Shoulder	2020/21	
Fell off a step on the s.47(2)(b) landing from about a 50cm height	Trauma to muscles/tendon unspecified	Knee	2020/21	
Worker has been kicked by student in s.4 knee	Unspecified injuries	Neck - internal organs and glands	2020/21	
Heavy Vocal load at work - in classroom and playground	Laceration not involving amputation	Other specified multiple locations	2020/21	
Student s.47(2)(b) did not want to play during break, wanted to enter classroom, door was locked, while explaining to him would need to wait until the break was over to enter the room, he unexpectedly reached out and pulled subscription glasses from face and threw them across the deck.	Soft tissue due to trauma/unknown mech.	Face	2020/21	
Assaulted by Student	Trauma to joints/ligaments unspecified	Knee	2020/21	
Participating in s.47(2)(b) staff event. Dropped knees to avoid collision with child and landed on s.4 knee	Soft tissue due to trauma/unknown mech.	Other specified multiple locations	2020/21	
walking on cracked concrete, tripped on uneven concrete, was wearing flat sandals	Contusion, bruising, superficial crush	Lower leg	2020/21	
s.47(2)(b) - Contrary to Public I Turned to talk to a Student and tripped on a rock	Fasciitis	Foot	2020/21	
Moving heavy resources around School for 2 weeks - repeated pushing trolleys, lifting boxes etc.	Laceration not involving amputation	Forearm	2020/21	
Student bit and scratched.				
Child bit on s.4 forearm 2 sites + fingernail scratches same area.				

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Timber fell on right wrist while lifting a [§ 47(2)(b)] on trailer and it slipped and fell on wrist.	Trauma to joints/ligaments unspecified	Wrist	2020/21	s.47(3)(b) - Contrary to P
I was walking quickly to pick up a box and I just heard a pop in my calf muscle.	Meniscus degenerate/detached/tear	Knee	2020/21	
Playing [§ 47(2)(b)] with the kids when ball accidentally hit [§ 47(2)(b)] thumb	Soft tissue due to trauma/unknown mech.	Thumb	2020/21	
Repeated use / projection of voice over several years	Unspecified injuries	Neck - internal organs and glands	2020/21	
I picked up a carty tray with books and as I picked it to put in the cupboard, one of my students went under so I had to extend my arm and wrist so it does not fall onto the student's head. I fell immediate pain.	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	
Tripped and fell over/rolled ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	
[§ 47(2)(b) - Contr] Struck head against whiteboard	Laceration not involving amputation	Face	2020/21	
False accusation from a Student	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
ankle rolled and fell in classroom	Other fractures not elsewhere classified	Ankle	2020/21	
I was just throwing [§ 47(2)(b)] with another staff member and hit the end of the [§ 47(2)(b)] finger.	Other fractures not elsewhere classified	Fingers	2020/21	
Worker was playing in the oval with kids [§ 47(2)(b)] and injured [§ 47(2)(b)] knee.	Unspecified injuries	Knee	2020/21	
[§ 47(2)(b)]: Waking along a pathway - tripped on uneven surface and fell	Other fractures not elsewhere classified	Foot	2020/21	
Walking on grass, twisting and had inversion injury of [§ 47(2)(b)] ankle	Trauma to joints/ligaments unspecified	Ankle	2020/21	
The nature of this injury is cumulative due to ongoing, persistent workplace bullying which has also resulted in excessive workload. It is not possible to determine an exact date of injury due to the ongoing impact of the factors contributing to the injury.	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
Trying to de-escalate a fight	Soft tissue due to trauma/unknown mech.	Neck bones, muscles and tendons	2020/21	
Collecting resources from room - slipped/tripped on mat inside the door and sprained [§ 47(2)(b)] ankle.	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Fall onto [§ 47(2)(b)] foot - jumped off stage	Other fractures not elsewhere classified	Foot	2020/21	
Contractors were installing air-conditioning units in [§ 47(3)(b) - Contrary to Public] when staff noticed and immediately notified the Principal.	Exposure to substances, no injury/diseas	Unspecified locations	2020/21	
Contractors were installing air-conditioning units in [§ 47(3)(b) - Contrary to Public] when staff noticed and immediately notified the Principal.	Exposure to substances, no injury/diseas	Unspecified locations	2020/21

Overuse due to teaching	Trauma to muscles/tendon unspecified	Neck and trunk	2020/21	
We were on a school excursion with year [redacted] students. [redacted] I was walking along from one obstacle to another on an [redacted]. Leg went into an awkward position and I felt instant pain.	Dislocation	Knee	2020/21	
Twisted by a student, pain and swelling	Soft tissue diseases due to non-traumati	Fingers	2020/21	
[redacted] I turned to put it on my desk at the back of the classroom - there was a low round table with stools behind me - I was carrying the [redacted] turned to walk around the table and tripped over the stool. I fell on the ground landing on [redacted] arm.	Tendinitis	Shoulder	2020/21	
Walking down stairs with boxes and bags and fell forward landing in her knee.	Soft tissue due to trauma/unknown mech.	Unspecified locations	2020/21	
From carrying basket from class to class with my computer and books in it tripped over a brick - landed slightly on an angle - landed on both knees and hands - only [redacted] knee is affected	Soft tissue due to trauma/unknown mech.	Elbow	2020/21	
Tripped and fell on [redacted] knee while walking down a hill - concrete path - no steps by a section dug out and bitumen out in - uneven - not redone as a normal concrete path	Contusion, bruising, superficial crush	Knee	2020/21	
	Bursitis	Knee	2020/21	
Fall Down Stairs	Trauma to joints/ligaments unspecified	Foot	2020/21	
On [redacted] - whilst playing [redacted] twisted awkwardly (pain worsened over the evening)	Meniscus degenerate/detached/tear	Knee	2020/21	
Carry bag of heavy books	Trauma to muscles/tendon unspecified	Thumb	2020/21	
[redacted] exposure with known allergy to [redacted]	Other respiratory conditions	Unspecified locations	2020/21	
Slipped on lino floor in classroom, twisted [redacted] knee and fell hard on the floor.	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Repeated bullying by School Principal for several months	Anxiety/stress disorder	Psychological system in general	2020/21	
Carrying whiteboard down slope	Meniscus degenerate/detached/tear	Knee	2020/21	
Stepped backwards off a path into a hole and fell backwards onto [redacted] shoulder and [redacted] toe.	Unspecified injuries	Shoulder	2019/20	
Over a period of time - hand overuse from use of hands and wrist from [redacted] in classrooms.	Carpal tunnel syndrome	Wrist	2020/21	
Anxiety caused by mould in department housing [redacted] was living in.	Reaction to stressors - other, multiple	Psychological system in general	2020/21	
[redacted] had to lift a teacher	Soft tissue due to trauma/unknown mech.	Lower back	2019/20	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Worker advised that they walking towards the playground area and the worker fell down 3 stairs and landed on their side bottom area on the concrete. Sometime in [s.47(3)(b) - Co	Back pain, lumbago, sciatica	Lower back	2020/21	s.47(3)(b) - Contrary to P
[s.47(3)(b) - Co] Playing [s.47(3)(b) - Co] with a Student and fell onto [s.47(3)(b) - Co] knee	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Repeated lifting furniture / flipping tables onto other tables / pushing bookshelves from carpet onto lino area for several hours	Disc displacement, prolapse, hernia	Lower back	2020/21	
Tripped on second last step carrying books - [s.47(3)(b) - Co] knee landed directly on cement	Contusion, bruising, superficial crush	Knee	2020/21	
Lifting heavy object off [s.47(3)(b) - Contrary to P] at work	Hernias	Abdominal muscles and tendons	2020/21	
IW was taking a [s.47(3)(b) - Co] at the school. IW was running.	Meniscus degenerate/detached/tear	Knee	2020/21	
Over period of time teaching talking	Neck pain, cervicalgia	Neck bones, muscles and tendons	2020/21	
tripped on exposed concrete	Soft tissue due to trauma/unknown mech.	Ankle	2020/21	
Tripped over chair/ Hooked Foot	Superficial injury	Knee	2020/21	
Heavy desk fell on the foot when she was arranging them.	Unspecified injuries	Foot	2020/21	
hoarseness and loss of voice due to repetitive type of work	Infectious diseases not unspecified	Neck - internal organs and glands	2020/21	
Foosh at school	Other fractures not elsewhere classified	Wrist	2020/21	
Opening Window	Laceration not involving amputation	Fingers	2020/21	
Inversion injury whilst on school excursion	Other fractures not elsewhere classified	Ankle	2020/21	
On a school trip going through [s.47(3)(b) - Contrary to P] and then went on the [s.47(3)(b) - Co] and my foot has got caught while on the [s.47(3)(b) - Co] and twisted.	Trauma to muscles/tendon not classified	Ankle	2020/21	
Slipped from student desk and landed on [s.47(3)(b) - Co] side	Contusion, bruising, superficial crush	Chest muscles	2020/21	
Tipping at work over a piece of protruding floor covering.	Fractured skull and facial bones	Nose	2020/21	
Tripped over raised small concrete barrier in staff carpark and fell onto nose.	Fractured skull and facial bones	Tooth	2020/21	
Relocating a student desk which hit her in the mouth breaking her front tooth	Contusion, bruising, superficial crush	Knee	2020/21	
[s.47(3)(b) - Co] foot stepped on rock rolled [s.47(3)(b) - Co] nkle and fell forward onto [s.47(3)(b) - Co] knee twisted [s.47(3)(b) - Co] knee in the process	Soft tissue due to trauma/unknown mech.	Elbow	2020/21	
she tripped on uneven ground and fell on her [s.47(3)(b) - Co] knee and elbow with body weight	Anxiety/stress disorder	Psychological system in general	2020/21	
I had arranged a meeting with the principal, [s.47(3)(b) - Contrary to P] also two witnesses were present. During this meeting, I verbalised my concerns regarding other team members conduct towards me, which has been ongoing for the last few years. Throughout the meeting, I felt unsupported and continued animosity towards me which [s.47(3)(b) - Contrary to Public Interest]	Other fractures not elsewhere classified	Fingers	2020/21	
[s.47(3)(b) - Co] months ago. [s.47(3)(b) - Co] finger injury whilst at work in school - teaching a class.	Disc displacement, prolapse, hernia	Unspecified locations	2020/21	
Incoming ball injury - caused ?hyperextension.	Ganglion, trigger finger, dupuytrens con	Foot	2020/21	
Lifting furniture at school on [s.47(3)(b) - Co] and woke up with severe [s.47(3)(b) - Co] arm pain on [s.47(3)(b) - Co]	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Walking up slight inclined hill to another Classroom - rolled [s.47(3)(b) - Co] ankle on uneven ground	Trauma to muscles/tendon unspecified	Knee	2020/21	
Liftin box from boot of car	Trauma to joints/ligaments unspecified	Hip	2020/21	
Fall at work	Soft tissue due to trauma/unknown mech.	Trunk - multiple locations	2020/21	
Lifted cabinet with a Colleague - sudden onset of severe pain [s.47(3)(b) - Co] hip with popping sound	Back pain, lumbago, sciatica	Upper back	2020/21	
Tripped and fell due to vegetation on a pathway	Tendinitis	Shoulder	2020/21	
Setting up new classroom and tables were stacked - flipped table over to be upright and felt pinch/sprain	Post-traumatic stress disorder	Psychological system in general	2018/19	
Had previous [s.47(3)(b) - Co] shoulder tear - returned to work in [s.47(3)(b) - Co] and tear worsened (pending additional info from Claimant re: mechanism)				
Extensive bullying from student during [s.47(3)(b) - Co]				

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Repeated holding of hand of s.47(3)(b) - Contrary to he would often pull on my s.47 hand (sometimes several times a day for several months)	Soft tissue due to trauma/unknown mech.	Wrist	2020/21	s.47(3)(b) - Contrary to
Walking between 2 blocks and rolled ankle stepped onto plastic pipe	Trauma to joints/ligaments unspecified	Ankle	2020/21	
I tripped while walking out of the sports hall and twisted my ankle.	Laceration not involving amputation	Foot	2020/21	
Boy jumped her from behind causing both to fall down, broke her nose, had concussion, later s.47(3)(b) shoulder pain, hip and knee pains	Trauma to muscles/tendon unspecified	Ankle	2020/21	
Standing up after sitting on Student chair for 2 hours - felt strain in lower back	Multiple injuries	Other specified multiple locations	2018/19	
I was bending over with school books spread on the floor labelling them as I stood up I felt a stabbing pain	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Repetitive strain / overuse - ascending and descending stairs	Back pain, lumbago, sciatica	Lower back	2020/21	
Progressively noticed speech difficulty in the last 12 months.	Bursitis	Hip	2016/17	
Catching books falling off shelf.	Other diseases of respiratory system	Neck - internal organs and glands	2020/21	
ongoing issues with s.47(3)(b) and other illnesses unable to cope at work at the moment	Musculoskeletal/connect tissue unspecif.	Shoulder	2020/21	
Fall at work onto concrete	Anxiety/stress disorder	Psychological system in general	2020/21	
Twisted the knee when climbing stairs	Laceration not involving amputation	Head - unspecified locations	2020/21	
Unpacking s.47(3)(b) using Stanley knife - as I cut, slipped and lacerated left palm	Bursitis	Knee	2020/21	
I was on my lunch break when and insect bit inside my upper lip, resulting in major swelling.	Laceration not involving amputation	Hand	2020/21	
Walking to class on the school footpath on school ground, whilst walking iw tripped on the broken part of footpath causing iw to fall down on to the ground on to s.47(3)(b) shoulder	Other and unspecified dermatitis	Mouth	2020/21	
on s.47(3)(b) a child hit on the chest twice. Another child on s.47(3)(b) bit her s.47(3)(b) forearm through the skin	Traumatic tearing from muscle, avulsion	Shoulder	2020/21	
Assaulted by heightened Student	Anxiety/stress disorder	Psychological system in general	2020/21	
Assisting a student from one area of the school to his classroom. Student dropped several times.	Anxiety/stress disorder	Psychological system in general	2020/21	
Fall at work, tripped on concrete path	Trauma to muscles/tendon unspecified	Neck and shoulder	2020/21	
Breaking up a fight between 2 students	Other diseases not elsewhere classified	Head - unspecified locations	2020/21	
Bending over to clean a table - felt pain when standing up	Back pain, lumbago, sciatica	Lower back	2020/21	
Was talking to student when tripped over toybox 40cm high. Fell faceward and then twisted to s.47(3)(b) and landed on back	Contusion, bruising, superficial crush	Knee	2020/21	
Punched by a student at work	Unspecified injuries	Face	2020/21	
Ongoing bullying and mental torture. Many incidence of principal bullying s.47(3)(b) indirectly. There is probably too many to list. A teacher has recently hired to fix the s.47(3)(b) - Contrary to Public Interest	Depression	Psychological system in general	2020/21	
tripped on standing frame and fell on knees face down	Musculoskeletal/connect tissue unspecif.	Lower back	2020/21	
Worker is at work speaking with the students and hit his hand with his desk	Other fractures not elsewhere classified	Fingers	2020/21	
RI style injury from desk work	Trauma to muscles/tendon unspecified	Wrist	2020/21	
Was walking down a corridao in admin building when someone walked out of a doorway and clipped s.47(3)(b) right foot, causing s.47(3)(b) to fall forwards hitting a wall on her s.47(3)(b) side in the process and ended up sprawled on the fall face down.	Contusion, bruising, superficial crush	Other specified multiple locations	2020/21	
tripped on the staircase at workplace	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
At work about s.47(3)(b) - a big role of paper dropped from a shelf a meter in height on her s.47(3)(b) foot.	Other fractures not elsewhere classified	Toes	2020/21	
Slipped whilst cutting a sheet of plastic.	Laceration not involving amputation	Fingers	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Worker walking down a footpath at school down a hill, lots of people standing on the pathway iw stepped off the path to walk around the people iw slipped tripped on uneven ground causing iw to fall & hurt ankle	Other fractures not elsewhere classified	Ankle	2020/21	s.47(3)(b) - Contrary to F
Fall while ascending stairs	Bursitis	Shoulder	2020/21	
Sitting [§ 47(3)(b)] m sitting for three days in uncomfortable chairs [§ 47(3)(b)]	Back pain, lumbago, sciatica	Back - other and multiple	2020/21	
Unstacking and moving desks, bookcases and chairs after the carpet cleaners had been through the classroom [§ 47(3)(b)]	Laceration not involving amputation	Fingers	2020/21	
Bitten by client on the finger [§ 47(3)(b)]	Other fractures not elsewhere classified	Fingers	2020/21	
[§ 47(3)(b)] Tripped on concrete path and fell forward	Laceration not involving amputation	Forearm	2020/21	
Assisting a student - Was bitten by a child at work	Trauma to joints/ligaments unspecified	Hip	2020/21	
I was stopping a student from leaving the classroom to an unsupervised area and that's when I heard the click.	Back pain, lumbago, sciatica	Lower back	2020/21	
Leaned over to assist a Student in class and strained lower back	Soft tissue due to trauma/unknown mech.	Head and neck	2020/21	
She fell down on stairs and hit her forehead to a door	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
kicked in the knee by a student	Trauma to muscles/tendon unspecified	Lower leg	2020/21	
Walking to Teaching [§ 47(3)(b)] (gutter was overflowing with rain and floor was wet) - stepped on [§ 47(3)(b)] leg, slipped/stumbled (did not fall)	Other fractures not elsewhere classified	Elbow	2020/21	
fall at work this morning- on the way to a meeting - tripped on the pavement	Trauma to joints/ligaments not classifie	Head and neck	2020/21	
Headbutted by student.	Back pain, lumbago, sciatica	Lower back	2020/21	
Stood up from chair at work - felt sharp pain in lower back	Soft tissue due to trauma/unknown mech.	Hand, fingers and thumb - other and mult	2020/21	
tripped on the concrete at work	Soft tissue due to trauma/unknown mech.	Head - unspecified locations	2020/21	
Child hit worker accidentally on the head with swing in the playground	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
Twisted knee in sandpit with kids	Laceration not involving amputation	Face	2020/21	
Whiteboard fell, with corner of board striking W forehead resulting in laceration	Meniscus degenerate/detached/tear	Knee	2020/21	
Fall at school yesterday in the wet	Occupational overuse syndrome	Hand, fingers and thumb - unspecified	2020/21	
Typing a lot of work	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Got up off the floor awkwardly and twisted something in the lower back.	Fractured skull and facial bones	Face	2020/21	
[§ 47(3)(b)] Demonstrating with [§ 47(3)(b)] and fell forward on face onto concrete floor	Laceration not involving amputation	Forearm	2020/21	
Bitten by student on [§ 47(3)(b)] forearm.	Superficial injury	Hand	2020/21	
Slid on muddy cement area	Trauma to muscles/tendon unspecified	Ankle	2020/21	
[§ 47(3)(b)] with students, doing warm up activity - crab run - when landed on [§ 47(3)(b)] foot, foot rolled, fell to ground on back	Other diseases of respiratory system	Lung, trachea and bronchus	2020/21	
Repeated use / projection of voice to teach and manage Student behaviour	Soft tissue due to trauma/unknown mech.	Hand	2020/21	
While removing furniture.	Trauma to muscles/tendon unspecified	Hand, fingers and thumb - unspecified	2020/21	
The worker was ushering a student off a moving swing set when hand got on the swing set causing injury.	Soft tissue due to trauma/unknown mech.	Lower back	2020/21	
Fall down approximately 7 stairs	Mental diseases, unspecified	Psychological system in general	2020/21	
Critical incident. [§ 47(3)(b)] works as a Counsellor and a student she counselled in [§ 47(3)(b)]	Other fractures not elsewhere classified	Forearm	2020/21	
[§ 47(3)(b)] Contaminated Pencil	Poisoning/toxic effects of substances	Forearm	2020/21	
Walking down wooden stairs - slipped and fell, struck [§ 47(3)(b)] wrist on step	Soft tissue due to trauma/unknown mech.	Foot	2020/21	
Weeding	Trauma to muscles/tendon unspecified	Neck and shoulder	2020/21	
[§ 47(3)(b)] Walking on paved footpath and carrying items - stepped with [§ 47(3)(b)] foot onto step, mis-stepped and lost balance, fell onto [§ 47(3)(b)] hand side of body	Dislocation	Elbow	2020/21	
After handing out a homework sheet [§ 47(3)(b)] was hit from behind by student with the homework sheet (paper) to the back of her neck.	Traumatic tearing from muscle, avulsion	Foot	2020/21	
Walking to Office on stormy day with Students - had my arm around a Student and as we ran, I struck [§ 47(3)(b)] elbow on a metal pole				
Twisted on uneven ground at work				

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Walking down the stairs and felt 'snap' in the back of [redacted] calf Felt pain after lifting a bag containing computer equipment - weight approx 4kg hit by ball Student walked up to teacher while in playground and hit both sides of her neck in chopping motion while screaming uneven ground Slipped from wet bitumen and fell A child head butted her at work Managing heightened [redacted] Student and he began to self harm [redacted] Cd [redacted] s.47(3)(t) tried to calm him but he was headbutting my [redacted] shoulder and bit me [redacted] forearm cut by stove when cleaning it inversion injury [redacted] ankle while walking down stairs Trying to de-escalate heightened Student - whilst assisting him to calm down, he punched me in the nose Hanging a students art work IW slipped while walking up wet stairs After being sat upon by a child at school Was in the classroom she went to turn around and felt her knee give way causing her to roll her ankle. Rolled foot on concrete ledge I was on one side of a security gate next to the playground. An older student was on the other side of the gate & pulled my hair from behind. incident occurred- outside of [redacted] classroom - the gate near there IW moving furniture for student to access room due to a [redacted] IW was taking unpegging things off the wall and sliding a desk out of the way felt a jab in [redacted] shoulder  Tried to avoid being injured by child when he kicked her. Patient missed the Interface between the concrete and grass and has an eversion injury of her ankle and fell Walking and running on [redacted] Cd Tripped on ty at work. Fall on outstretched thumb. Dislocated [redacted] thumb. Relocated himself. Continued to dislocate. Child was heightened and was removed from classroom, I was waiting in the doorway for an Office Staff to come. I turned around to re-enter classroom as the Student was threatening me - Student picked up a rock and threw it at me which struck back of my head  Workplace stressors Assaulted by student, scratched hand and face, nurt shoulder defending herself. Headbutted by student Worker was collecting a couple of students and was escorting a student back to [redacted] [redacted] Walker was walking along the footpath and had eyes up watching children near the toilet block. Worker had a hold of students hand who was to Workers right. Workers left foot that caught and then Worker went to put out right foot and also got caught on the lip of the cement and fell on [redacted] side of face pushing jaw across to the [redacted] causing fracture. Accident Description	Injury Nature	Injury Location	Incident Year	Region
student became escalated in classroom, was intent on getting to me , i was his target for the incident, we were waiting for more support to arrive so i would be safe and were trying to keep the door closed so he didn't cause more trauma, he then bit me, there was also bruises and scratches but the bite was the most significant	Laceration not involving amputation	Upper arm	2020/21	s.47(3)(b) - Contrary to P
I was sitting on a stool at a students desk (assisting a student). I was instructed to move back from a student. As I moved back the back legs of the stool folded in on itself (bent). I fell backwards off the stool and slammed by head against the floor (concrete covered with a thin mat).	Neck pain, cervicalgia	Neck bones, muscles and tendons	2020/21	
Sexually assaulted by a large male student at s.47(3)(b) - Contrary to Public in the classroom. Witnessed by two students. Teacher and teacher aide had just left the classroom. Student has history of violent and sexual behaviours.	Anxiety/stress disorder	Psychological system in general	2020/21	
slipped over in mud in car park at work	Other fractures not elsewhere classified	Lower limb - multiple locations	2020/21	
I tripped on a surround on a metal manhole cover while walking to my classroom on the school grounds.	Back pain, lumbago, sciatica	Upper back	2020/21	
Sudden onset of s.41 knee pain while teaching students - s.41 knee locked assoc with significant pain	Muscle/tendon strain (non-traumatic)	Knee	2020/21	
Chasing a child at work	Traumatic tearing from muscle, avulsion	Lower leg	2020/21	
Verbal and physical abuse from students - ACCEPTED	Anxiety/stress disorder	Psychological system in general	2019/20	
Support offered regarding above events - found to be reasonable - DENIED				
OPT s.47				
retrieving equipment from inside a s.47(3)(b) - Contrary to Public i removed 4 wheelie bins filled with sporting equipment s.47(3)(b) - Contrary to Public my s.41 foot caught the s.47(3)(b) which caused injury	Trauma to joints/ligaments unspecified	Knee	2020/21	
Running after toddler who was heading to the road	Fasciitis	Foot	2020/21	
accidental fall at work around s.41	Trauma to muscles/tendon unspecified	Knee	2020/21	
I was lifting a box off the shelf, it slipped out of my hands and fell, it was a bit heavier than I anticipated, as it fell it pulled my finger away from the hand	Dislocation	Fingers	2020/21	
I had entered the school and was going up the stairs to enter my Room, when I tripped on one of the steps, landing / falling awkwardly, rolling my ankle in the process. I felt an aching pain on the outside part of my foot.	Trauma to joints/ligaments unspecified	Foot	2020/21	
Bulling and harrassment by work colleagues	Anxiety/stress disorder	Psychological system in general	2020/21	
falling between book case and table in the class room	Soft tissue diseases due to non-traumati	Knee	2020/21	
Tripped on a chair after instructed to take poster down, tripped over the leg of the chair and attempted to miss table and fell and landed on arm	Other fractures not elsewhere classified	Forearm	2020/21	
Stood up to attend a meeting, as I have pushed the chair back and turned around I have caught the right foot on the chair and fallen to the left and fell into a shelving cupboard with my s.41 ankle got caught causing it to twist.	Soft tissue due to trauma/unknown mech.	Ankle	2020/21	
A student hit him from behind and pushed the shoulder	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
I was sitting at a table with a group of students. A student stood up next to me and accidentally put their chair on my foot. I pulled my foot back quickly and felt my knee give	Meniscus degenerate/detached/tear	Knee	2020/21	
child s.47(3)(b) - Contrary to Public threw chair and hurt her s.41 wrist	Contusion, bruising, superficial crush	Wrist	2020/21	
Supporting in a Classroom - tried to redirect a Student and he slapped me across the s.41 hand side of face with open palm	Unspecified injuries	Ear	2020/21	
s.47 handed. Elbow repetitively pulled by student at school over period of time	Trauma to tendon	Elbow	2020/21	
I was looking for one of the students and was hurrying down to the oval, I was going down a slope that was not level.	Meniscus degenerate/detached/tear	Knee	2020/21	
I did not fall, but felt something, as i put down my s.47 foot felt pain in the knee.				

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Fell and twisted [redacted] ankle in office tripping over hazards on floor	Trauma to joints/ligaments unspecified	Ankle	2020/21	s.47(3)(b) - Contrary to F
Helping a teacher move her classroom equipment - going up steps, lost balance, and fell on the [redacted] outstretched hand.	Unspecified injuries	Wrist	2020/21	
Twisting knee. Carrying files upstairs and twisting [redacted] knee. Aggravated by getting on knees to do [redacted]	Musculoskeletal/connect tissue unspecif.	Knee	2020/21	
Chair broke while worker sitting in it, struck back of head on filing cabinet head	Other intracranial injury, not specified	Brain	2020/21	
Assisting student toileting	Trauma to joints/ligaments unspecified	Knee	2020/21	
The worker was playing [redacted] with senior students and the worker went to incept a pass and worker sustained injury	Dislocation	Shoulder	2020/21	
Demonstrating [redacted]	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	
Tripped over by a young child coming down stairs at work (school) jarring her lower back	Trauma to muscles/tendon unspecified	Lower back	2020/21	
While on playground duty playing [redacted] slipped and fell forward onto face.	Laceration not involving amputation	Face	2020/21	
Slipped on a nut	Trauma to muscles/tendon unspecified	Ankle	2020/21	
Holding an [redacted] while doing bus duty and [redacted] experienced shock through the [redacted] hand	Effects of weather etc no classified	Unspecified locations	2020/21	
[redacted] Attempted to catch large Student who had fainted - Student fell on [redacted] and took her to the ground	Disc displacement, prolapse, hernia	Lower back	2019/20	
going to do bus duty, there was a tree root, walked on the tree root then tripped over and fell on my knee	Soft tissue due to trauma/unknown mech.	Knee	2020/21	
unfair treatment with placement at [redacted]	Depression	Psychological system in general	2020/21	
Twisted while jumping over box	Trauma to joints/ligaments unspecified	Ankle	2020/21	
Carrying of heavy student back pack a few times due to assisting student with disability.	Contusion, bruising, superficial crush	Upper back	2020/21	
Supervising on Lunch Duty - told a Student it was inappropriate to have a [redacted] and he struck me with his lunchbox and fist several times	Contusion, bruising, superficial crush	Forearm	2020/21	
fell over going to another classroom, fell to the ground concreted area	Contusion, bruising, superficial crush	Head - unspecified locations	2020/21	
Walking across grass area	Soft tissue due to trauma/unknown mech.	Ankle	2020/21	
Pushed into wall - student headbutted [redacted] in the chest, he hit the back of his head on brick wall, immediate loss of consciousness	Multiple injuries	Head - unspecified locations	2020/21	
student punched her [redacted] shoulder and pulled her [redacted] upper limb	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
incident with student at school - pushed against door frame	Contusion, bruising, superficial crush	Forearm	2020/21	
Dropped [redacted] on foot	Other fractures not elsewhere classified	Foot and toes - other and multiple	2020/21	
A child pulled out a chair & I tripped on the chair	Trauma to muscles/tendon unspecified	Knee	2020/21	
tripped over whilst carrying a shoulder bag, I managed to catch myself before falling over, but the jerk motion caused a trauma to my neck	Soft tissue due to trauma/unknown mech.	Neck - unspecified	2020/21	
Just sitting talking to colleague and something flew into [redacted] eye	Foreign body on external eye, ear, nose	Eyeball	2020/21	
Student was heightened and trying to climb 6-ft gate - I tried to de-escalate him but he kicked me several times to my [redacted] shin	Soft tissue due to trauma/unknown mech.	Lower leg	2020/21	
holding child, wriggled out of arms, landed with both feet on my foot	Contusion, bruising, superficial crush	Foot	2020/21	
[redacted] refereeing a game with students and jogged 3 or 4 paces and felt sudden pain - indoor timber court - wearing trainers	Trauma to muscles/tendon unspecified	Lower leg	2020/21	
Heightened Student came up behind me - headbutted my lower back twice	Back pain, lumbago, sciatica	Back - unspecified	2020/21	
PUNCHED MULTIPLE TIMES TO UPPER BACK	Contusion, bruising, superficial crush	Upper back	2020/21	
IW chasing a [redacted] student who went out the front gate of the school. Just before IW got to the student, felt 'pop' in their knee.	Dislocation	Knee	2020/21	
Lifting child, toilet training etc	Soft tissue due to trauma/unknown mech.	Shoulder	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
Last week worker was in the Office Kitchen (tea room), another worker was getting s.47(2)(b) - Contrary to Public Interest and they have jumped back, worker has reacted twisting and felt pain in lower back which progressively has gotten worse.	Trauma to joints/ligaments unspecified	Lower back	2020/21	s.47(3)(b) - Contrary to Public Interest
A male student physically assaulted me in the classroom in a sexual and gendered way by deliberately touching my breast. He then repeatedly swore and tried to incite the class in a bullying way to humiliate me.	Anxiety/stress disorder	Psychological system in general	2020/21	
Injury to s.41 hand when dealing with an aggressive child, and the child threw a rock on to s.41 shoulder	Soft tissue due to trauma/unknown mech.	Hand	2020/21	
Fell into culvert beside play ground mat.	Unspecified injuries	Ankle	2020/21	
Whilst walking down stairs worker missed a step causing iw to fall over onto s.41 ankle	Trauma to muscles/tendon unspecified	Ankle	2020/21	
s.47(2)(b) - Contrary to Public Interest therefore they had to remove children due to safety reasons and had to be done quickly, therefore were moving children and some children required to be lifted due to their needs. Worker advised that later on they were sitting down (within 30 minutes) and they went to get up - worker advised that they could not get up and they had shooting pains across their lower back and the top of their buttocks. Worker advised that the next day it also moved to their s.41 shoulder.	Trauma to muscles/tendon unspecified	Shoulder	2020/21	
Missed two bottom steps on stairs and fell	Other fractures not elsewhere classified	Toes	2020/21	
While operating school gate to exit car park	Traumatic tearing from muscle, avulsion	Shoulder	2020/21	
student got aggressive and he went off and tried to escape, myself and the TA blocked the room to stop him, he went and banged his head and when we tried to stop him he bit me on my forearm and hand	Laceration not involving amputation	Upper arm	2020/21	
I was walking in the toilet and slipped on soap that kids had put on the ground	Other fractures not elsewhere classified	Toes	2020/21	
Forced hyper extension of shoulder trying to stop a student running past	Dislocation	Shoulder	2020/21	
Bitten by a child at work.	Laceration not involving amputation	Neck - unspecified	2020/21	
Door caught the elbow	Contusion, bruising, superficial crush	Elbow	2020/21	
Playing in a staff v students s.47(3)(b) game. A student threw the ball which hit my finger and it bent backwards and broke	Other fractures not elsewhere classified	Fingers	2020/21	
Lifting furniture/ table on last day of school for carpet cleaning	Trauma to tendon	Forearm	2020/21	
Unloading baggage from under the school bus	Trauma to muscles/tendon unspecified	Lower back	2020/21	
Student is quite unpredictable, wasn't close to him but away from him to ensure he was fine when walking in the school. Had to make sure school gate was closed so he wouldn't run off. He turned around with the pen unpredictably, trying to stab me and slash me across the arm, with a texter. Got me on stomach and underside of arms. Gave me s.47(3)(b) - Contrary to Public Interest	Anxiety/stress disorder	Psychological system in general	2020/21	
Student pulled & Pushed arm, punched & spat	Soft tissue diseases due to non-traumat	Shoulder	2020/21	
Was kicked on the back of s.41 ankle by a child	Unspecified injuries	Ankle	2020/21	

Accident Description	Injury Nature	Injury Location	Incident Year	Region
<p>whole day was just a lead up to this incident. This particular student had been having difficulties with him during the day. Allocated to him for the day, new for teacher and myself. s.47(3)(b) - Contrary to Public Interest</p> <p>onto the ground by the hair and was punching her into the face. Took the boy off her and other staff tended to her. I hold him and his fists and no reaction from the student. Walked with him all the way to the classroom, but no emotion following that event from that student. Frightened that student didn't show any remorse or emotion on what they did. Boy was a s.47. Reported to Dept. Principal on DOI.</p>	Anxiety/stress disorder	Psychological system in general	2020/21	s.47(3)(b) - Contrary to Public Interest
<p>Assaulted by student during play in class; student hit W with table and a chair, W used arm to protect himself</p>	Soft tissue diseases due to non-traumatic	Wrist	2020/21	
<p>Found out today that there was a leaking pip in the boys toilet and pool of water that I slipped on. I was doing a of toilet</p>	Laceration not involving amputation	Head - unspecified locations	2020/21
